From the Director

Dear Friends,

Wow. What a year it has been – and it’s only July. Over the past few months, it seems as though every aspect of our lives and communities has changed. From battling a global pandemic to confronting the realities of race in our country, all of us have navigated through – and continue to navigate – the change all around us.

While many of us share our thoughts on social media or talk through what we see as possible solutions to the problems before us with our friends and family, it is clear that the drive to use our voices and have those voices heard is stronger than ever.

So, if you have had an opinion on anything that has happened this year, VOTE.

Use the voice afforded to you by the simple act of voting. You don’t have to vote on every race on your ballot for it to count. You don’t have wait in line for hours and hours to fill in the ovals next to your choice. All you have to do is open your mailbox, vote on the things you care about most, and stick it in a drop box or back in the mail to us.

We are here to count your vote, no matter what your opinion may be.

Join me in casting a Primary ballot by Election Day, August 4th. Join your neighbors in making your voice heard.

Happy voting,

Julie Wise, Director

You will not be voting on every item in this voters’ pamphlet. Use your ballot to identify the races and measures to review.

Your ballot will arrive by July 20.

Voting tips

Filling out your ballot

You can use any color of pen to complete your ballot.

Signing your envelope

Don't forget to sign the back of your return envelope so your ballot can be counted!

Returning your ballot

No stamp needed!

Mailing your ballot? **We recommend dropping your ballot in the mail by the Friday before Election Day to make sure it gets postmarked in time to be counted.** Ballots must be postmarked by Election Day, August 4.

You can also return your ballot at one of our ballot drop box locations listed on pages 6-7 of this pamphlet. **Ballot drop boxes close at 8 p.m. on Election Day, August 4.**

About the Washington Primary Election

In each race, you may vote for any one candidate listed.

The two candidates who receive the most votes in the primary will advance to the general election.

Each candidate for partisan office may state a political party that he or she prefers.

A candidate’s preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate.

More about the Top 2 Primary at www.vote.wa.gov.

Elected Experience

United States Representative, 2012-Present. Ways and Means Committee and Select Committee to Modernize Congress.

Other Professional Experience

Successful career as a businesswoman and entrepreneur. Former Microsoft executive, led local high-tech startups. Former Director of Washington's Department of Revenue, where I led efforts to simplify the tax system and help small businesses.

Education

B.A., Biology, Reed College; M.B.A., University of Washington.

Community Service

I've mentored students at UW Business School; been active in my church, serving as a board member. Volunteered with the PTA, Girl Scouts and YWCA, supporting transitional housing, job training and services to help families get back on their feet.

Statement

During this pandemic, families across the 1st Congressional District are struggling and concerned about the future. Now more than ever, we need strong leadership that's focused on helping those in need, protecting health and safety and restoring our economy. As your Congresswoman, I am determined that we come through this difficult stretch stronger than ever. My focus is on putting partisanship aside and delivering results.

The first known COVID-19 case struck in Washington State before anywhere else. President Trump denied the threat and wasted precious time. By contrast, I moved quickly, securing funds to backfill state and local public health accounts. Washington State immediately received over \$11 million, with continued ongoing support. I also advocated for employee retention tax credits to keep an estimated 60 million people employed with benefits. They were incorporated into the pandemic relief Heroes Act.

As the economy reopens we face an uncertain recovery. We need smart, decisive action to restore our economy. My background as a successful businesswoman and entrepreneur means I understand how to bring businesses back and create jobs.

My proposal to expand child tax credits, which could reduce child poverty 38 percent, has been incorporated into pandemic relief legislation. I also developed provisions, adopted last year, to make the process of applying for financial aid easier for students. I've pushed to expand farmers' access to markets, improve access to broadband, and to increase the supply of affordable housing.

My core values remain unchanged. As I have done from the day I took office, I'll protect Social Security, Medicare and a woman's right to choose. I have endorsements from Democratic groups, labor, local leaders and many others.

The fallout from this pandemic is challenging, but I'm committed to putting people back to work and preserving the middle-class. I ask for your support.

Steven Skelton (Prefers Libertarian Party)

Elected Experience

None

Other Professional Experience

Mr. Skelton is a consultant specializing in the business development of solo and small-partnership legal firms.

Education

A graduate of Lafayette High School in MO, Mr. Skelton is self-educated in the fields of economics and communication.

Community Service

Along with his wife, Mr. Skelton founded and operates the Snohomish Longhouse, a nonprofit providing meals, clothing, showers, and companionship to anyone in the community who needs it. This ministry represents his libertarian commitment to private charity by bringing together families from all backgrounds and socioeconomic levels for a shared meal ... and valuable community interaction breaking down the class barriers that separate us.

Statement

The primary declaration of my campaign is that the Democrat/Republican regime in Washington D.C. is irredeemable; they have abandoned responsible governance. We must instead elect third-party citizen legislators.

Washington's jungle primary system makes that possible: together, we can defeat the Republican in the primary, then face only the Democrat in the general election. There will be no "splitting the vote" concerns.

Despite the partisan warfare, there is zero difference between the major parties on the issues that matter. Both parties spend more on our military than Russia, China, and the next 14 largest militaries combined. Both parties post our troops around the globe where they cause more harm than good. Both parties have spent us to a \$25 trillion national debt, adding \$2 trillion more every year in deficit spending. Both parties have printed trillions of our dollars, destroying our savings and putting us in peril of Venezuelan-style currency collapse.

