Airport-standard Chain Link Fence

Description:

- 8'-0" tall, black vinyl-coated fence fabric, posts, and hardware
- Posts on 10'-0" centers, 2 ½" diameter
- 3-strand barbed wire outrigger or equivalent anti-climb topper

Benefits:
- Extremely clear visibility through the fence fabric, which is beneficial for viewshed purposes and is also beneficial for perimeter security visibility
- Repairs can be done rapidly and without specialized labor
- Materials for repair/replacement are readily available
- Lowest cost of all options

Community Concerns and Cons:
- Industrial or "common" appearance
- Can be cut with hand tools eventually
- Can be climbed if the topper is defeated
