Proposed North Highline Urban Design Standards
Attachment – location of affected area.
The proposed ordinance is a nonproject action that would apply to a section of unincorporated King County known as North Highline. North Highline is a 2.7 square mile urban unincorporated area of King County that includes the communities of White Center, Top Hat, Glendale, and the South Park “Sliver by the River.” North Highline is located south of the City of Seattle, north of the City of Burien, and west of the City of Tukwila.

The standards resulting from this non-project action will affect nonresidential, multifamily and mixed-use project in North Highline, which are largely expected to occur in the Community Business, Neighborhood Business, and Urban Residential 18 through 48 zoned areas, shown below, composing approximately one quarter of the land in North Highline. These areas are almost completely developed, so any potential development would be redevelopment or infill development. Industrial areas are not included in this non-project action.