If you want debt, war, corruption, and scandal ... you can safely vote for either party. They will both deliver.

The Libertarian Party offers a different vision. We believe the armed forces exist to defend our country and its citizens from attack, not to police the world and participate in proxy wars on the other side of the globe. We believe the government should spend responsibly, no more than it takes in.

The founding fathers called the House of Representatives "the people's house." It was meant to be filled with citizen legislators. It was never meant to be run by career politicians. For too long, our district has been a second vote for Speaker Pelosi, as our representative is her loyal foot soldier, voting with the Speaker 100% of the time this Congress. It is time to return dignity and responsibility to our federal government.

Statement

The Future is What You Make It

Thank you dear hero for giving of your time to vote. I'm Matthew Heines and for you, a poem I wrote. It's about why you should check the box next to my name, That way, things will never be the same.

In 2016, I ran on my plan called Real Deal, We were facing so many problems it would make a nun steal. Since that time, Congress has stabbed us in our backs, Making a bonanza for dirty lawyers and their political hacks. Politicians put on puppet shows to justify their existence, While the hateful media covers up their malfeasance.

Of all we suspected before we know now to be true. If you ain't got no money, America don't care about you. The rich use racism, keeping the working poor in check, With hateful media, low wages and never ending debt. They manipulate you by pictures, songs and false words, But when the election is over, your voice is not heard.

Thanks to this virus, you got poorer while the rich took it all. They live in splendor, your back's against the wall. They make you wear masks and stay penned like hogs, While they sit in their mansions doing interviews with dogs. These politicians, they love to talk about their money. They show you their ice cream and they think that's funny.

Well, I'm Matthew Heines and I'm running for Congress. As a teacher, all of my life, I had to make do with less. To the millionaire incumbent we all have just one thing to say, "You've done enough damage, now get out of our way!" The future is what we make it, but we must read the signs. This sign says "Great future ahead, if you Vote 4 Heines."

Statement

American politics and politicians no longer serve ordinary citizens like you and me. They lack the collaborative mindset of striving and sacrificing together toward a common goal, a mindset that we instill in our youth, our teams at work, and the non-profit and civic organizations where we serve. As an independent, your vote for me is a mandate to work towards positive incremental change with anyone willing to put the interests of Washington State and America first.

There is always common ground to be found, especially on issues that divide us the most. My stance on any issue is informed and guided by my understanding of the facts in light of our shared American identity and values. We are resilient, compassionate, and kind. We cherish fairness, justice, the rule of law, and our Constitutionally protected liberties, as both originally written and later refined by the courts. We honor and commit to care for those who serve and protect our communities and our freedom. We root for the underdog and love redemption stories. We nurture the lives, well-being, and health of our families and all others in our community. We desire equitable ways to leave a better world, environmentally and economically, for future generations. We eagerly prepare for a future that will be fundamentally changed by innovation; innovation that must benefit us all, not just the few. We reject elitism, sexism, racism, and discrimination.

As an engineer, executive, board member, coach, mentor, neighbor, and friend, I have spent my life serving others, solving problems, building consensus, cutting through bureaucracy, and getting the job done; all in alignment with our American values. If you share this vision and these values, and desire to see them triumph over base partisanship and negativity, I ask for your vote and your support.

Statement

Hi, My name is Derek Chartrand and I am working hard to represent you in Washington's 1st District. Born in Bellevue and raised in Redmond, I have called beautiful Western Washington Home for over Four decades.

Today, politics need to change or we will get what we don't want: unresponsive, out of touch "career" politicians whose main goal is to fund-raise to get re-elected. Politicians should work for and be accountable to You, the voter. To that end, I Derek Chartrand pledge to serve you the voters and limit my term to no more than 8 years in Congress so fresh ideas have the chance to grow. I will work hard fostering relationships that will bind our similarities and celebrate our uniqueness to ensure all of us can pursue Our "American Dream."

Campaigning and driving part time for Uber the last 2 years, I have heard from thousands of voters. Your voice matters!

The cornerstones of my campaign are Common Sense and Civility. Let's make our country a kinder and gentler Nation. We are blessed to be Americans and we need to radiate that message. As a compassionate capitalist I'm mindful of our planet.

My first plank of my platform is education reform. We can improve the economy and help the middle class by providing training for trades jobs that are critically low such as electricians, fabricators, plumbers and truck drivers, and enhance STEM for our 21st Century economy.

I will use my talents and ability to work across party lines to ensure everyone in the first district feels like their children and grandchildren have a realistic path to "Their" futures success. Join me in using Common Sense and Civility in Washington DC as I ask for your vote to represent you! Together we can make a difference!

Statement

As a small business owner, HOA President, and Sultan City
Councilmember I have broad experience managing budgets, taxes,
and regulations. I have learned how to faithfully represent my
community's diverse perspectives, served as its watchdog against
wasteful spending, and helped our city achieve its highest bond rating.

Congress is supposed to represent you and work to solve the
problems that matter most. Immigration remains broken, Social
Security runs out of money by 2035, and our national debt grows
by Trillions of dollars every year. It's also clear our nation needs to
become more self-reliant, manufacturing more vital goods here and
not sending jobs and money overseas.

