

BRIGHTWATER CENTER (BWC)

WELCOME!

We hope your visit to the Center and surrounding 73 acres of natural area is educational and inspiring. While at Brightwater you can enjoy:

- An education and community center built with sustainability in mind.
- Classrooms, exhibits, laboratories, and space for meetings, conferences, and community events.
- Artwork created by local and international artists.
- Three miles of walking trails through lowland and upland habitats.

ENGAGING PEOPLE

King County partners with Islandwood to provide a variety of educational programs for all ages that focus on concepts of water, ecosystems, and environmental stewardship. For upcoming program information, visit kingcounty.gov/brightwatercenter/education.

IslandWood is a local non-profit organization that provides exceptional learning experiences to inspire lifelong environmental and community stewardship.

Info available at islandwood.org.

EXPLORING WATER THROUGH ART

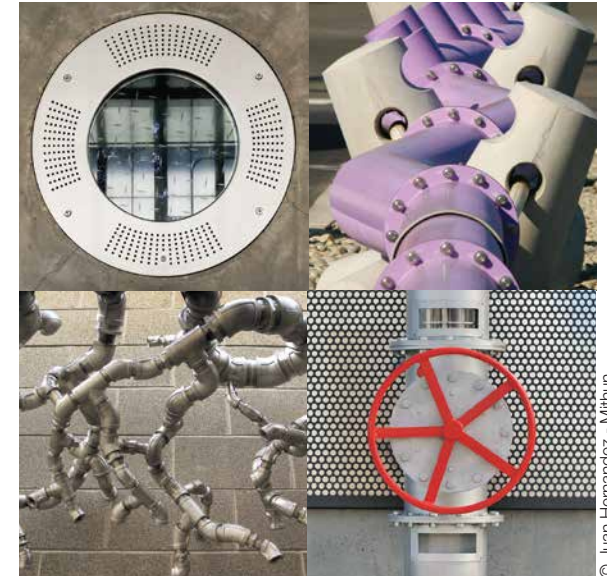

Walk around the Brightwater site, and you will find art installations that explore water, nature, science, and communities. These installations are part of the One Percent for Art Program, which allowed 1 percent of applicable Brightwater costs to be set aside to purchase and display public art that connects people to water and educates about water systems. Plaques are located near art pieces and are linked to QRL codes with additional information about the artist.

A SPACE TO USE

The community spaces provide meeting areas for community groups, conferences, business meetings, weddings and other special events. The community center has a large meeting space that can accommodate up to 250 people and can be broken down into three smaller rooms. Amenities include an exhibit hall, kitchen facilities, private dressing room and free parking. Tour our LEED Platinum buildings and imagine how this space can host your next event. For additional information and reservations, please visit the Brightwater website at kingcounty.gov/brightwatercenter/facility.
