

**Summary of Engineering and Planning (E&P) Subcommittee September 6, 2018 Meeting  
for MWPAAC General Meeting on September 26, 2018**

**Infiltration/Inflow (I/I) Reduction Concepts Program Update**

E&P discussed its recommendations for I/I reduction concepts that will be presented at the October 2018 full MWPAAC meeting. It is anticipated that MWPAAC would then recommend selected I/I reduction concepts to King County Wastewater Treatment Division for more in-depth evaluation. These concepts would then enter the implementation planning stage, where the details of each concept, such as roles and responsibilities, costs, and schedule would be developed. The implementation planning stage would occur in 2019-2020, with approval and implementation of I/I reduction measures to follow.

**Questions?** Lisa Tobin, Chair