You deserve a fair, efficient, and effective tax system that supports
entrepreneurship, job creation, and everyday taxpayers, while
fulfilling societal needs and core responsibilities such as infrastructure
- bridges, highways, rail lines, and our power grid. Responsible
infrastructure investment may have prevented the I-5 Skagit River
Bridge collapse. As a board member of the US 2 Safety Coalition, I was
instrumental in acquiring over \$200 Million in safety improvements to
our rural highway. I will bring this type of experience to Congress.

I will fight any attempts to weaken or destroy your constitutional
rights, especially our 1st Amendment - freedom of speech, assembly,
religion, the press and our 2nd Amendment - your right to bear arms
to protect yourself and those you hold dear. We should especially
serve and lift up our veterans and military families who have sacrificed
for all these freedoms.

Finally, I believe that serving in Congress should be a short-term
privilege, not a career, with the goal of restoring America to its
founding values - a land where everyone has equal opportunity to
experience the richness of life, liberty, and the pursuit of happiness. I
humbly ask for your vote.

I am running for Congress to promote renewable energy technologies and fiscal responsibility and stopping wasteful spending.

Constitutional Amendment: Members of Congress are to handwrite all proposed law. If a member of Congress is physically unable to handwrite a proposed law another member of Congress can handwrite a proposed law for them.

The American railroad industry uses recycled plastic for its railroad ties. The U.S. Army has built bridges of post consumer plastic that are fire resistant to 700 degrees Fahrenheit. The world can turn waste plastic into fire resistant timbers to build houses around the world. Plastic house can be coated in galvanized steel to make them more fire resistant.

Wind power in small villages around the world can store their excessive electrical power as hydrogen gas in floating drums of similar design that are used in biomass to methane systems and produce electricity in steam engines.

Where it is not economical to run electrical power lines from run of the river electrical power systems to villages is to make hydrogen gas and transport the hydrogen gas to villages for storage in gasholders and produce electricity in steam engines. In larger run of the river electrical power systems is to take carbon dioxide out of the atmosphere and split water into hydrogen gas and oxygen. Use carbon dioxide and hydrogen gas to make gasoline and diesel fuel.

The best way to do geothermal power is to drill a traditional shaft down to the hot dry rock zone. Use flame jet drilling technology to carve out an underground cavern. Use advanced hard rock directional drilling technology to connect to the underground cavern for a 50 plus megawatt electrical power system. By the year 2050 we can install 500,000 megawatts of baseline geothermal energy.

Statement

My name is Jack Spencer Hughes-Hageman and I want to be your congressman. I am running a really tiny campaign in a pretty big city, but I got a lot of heart and I don't give up. I am committed to my goals and finding a way to win, it's why I watch Seahawks games and why I am running for congress. *My platform is very progressive and will be highlighted by repealing federal marijuana prohibition with universal amnesty, restructuring of the criminal justice system to better aide communities and the law enforcement that serves them, and immediate federal response to end the homelessness crisis sweeping the west coast and America abroad.* Though these may be highlights, they are just a small piece of my broader progressive platform. My stances on issues like education, healthcare, electoral reform, immigration and more can be found on my website. I am staunchly anti-corporate, and feel corporations have undue influence on our politicians. I do not take any payments from PAC's, I don't spend money on adverts, and I don't make social media appeals for donations. Honestly, I haven't collected any donations yet and I don't know If I will. Personally I don't feel comfortable asking hardworking people and families for money. I don't own stock, I am happy to release my tax returns, and I am not a millionaire. My progressive values are rooted in conservation of nature, equality, and realizing the pursuit of happiness. I was born in Seattle 28 years ago, and now I am running for congress to represent the people of this city and the 7th district of Washington. My name is Jack Hughes-Hageman and I would sincerely appreciate your vote for congress. Let's prove together that deep corporate pockets do not make a politician.

Statement

I am proud to represent and fight for our community in Congress. I came to America by myself when I was 16, and I have been a Seattle resident for thirty years. As your U.S. Representative, I am focused on ensuring everyone has quality health care, securing workers' rights, protecting our environment and public lands, welcoming immigrants, fighting for reproductive rights and LGBTQ equality, making college debt-free, and expanding Social Security and Medicare.

As Co-Chair of the Congressional Progressive Caucus, I introduced legislation to achieve Medicare for All, create tuition-free college, expand collective bargaining, and provide relief directly to workers and businesses during the COVID-19 pandemic. I've taken on other big fights too, including transitioning to a 100% renewable energy future, reforming our elections and getting money out of politics, increasing the national minimum wage, and pushing for humane immigration reform.

During my time as your Congresswoman, I've held 96 town halls to hear from you and fight for priorities like affordable housing and robust public transit and infrastructure. I have helped hundreds of constituents – including veterans and seniors – get over \$3.8 million dollars back in federal benefits.

As a Member of the Judiciary Committee, I have held this corrupt administration accountable and stood up against racist and xenophobic attempts to divide us. And I'll continue working to build an economy that works for everyone.

I'm proud to represent a district rich in innovation, diversity, and compassion. I do not take corporate PAC money because I am here to fight for you and your families, not the wealthy and well-connected. I would be deeply honored to have your vote.

Statement

Our political system is broken.

