This summer, King County will repair the aging concrete deck on Woodinville-Duvall Bridge 1136E on NE Woodinville Duvall Road, west of Duvall. The project is intended to extend the bridge’s useful life.

The bridge will be fully closed beginning 7 a.m., Aug. 8, and is scheduled to reopen approximately 11 p.m., Aug. 15. A detour route will be provided.

A full closure is needed to limit the duration of the traffic impact, maintain the quality of freshly poured concrete and increase safety for workers and the public.

Updates will be provided as construction progresses.
