

GETTING VACCINATED FOR COVID-19 IN KING COUNTY

COVID-19 vaccines are free and available regardless of health insurance, citizenship, or immigration status.

Vaccine Doses and Boosters

| | Moderna/ Pfizer | Johnson & Johnson |
|---|--------------------------------------|--|
| Initial Vaccine Series | 2 doses, at least 3 to 4 weeks apart | 1 dose of J&J |
| 1st booster (everyone age 5 and older) | 5 months after the 2nd dose | 2 months after the J&J dose, get a Pfizer or Moderna booster |
| 2nd booster Age 50+ Age 12+ who are immune-compromised | 4 months after the 1st booster | 4 months after the 1st booster |

Anyone age 5 or older with a moderately or weakened immune system may need additional doses. Ask your vaccinator or doctor about how many doses you should get.

All COVID-19 vaccines must go through rigorous testing before they can be used. Independent experts confirmed they meet high safety standards. Vaccines have been shown to be very effective at preventing serious illness, long lasting symptoms, hospitalization, and death.

You may feel side effects. Like other routine vaccines, you may get a sore arm, fever, headaches, or fatigue after getting vaccinated. These are signs that your body's immune system is building up protection.

TRANSPORTATION TO YOUR APPOINTMENT:

If you need a ride to your vaccination appointment, visit www.FindaRide.org or call the Transportation Resources Line at [425-943-6760](tel:425-943-6760) (Monday through Friday, 8:30 a.m.-4 p.m.)

If you need an interpreter, dial 5 and say the language you need when you are connected.