On average, it takes over a million dollars to win a congressional seat. A typical Congressperson must raise over a thousand dollars every day, just to keep their job. All the good they want to do, all of their plans, none of it will ever happen if they don't raise enough money to keep their job. This is a fatal flaw of our system. Even the best-intentioned politicians are forced to cozy up with rich donors if they want to keep their job long enough to accomplish anything. This is why our system works great for the rich, but poorly for everyone else.

I'm Rick Lewis. My background is in Military Intelligence, Business Development, Artificial Intelligence and Game Theory. Basically, I have the resume of a highly competent James Bond Villain. Over the last 25 years, I have used these skills to solve problems which many considered impossible. I have done this for numerous clients, including some of the biggest businesses in the world including the State and Federal government. Over my career I have found that real change only seems impossible if you don't have the vision to see past the big obstacles. In our current system, some of the biggest obstacles are money and its oversized influence. I have an approach to mitigate that influence, which will work within the law and receive broad bipartisan support. Addressing this issue will allow congresspeople to focus their capability and zeal on solving the problems of the voters rather than being forced to focus on the desires of their largest donors.

Please visit my website at <http://washington7th.com/> to learn how I will shift the focus away from money and towards solving the problems that so many of us face.

This is serious! Time to wash our hands of those who would exploit pandemic to "carjack" our medical and drug development businesses. Elect me to Congress to defend America's medical professionals and manufacturers who save lives. Trust MD Fauci.

I will defend your employment opportunities and wages by voting mandatory E-verify to block SSN thieves. I will also defend aspiring tech graduates by halting the abusive flood of H-1B visas (who pay no SS as American workers must). I will defend the quality and supply of medicines by voting to restore U.S. production.

I will defend our wonderful postal workers who serve us daily yet persevere inside our USPS bankrupted by unsustainable parcel contracts, which also undermine our devastated Main Street retail. I will vote to outlaw all robocalls.

For a decade I have volunteered my public service toward abolishing human and narcotics trafficking abetted by "sanctuary" harboring. Leadership efforts include successful citizen initiative petitions in Spokane and Burien. My First Amendment defense of Burien voters is now Supreme Court Petition 19-1219 [respectwashington.us]. In Congress I will block amnesty and its unspoken collateral drain from Social Security by those who defrauded our employment laws. Doubters may review the incumbent's vote to degrade the \$1200 pandemic aid eligibility requirement from SSN down to mere Tax Identification Number (issued to nonresident and illegal aliens) [HR6800 Roll Call 108].

Still, no one congressman can save you from this financial calamity unleashed by deceitful communists. Only you can protect your family by 1) investing in gold and 2) owning a firearm. Our heroes in law enforcement simply cannot replace you taking maximum responsibility for your family's safety during these trying times. Lastly, for Governor, please join me in voting Phil Fortunato whose Senate Bill 6030 would free Washington from the curse of "sanctuary" lawlessness.

Statement

The great intellectual slayer of Socialism, Ludwig von Mises believed that if we didn't teach economic freedom and Capitalism to "the immense majority", then "there is no hope left for mankind". Yes! When will we end the economic ignorance that has citizens going along and even morally encouraging these counterproductive Coronavirus lockdowns that have allowed hordes of economically ignorant 'well-meaning scholars' like Dr. Anthony Fauci and numerous politicians to inadvertently destroy our freedom and economic prosperity? Mises' protégé, 1974 Nobel Laureate in Economics Friedrich Hayek explains:

"Most people are still unwilling to face the most alarming lesson of modern history: that the greatest crimes of our time have been committed by governments that had the enthusiastic support of millions of people who were guided by moral impulses. It is simply not true that Hitler or Mussolini, Lenin or Stalin, appealed only to the worst instincts of their people: they also appealed to some of the feelings which also dominate contemporary democracies."

"It is necessary to realize that the sources of many of the most harmful agents in this world are often not evil men but high-minded idealists, and that in particular the foundations of totalitarian barbarism have been laid by honourable and well-meaning scholars who never recognized the offspring they produced."

Our freedom to choose transforms billions of free people into a global super-computer where all companies are motivated to innovate and learn from each other thus inadvertently cooperate to discover the best information with which to serve customers and reorder all of mankind. Freedom and competition, not coercive competition-immune government monopoly by 'experts', is what made America the greatest country on earth. Mises and Hayek saved us from Communism, now we must save ourselves from Communism by showing how "Freedom is The Ultimate Algorithm"!

Statement

We've lost trust in our institutions of government. This pandemic revealed there's no hope for Congress to work together with its current makeup. Democrat and Republican careerists have led by making bad situations horrible. They led us to endless wars from a terrorist crisis. Led us through the 2008 crash by taking our financial security. Now they're leading us by stripping hope for our children to have better lives.

It's time for everyone to pick a side. The quicker we unite under one party, the quicker we can overcome the suffering and rebuild. I took a risk when I voted for Trump and I'm glad I did. I don't agree with him on everything, but I'll work with him. I've learned that when you're under fire, sometimes it's better to choose the unknown and work through it on the way.

I will always bring an open mind to the floor, followed by a passionate drive to rebuild. America is taking a sharp turn toward self-sufficiency in every aspect. The federal government needs to invest in ways that put America first. We need to invest in ourselves and it must be accompanied with greater choice.

