Additional Fees, If Required		
State building code surcharge (b)	\$6.50	Electrical permits are issued by the WA State Department of Labor & Industries. On-site septic design and installation, plumbing, and gas-piping permits are issued by Seattle-King County Public Health.
School impact mitigation	Fee Guide 03	
Fuel tank installation, relocation, or modification, each (k)	\$584	
Exempt domestic well:	State DOE \$350 King County \$150	
Site condition inspection or development monitoring, per trip	\$437	

- (a) Structural modification types are:
 - (i) any combination of walls, ceiling, floor, beams, columns, doors, fireplaces, or stairs
 - (ii) roof or truss structure
 - (iii) foundation or footings
 - (iv) pool or spa installation or modification
- (b) The State surcharge is not applicable to mechanical, sprinkler system, or tank permits.
- (c) Site review requirements depend on the storm water design manual and other standards and codes. Flow control or water quality facilities, critical area mitigation, other design elements, or forestry impacts requiring extensive review may be subject to additional fees. Land disturbance more than one acre will be charged the clearing or grading plan review and inspection fees per acre, as listed in Guide 05.
- (d) Plan re-submittals, after the second, are assessed review fees based on the plan changes as a portion of the total project, as determined by the department. The construction value of plan or permit changes may be used to determine plan re-submittal or permit revision fees.
- (f) Fee includes up to a maximum of six systems or components of wood stoves, boilers, furnaces, AC, or heat pumps per dwelling unit.
- (g) Includes porches or decks of any size, and accessory structures 500 square feet or less (not used for vehicular storage). Accessory structures include in-ground pools and spas.
- (h) Not used for vehicular storage. Accessory structures include in-ground pools and spas.
- (k) A permit is not required for residential propane/LPG tanks less than 125 gallons. If tank is in floodplain, critical area, or set-back from property line, additional plan review may be required.

2023-2024 Fee Guide 02
Single Family Residential Construction

- (m) If an application for a building permit for an accessory structure is submitted together with an application for a mobile home permit, and if the accessory structure is less than 600 square feet in area, the fee for the accessory structure shall be waived. (KCC 16.04.960.C)
- (p) Fees are determined by the quantity and complexity of review(s):
 - (i) Basic critical area or site review with standard conditions only: \$1,224
 - (ii) Multiple or complex reviews: \$2,178
 - (iii) Notice on title or easement review only: \$291
- (r) Plan review fee of \$584 is required if more than 10 sprinkler heads are installed or modified.
- (s) The fee includes review of two mirror images of a single registered plan.
