

SYNAGOGUE SAFETY GUIDELINES

Please follow these Phase 3 guidelines, even if fully vaccinated.
Thank you for keeping all of us safe.

Virtual services are the safest way to reduce the spread of COVID-19.

- If hosting in-person services:
- Outdoor is safer than indoors
 - Shorter services are safer than longer services
 - The fewer people, the safer
 - Improve ventilation and airflow when indoors*
 - Assume that someone with COVID-19 is present
 - The more people vaccinated, the lower the risk

Wear face mask
(including clergy,
staff, and visitors)

Wash hands frequently
with soap and water

Practice social
distancing
(at least 6 feet)

Stay home if you have
COVID-like symptoms
or were exposed

Avoid sharing supplies
or readings. (Bring your
own readings, avoid
touching your lips.
Sanitize Torah
between use.)

Avoid shaking
hands

Avoid crowding

Elderly 60+ should
consider praying at home

Singing is high-risk and
allowed with restrictions.

Exit synagogue
after services end