I don't want campaign donations. It's not right to ask for your money before your vote. I'll be clear if I win: on the following day at 12:01 am, I will announce my intent to bring open congressional hearings across our institutions, and call on Congress to subpoena any government official, civilian and military, suspected of misleading the public on the war in Afghanistan, election investigations, and this pandemic. America deserves the truth. We need to know where we fell apart, so we can rebuild it stronger and set an example for our children and grandchildren. That's what making America great again truly means.

Statement

You Deserve Representation in Congress that listens to you!

You deserve to be heard and understood. The US House of is the closest representation to the people and the most accountable branch of government elected every 2 years. It's also the most powerful branch of government, with the power of the treasury and the power of oversight. Representatives must serve the voters!

I believe public service should be like "jury duty", regular people like you and I should go and serve for a while, then return home and live under the laws we helped pass. That's real accountability. Career politicians are the biggest problem in government today. This has been demonstrated in real time with the handling of the coronavirus lockdowns. The good intentions that started the process quickly devolved into political favoritism and opportunities to advance agendas. This should never happen in an emergency or any other time. The "suspension" of our civil rights is an outrage and no freedom loving American should ever stand for it. I will always fight to defend your God given, constitutionally protected rights. I will fight to keep you free to live your life as you see fit and to keep you free from unnecessary government interference in your home, place of worship, and schools.

I support President Trump and his America first policy. I support strong borders and stopping the illegal immigration, human trafficking, and drug related gang activity that porous borders create. A physical barrier is needed as soon as possible. I also would seek to drastically reduce the disastrous H1B guest worker visa program. American companies need to hire American workers first!

I am a pro-life, pro-Trump constitutional conservative and I am committed to serve you in the U.S. Congress with energy, integrity, and commitment.

Statement

Our district is a tremendously diverse and hard-working community, one that I have been proud to call home my entire life. I grew up in the city of SeaTac, and have lived in Kent, Tacoma, and now Bellevue where I live with my wife Sara, and our children Kendall and Jack. Kendall is a Sophomore at the UW and Jack is a Junior at Issaquah High School.

As our nation faces unprecedented challenges, I am focused on strengthening the middle class, ensuring equality of opportunity for all, and investing in our future. We must provide a progressive path forward where everyone can thrive. Working class families, like the union one I grew up in, do not have the same opportunities as previous generations. This must change. We must grow from the middle out, increase economic opportunities, protect unions, make higher education more affordable and accessible, and provide good paying jobs.

All people, no matter their background, should have access to quality, affordable healthcare. Our healthcare system needs to be restructured to create a path to universal access to healthcare through a plan like Medicare for All. As the Chairman of the House Armed Services Committee, I have also prioritized making sure that all of our service members and their families, no matter who they are, receive the support they need and have earned.

I work hard to make sure every person in our district has access to the best this country has to offer; not only because it's the right thing to do, but because this is also my home—it's personal to me.

It is a true privilege to serve our community and I would be honored to have your vote.

Statement

Our state is at a crossroads. Washington faces rampant homelessness fueled by mental illness and addiction, out-of-control spending, a lack of adequate funding for transportation, the human tragedy of the opioid crisis, and now COVID-19. Whoever you elect as governor faces an \$8 billion shortfall. This is not a time for on the job training.

I am the only candidate with executive private-sector and legislative experience. I have an in-depth knowledge of budgetary issues and the effects cuts have on education and the most vulnerable, especially veterans, seniors and the disabled. I want to put taxpayers first, restructure state spending, reduce regulations and the size of state government. We can avoid massive tax increases or cuts to critical services that affect those most in need and I am the candidate to do that.

You can check my voting record and see the bills I've sponsored that address the problems we face like homelessness, public safety, mental health, transportation and the environment. I fought against the kindergarten sex ed bill, opposed needless tax increases that just grow government, and voted against policies that hurt your family.

Four years ago, the incumbent repeatedly promised not to raise taxes, only to sign \$25 billion in new taxes this year. Now, his inconsistent response to COVID-19 has caused untold economic and social devastation to families and small businesses around the state. As your next governor, I will be fair and transparent.

We must bring our state together. An urban-centric approach to governing which ignores the needs of rural Washington and our diverse economy, like agriculture, is not good for the state as a whole. Check out my comprehensive plan, the Blueprint for Washington. It refocuses state government to put the people back in charge, not special interests.

Statement

t's about to get even more complicated.

The next governor is facing a multibillion-dollar budget shortfall, widespread unemployment, a virus that will be with us for a while, plus lingering resentment over the shutdown. The next governor of Washington is going to need a skill set that we have not seen in politicians before.

This is not the time for angry ideologues. This is not the time to hire someone who uses this office as a steppingstone for their next job. This is the time for good management, servant leadership, real diplomacy, and complete indifference to partisan political fights.

The next governor needs to minimize the pain, so you don't notice it, and be completely transparent about what your government is doing. *Your government should be invisible when you don't need it, and readily available when you do.*

When one of my businesses suffered an 80% drop in sales due to a search engine change, I had tough choices to make. The answer wasn't to simply cut expenses, raise prices, and complain about taxes. Creative and unusual ideas were what saved that company and made it #1 in its industry nationwide. The next governor needs to be this creative, must value freedom and personal responsibility, preserve liberty and real justice for everyone, and must be a true representative of the people; not a lifelong politician.

I am running for governor to be your servant; to be the manager you hire to work on its greatest financial challenge. I am running to introduce creativity, efficient design, transparency, and diplomacy to state government. As a business owner, my entire job is making sure our customers and employees are served well. With your vote, your next governor will have that same obsession for serving you.

