

Shoreline Exemption Application

Review Process

The information requested as part of the application is necessary to evaluate the merits of the proposal with applicable county and state regulations. Permitting review staff will visit the site.

Applications will be evaluated on the basis of the information provided by the applicant, the King County Shoreline Master Program, the State Shoreline Management Act, the King County Comprehensive Plan (KCCP), pertinent provisions of the King County Code, and a site inspection(s).

Shoreline Exemption application decisions are made administratively. Upon conclusion of the review a written decision will be issued to the applicant. A copy of the decision will be sent to certain state agencies and tribes.

A building permit and/or clearing and grading permit may be required to implement the requirements of a shoreline exemption approval.
