This summer, King County will repair the aging concrete deck on the Landsburg Bridge 3075 on Landsburg Road SE over the Cedar River near Maple Valley and Ravensdale. The project is intended to extend the bridge’s useful life, reduce future maintenance and improve safety.

The bridge will be fully closed beginning 7 a.m., Aug. 9, and is scheduled to reopen approximately 11 p.m., Aug. 29. A detour route will be provided.

A full closure is needed to limit the duration of the traffic impact, maintain the quality of freshly poured concrete and increase safety for workers and the public.

Updates will be provided as construction progresses.

During the work, the Cedar River Trail and all adjacent parking lots will remain open, however, the public will have to access the parking lots and trail from the north.