Community Service

Despite years of being treated like a criminal, by the criminals; I continue to rise above and remain an asset to my community. I work to provide services to families and citizens of Washington.

Statement

I was treated like a criminal growing up because I chose Marijuana over prescribed pharmaceuticals. But now the state picks and chooses who is allowed to sell and grow marijuana with its unconstitutional Lottery. decriminalize it and stop the states theft. I am a small business owner who was targeted and attacked by the corrupt and negligent powers of the current administration. In 2017, they ran me out of business, *slandered* me to customers and made false reports about me cooking meth. I asked, *even begged* them for help, but they just deepened their attack. but I am from Shelton a street fighter and because of our current President and the transparency, I was able to request and receive FOIA. I found out *exactly* what they were doing with overwhelming evidence. I taught myself law and represented myself *ProSe*. I took the state to the courts and won Thurston county superior court case 19-2-01200-34. I promise to fight and remove the corrupt levers of power that control our state; and I know where the Fraud and waste is going. So, I re-opened my store and started this grass roots campaign to take our state back. I trust the people of Washington to think for themselves and trust themselves, so I know you have my back. I have people who know me in every city in this state. We will change the levers of power together and turn the tide on the ones that tried to make us criminals. WWG1WGA, so, I can't lose. We will change it from the tippy top.

Rail worker and a member of the SMART-TD union. Eighteen years as a union coal miner in West Virginia and Alabama. Twenty-five years in other warehouse, manufacturing, construction, and retail jobs.

Education

Life as an industrial worker confronting capitalism's deepening economic, social, and moral crisis.

Community Service

Joining actions in support of unions, from the farm workers and fruit packers of the Yakima Valley, to struggles by smelter workers and miners in Arizona and Idaho. Participating in fights to unify the working class — against racism and police violence, in defense of women's right to choose abortion, and defending immigrant workers.

Statement

Workers and farmers face the long-term economic, social, and moral crisis of capitalism. The response to the coronavirus only exposed and accelerated this crisis.

Safety, wages, and working conditions are under attack in rail and truck transportation, factories and packing plants, and retail. Workers need to fight for control over production to win safe working conditions, manufacture and distribution of quality goods, and protect the environment.

Our party promotes an action program to unite working people internationally and break down the barriers between those of us employed and unemployed. The working class needs to work. That's where we go through struggles that bolster our confidence and strengthen our trust in each other and our capacities to fight. The Yakima Valley fruit packers' fight for safe working conditions and better pay is an example for all working people. We urge your solidarity!

The Socialist Workers Party demands the federal government fund a massive public works program now to provide jobs at union wages for the millions tossed out of work. Workers can build needed hospitals, housing, schools and day care centers and replace crumbling infrastructure.

Farmers need solidarity from the working class and must be guaranteed the cost of production. Irrational breakdowns in the food market cause the destruction of milk, vegetables and livestock, as millions face hunger. The government must distribute this food to those who need it worldwide. The bosses divide working people by scapegoating immigrant workers. My campaign fights for amnesty for all undocumented workers in the US.

Workers need a party that speaks in our interests—a labor party. We need to take political power from the bosses' class and establish a government of workers and farmers! Statement

As Governor, my mission will be to fix Washington's broken system. I'll bring my battle-tested experience and proven results reforming government to serve you.

Imagine if Jay Inslee hadn't betrayed voters by breaking his campaign promises to veto taxes, raising them 30 times instead. Imagine if Inslee hadn't recklessly shut down thousands of small businesses, forcing a million people out of work, while letting mega-corporations remain open. Inslee's lockdown spared his allies but punished everyone else. Inslee's actions always benefit the special interests that bankroll him.

As Governor, I will serve *you*. I'll reduce taxes, prioritize spending, grow our economy, guard your individual liberty, and protect your constitutional rights. For 22 years, I've fought for you with initiatives that *cut taxes, strengthened our communities and made our streets safer*. I've saved the people of Washington \$43 Billion, while Inslee's 30 tax increases cost citizens \$50 Billion. While *you can rely on me* to cut taxes—because I've done it over and over—Inslee admitted he's exploiting the economic crisis he caused to raise your taxes – he wants carbon taxes, income taxes, and a creepy “Pay-Per-Mile-Tax.” I'll block all tax increases.

Inslee's reckless policies created the most homelessness and violent crime in our state's history. I'll use common-sense strategies to get the homeless off the streets.

Inslee got away with taking \$5 million from taxpayers for his campaign. His cronies in Seattle tried overturning your vote for \$30 Tabs, saying you were “confused.” Under Inslee, this broken system no longer serves the people. Washington has a Seattle Legislature, Seattle Supreme Court and a Seattle Governor. Enough! It's time at least one branch of government represents the rest of us.

Inslee betrayed you. Trust me with your vote and I promise I will fight for you.

Our economy and society has forever changed. For better or worse, it is likely there will be no going back.

We owe a debt to our essential workers, who put their lives at risk every day, to provide them with childcare and tuition-free college or trade school. Our farmworkers deserve strong workplace protections. Our health care professionals deserve a reporting infrastructure that takes their demands and whistleblower complaints seriously.

Healthcare, including mental healthcare, should be covered for all Washington citizens. We need to shore up our domestic violence and child abuse prevention and reporting infrastructure. We need to incentivize K-12 online learning infrastructure and opportunities.

