

Kobciyeyaasha COVID-19 ee la cusboonaysiiyay

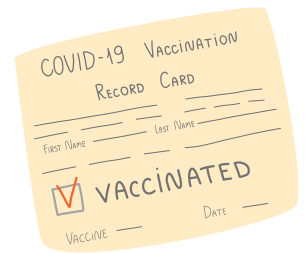

Xoojiyayaasha Moderna iyo Pfizer, sidoo kalena loo yaqaan **"bivalent boosters"**, ayaa beegsada noocyada Omicron iyo sidoo kale nooca asalka ah ee COVID-19.

Xoojiyeyaasha cusub waxay ka samaysan yihiin maaddooyin la mid ah kuwii tallaallada kale ee COVID-19, iyadoo laga beddelay mid ka mid ah borotiinada si loo beegsado noocyada Omicron.

Waa inaad heshaa xoojiye cusub haddii:

- Aad dhammaystirtay taxanahaagii aasaasiga ahaa, **iyo**
- Haddii ugu yaraan 2 bilood ay ka soo wareegay tallaalkaagii aasaasiga ahaa ee u dambeeyay ama qiyaasta xoojinta.

Waxaad dooran kartaa cusboonaysiinta Moderna ama Pfizer. Uma baahnid inaad hesho talaal la mid ah taxanihii hore ama xoojiyeyaashii u dambeeyay (illaa aad ka yar tahay 5 sano mooyee).

Tallaalka COVID-19 iyo xoojiyayaashu mar walba waa **bilaash**. Looma baahna caymis caafimaad ama caddaynta dhalashada.

Xoojisooyinka cusub waxaa laga heli karaa rugta tallaalka ee Public Health oo ku taala Auburn Outlet Mall iyo adeeg-bixiyeyaasha daryeel-caafimaadka, rugaha kale ee caafimaadka, iyo farmashiyada.
