GENERAL NOTES:
1. Plant material must be in conformance with all seed, grade, species, and location requirements.
2. Prior to the start of work, the site shall be prepared of all natural vegetation.
3. All site conditions shall be assessed to ensure the success of the installation. Planting and installation shall be accomplished in accordance with the performance standards established for the project.
4. The landscape plan shall be considered complete and accepted when all work is completed and the performance standards are met.

PLANT INSTALLATION NOTES:
1. All site conditions shall be assessed to ensure the success of the installation. Site conditions shall be documented graphically to provide information for future monitoring.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All site conditions shall be assessed to ensure the success of the installation. Site conditions shall be documented graphically to provide information for future monitoring.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT MATERIAL SPECIFICATIONS:
1. Vegetation shall be selected to meet the performance standards established for the project.
2. Vegetation shall be selected to meet the performance standards established for the project.
3. Vegetation shall be selected to meet the performance standards established for the project.
4. Vegetation shall be selected to meet the performance standards established for the project.

PLANT MATERIAL INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

MITIGATION PLAN GOALS, MONITORING SCHEDULE, & STANDARDS:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

MONITORING PLAN:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION SCHEDULE:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANTING SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANTING SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT SITES:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.

PLANT INSTALLATION:
1. All vegetation shall be installed in accordance with the performance standards established for the project.
2. All vegetation shall be installed in accordance with the performance standards established for the project.
3. All vegetation shall be installed in accordance with the performance standards established for the project.
4. All vegetation shall be installed in accordance with the performance standards established for the project.