We need to support Native American communities and preserve our ecological inheritance. We need to preserve the Salish Sea and work towards the ultimate removal of the Snake River Dams, while supporting and compensating farmers and other stakeholders.

Finally, Amazon's practices have been anti-competitive and predatory. We need to transform Amazon into a public utility owned by the people.

Statement

Greetings fellow voters of our beginning Space Age. How do you want to lead your precious lives in this age of advancing, technological miracles? I, Goodspaceguy, want to help raise our living standard. Believing a higher living standard is possible, I studied business and economics and have taken science as a lifelong hobby.

Viruses will always attack you. Your immune system defends you. As governor, I will not shut down your businesses or forbid you to go to work. Shut downs lower the living standard. If we listen, economics can tell us how to raise the living standard. Scientific technology can also help raise our living standard. How can research, such as stem cell research, improve our bodies? How many robots would you want to supervise to make your work easier? Let's make it easy for people to get into the workforce so that more people can help with the raising of the living standard and the paying of their bills.

On our Spaceship Earth, I've lived primarily in Washington State, Minnesota, Maryland, Missouri, Germany, and Sweden. I've concluded that we should look upon our world as a natural and beautiful spaceship.

From economics I've learnt that we should move away from the big government, command economy of force that is a heavy burden on taxpayers. We should move toward the voluntary, competitive, free market economy which uses profit to create jobs that are in balance with what consumers want. You consumers rule.

Because many people have the same birth name as me, I could not find myself on the internet. I went to court to alter my name, and now you can find me. Please use my findable name "Goodspaceguy."

Separately, please refer to our world as "Spaceship Earth." This concept might improve your descendants' future.

I am running as a spokesperson for the anti-apartheid / reparations-now movement. My issues and solutions:

- 1) Raise awareness that Washington State is Native American land, and should be returned. Colonialism is no longer acceptable. 2) The current Governor's biggest mistake is turning Seattle's SVI building over to proven historical Negro vampire criminals. This is unconstitutional, and will be opposed in the courts and on the street.
- 3) Reparations must be paid to "Africatown" to repair / correct the cultural and economic damage done to the refugees from European colonial settler terrorism / slavery. 4) End the ethnic cleansing / "gentrification" of blacks out of Seattle's historic central area and Tacoma's historic hilltop (aka Africatown).
- 5) Remove the names / images of the "North-American Hitlers", Washington / Jefferson, those mass murderers of Native American "Indians" and "owners" of hundreds of "slaves". 6) Stop schools from teaching any children that Washington and Jefferson ("Indian" killers / slavers) were champions of "freedom, justice, equality and democracy" when they were in fact brutal "terrorists".
- 7) End homelessness by providing land, materials / expertise for homeless to build their own mortgage-free housing. (have you ever seen a homeless bird?) 8) Limit "police" to 5-year terms—in which they must complete teacher's certificate qualifications and then teach for 5 years before returning to law enforcement—to prevent PTSD and stop criminals hiding behind government issued badges / guns.
- 9) Our state must form its own bank to finance ending homelessness through sweat equity. 10) Since race is arbitrarily based on "skin color", redefine "race" based on hair color, which is much easier to change—especially for "white minded" integrated Negroes like Court Justice "Uncle" Clarence Thomas.

Today you will choose a leader that will inherit a pandemic. I still believe the most important words of the United States Constitution is "We The People". We cannot ignore that our country is now in a state of a catastrophic crisis on all levels of government. Getting things done is what I offer Washingtonians. Healing and regaining the trust of the people is my first order of business when I take office. Understanding cultural differences and working with many elected leaders around the world has prepared me to work with people of all ethic background. It is time to break with practice tribalism and really care and deliver the needs to the people of Washington State. I want Eastern Washington to know I care and know the important roll you play to this Washington. This election is about you and the needs for your families future. We have one of the most regressive tax structures in the country. Working people are hurting and this must stop. At this moment and time. We all must care. I have always went to battle without an elective seat for social and economic justice. I will lead this state with a open but progressive mind. Our state has and always will be a state of innovators and people who know how to fight for the right things to be done. It is our time now to embrace a new future. We will prevail. Stay safe.

Statement

By trade and training, Dr. Raul Garcia is a healer. An emergency room physician who has spent his career on the frontlines healing and protecting people during life's most vulnerable moments.

Raul escaped Cuba at the age of eleven. He became a protector of his family and those he loved, and also of the American dream and the values it represents. In Cuba, he witnessed firsthand the devastating and demoralizing effects of socialism. From those early experiences, Dr. Garcia began a life of service. Through a career in medicine, leadership on national boards and professional associations, and success as an entrepreneur, Raul is the ideal person to lead Washington past Covid-19 and back to health and prosperity.

Dr. Garcia envisions a Washington bound by shared interests, not divided by political ideology. He offers his candidacy as an alternative to the career politicians that care more about serving themselves than the people.

A staunch opponent of any increase in state tax, he believes in limited, efficient and accountable government. His leadership will focus on economic prosperity and the health of our citizens.

Dr. Garcia will assure that never again will tens of millions of tax dollars be wasted on fraudulent claims while health care workers do not have protective equipment and our nursing homes are closing due to lack of state support.

