

**King County
International Airport
Boeing Field**

Department of Executive Services -- Airport Division
Roundtable Meeting Minutes for April 11, 2022

5:10 p.m. Meeting called to order by John Parrott, Director

1. Welcome (John Parrott)
2. Land Acknowledgement (Holly Krejci)
3. Roll Call
4. Approval of Minutes – We had a quorum; March’s meeting minutes were approved.
5. KCIA High School Interns (David Decoteau)
 - i. Landin Reibman (King County Career Launchpad) – Landin is a young pilot interested in aviation for his future goals and is enjoying his time as an intern working with the Airport’s Operations team.
 - ii. Keyeleas (Key) Brewer (King County Superior Court Juvenile Program) – Key is an intern with the Airport’s Customer Service team and she is learning about the Front Desk and badging duties with Lorenzo Clara.
6. Airport Updates:
 - i. Airport Noise Report (Alyssa Dean) – Alyssa updated the Roundtable members on the latest information for noise reporting. Project updates: (1) KCIA’s six noise monitors are scheduled to be updated in May 2022 which will give us real time data. (2) Noise monitor site project (CIP project 2024) will be adding three new noise monitor sites, we are in the initial stages with community engagement groups and a survey. The Plane Noise and flight tracking website have been live for two years now and the Airport will be looking for feedback from the community on assessing the results by June 2022.
 - ii. SeaFair Planning Events (David Decoteau) – SeaFair returns to Seattle this year and the Airport is interested in feedback from the Roundtable members on plans for a temporary closure of Hardy Street next to Ruby Chow Park for viewing the Blue Angels. Also, the Airport was considering providing water to the public for this event. (For the May meeting staff to provide more options on providing water for the public, canned, or refillable bottles, etc.)
 - iii. Story Pole (Chief Thomas) – The Airport is working with 4Culture on this project and we are hoping to have this completed in 2023.
 - iv. KCIA Roadside Clean Up April 20 (Chief Thomas) – Roundtable members who would like to participate on Wednesday at 8:30 am can meet us at the Maintenance Shop. We will provide everything for this event so feel free to come out.

- v. Georgetown April 23rd Clean Up Event (Chief Thomas) – Roundtable members who aren't able to attend the Airport's roadside cleanup on Wednesday can participate in the Duwamish Community Coalition Georgetown/South Park clean up event on Saturday.

7. Items for Consideration:

- i. Memorial Bike Rack (David Decoteau and Davey Pilley) - The Airport would like the Roundtable members thoughts on a commemorative bike rack in front of the terminal. This would be designed to remember Mike Colmant who passed away in April 2021. Mike was from Canada and the bike rack stand the Airport had selected resembles the Canadian maple leaf-design. There will also be a plaque recognizing Mike at the site of the bike rack. Joel Funfar made a motion and Ali Lee seconded moving forward with this project and the Airport will provide more information as the project develops
- ii. Aviator's Memorial (David Decoteau and Chief Thomas) – The project is moving forward to recognize pilots from Boeing Field. This will be located at the north end of the Terminal by the water fountain. Holly and Kelly were interested in any minorities or women pilots who could be recognized by this project. Ryan Tomasich shared that the Boeing Historian can provide additional information for the historical pilot community.

8. April Calendar of Events:

- i. KCIA Roundtable Advisory Committee Meeting April 11th
- ii. KCIA Roadside Clean Up April 20th
- iii. Georgetown/South Park April 23rd Clean Up Event

9. Chair's Report (Kelly Hafner) – Kelly reminded the members that if they have questions/comments for Airport leadership to feel free to reach out to them at any time or during the Roundtable meetings. Also, if there are agenda items members would like information on for specific topics to reach out to her and Holly.

10. Public Comment: Christian Poulson asked if the Airport was moving to unleaded avgas. John Parrot responded that the Airport's new fuel farm design will be setup for new aviation gas and that we can arrange for a future top on aviation fuels. **(We will have a speaker to address this topic at the June Roundtable meeting.)**

11. New Business -

*Next meeting will be held on Monday, May 9, 2022
