

Lynnwood Link Extension: Northgate to Lynnwood City Center

What you should know:

- The 1 Line is extending from Northgate to Lynnwood and will open as early as summer/fall 2024. Trains could run every eight minutes during weekday peak hours.
- Service to Lynnwood will roughly double when the full 2 Line opens in 2025.

As early as summer/fall 2024, Link light rail will extend from Northgate into Snohomish County, serving four new stations: Shoreline South/148th, Shoreline North/185th, Mountlake Terrace, and Lynnwood City Center. An additional station will open at NE 130th Street in 2026.

Service to Lynnwood was originally planned to open as an extension of both the 1 Line (Lynnwood–Angle Lake) and the 2 Line (Lynnwood–Redmond). However due to construction delays on the I-90 bridge delaying full 2 Line service into 2025, service to Lynnwood will initially operate as an extension of the 1 Line only, with trains up to every eight minutes during peak hours, every 10 minutes midday, evenings and weekends, and every 15 minutes early morning and late at night.

Sound Transit is continuing to evaluate how often trains will run when the four new stations open next year. Sound Transit anticipates trains will be crowded at times due to fewer trains running than planned and is working to provide the most service possible within constraints.

You can stay up to date on construction progress and service opening dates for this and other Sound Transit [projects here](#).

Partner agencies will change bus service to connect to Link trains as well. Visit [King County Metro's Lynnwood Link Connections website](#) and Community Transit's [Transit Changes page](#) for more details.

Timelines are subject to change. These proposals are not final and may change, be partially implemented or deferred in response to partner agency operating capacity.