A collaborative unifier, he will listen to and fight for the small business owner, the farmer, the teacher, and for every Washingtonian striving to achieve the American dream. As an immigrant, Dr. Garcia values freedom and opportunity for all, and above all. In this unprecedented time, Dr. Raul Garcia offers different leadership focused on making Washington state the most triumphant, thriving, and prosperous state of our union.

Statement

Over the past 35 years, Washington State has had an elected Democrat as Governor. With decades of empty promises and slow progress, look where it has led us to. As the next Governor of Washington State, I, Tylor Grow, will eliminate the partisan gridlock that keeps our beautiful state from reaching its true potential by streamlining the way Washington State handles tax revenue.

I will reform our methods of collecting tax revenue regarding infrastructure to greatly benefit all of Washington's residents - not just the select few in the state's urban centers. I will reform how we allocate funds for Washington State's public schools in order to help solve our students.

I will reform our state's health care system by providing a public option for our state's residents. No one should have to worry about the cost of health care. I will stop penalizing tax-funded organizations and programs for not using enough provided tax funds. This leads to wasteful spending which should be discouraged.

I will reform how we handle our homeless population. I will invest in building large dormitories in which resources for wellbeing, rehabilitation, and career-building cases will be available. This will keep people off the streets and add to our booming workforce.

As a gay person of Mexican descent, I know what it's like to be discriminated against. I want to help everyone in Washington State no matter: race, gender, sexual orientation, income, and/or ability.

Vote Tylor Grow for Governor of Washington State!

Statement

No new taxes. Third party audits on all taxes to find waste or misuse. Better health care for all. Equality of opportunity for all. Term limits. All these policies I am in favor of, but they are just talking points. I am twenty-six years old but even I know corruption runs the government. We expect politicians to lie and cheat. We also expect them to make millions of dollars through corrupt means while in office, and we just accept it. That is why I am running for office without accepting donations to my campaign and refusing any partnerships or sponsors. I am doing this so you know that I'm here to serve you, not to gain money or power.

Holding government accountable is something no one in politics will do and I am sick of it. Together with the people we will implement new bills to punish corruption and enact Title 18 Section 241 and 242 of the United States Code to remove the rot in government. Epstein didn't kill himself. *Bringing back trust in the government is my goal, and instilling fear of the people into the government is my purpose. Freedom is not free. I believe that without a little more opportunity for the next generation, we cannot have a healthy civilization.

If corporations move to other countries, they should follow the same rules and labour practices as in the USA. Stop shipping logs, jobs, and clean air over seas. Turn off reactor at Hanford; stop making the mess. Nationwide public internet access for everyone and net neutrality. Ban the use of certain weed killers on federally funded sites. Overturn Citizen's United.

Picture a state and a nation where your children can afford to live. A land without discrimination, and where the working person receives their just reward. A place where worker's rights are protected; where innovative, effective leadership inspires; and where elected officials are chosen by the people, not by their financial contributors. Rather than propose campaign reform, I'm going to implement it. I am not an attorney, and I am not a politician. Therefore, there will be no question about who I am working for. I will lead Washington into the 21st century.

As the first Senator not financed by PAC money, and hailing from one of the best states in the Union, I will stir the very dreges of the old guard in Washington D.C., and at the same time provide inspiration to anyone else who truly cares about the future of our great Nation. Statement

Many activists and a state-sponsored working group are working on healthcare reform, here in Washington, our home. Coming to The People's desk for signature first, as Washington State Governor, I would most likely sign that reform, given my sense of it, as the next step for healthcare as an unalienable right.

We need our Robust Economy, rural and urban, to pay for our programs. Before, it was only good, fair reduced taxes for The Great Majority, followed by education, our state's Paramount Duty, as mandated by our Washington State Constitution and Target Zero transportation deaths and transportation major injuries before this decade's end. Our pandemical tsunami has changed the lay of the land.

Now We all require that rural and urban Robust Economy and good, fair revenue, yes Fair Taxes, family wage jobs, thriving independent, employee-owned businesses et cetera.

In my mind, it really is Full Mobilization, All Hands, Non-Profits, Profits and Government needed, urged, coached and inspired. As Governor, Washington our home, I will establish a Kitchen Cabinet concept in Office of the Governor to educate and move our People, our economy our society, Onward. We already have top quality, volunteers waiting in the wings.

This is our home. We want, We deserve more. Putting People First, Keeping People First. It short, I want the good, better and best angels of our nature, fully mobilized, not the ugly, worst and flawed earth angels of our nature. My apology for long-winded polemic, but you did press the on button and it worked.

The only limits to our realizations of tomorrows will be our doubts of todays. Let us move forward with strong and active faith. Adapted from FDR's last undelivered Warm Springs address. For more info, access <https://www.facebook.com/gene.hart.568/> (360) 473-9064, geneh@silverlink.net

When elected, Dylan is in favor of encouraging increases for Teacher Salaries, increase funding for State Parks and conservation, Debt Relief program for students of Washington, promoting more representation of young people in politics, and being a voice for Washington State, as much the East as the West.

Dylan's weakness is also what makes him shine as a candidate. While Dylan is young, and may be lacking some of the elected experience his opponents may have, he brings as fresh, new outlook and perspective for Washington State, that is both beneficial and crucial for the next stage in our States history. As a college student, he is not looking to make a career in politics, but in fact getting in, and getting what needs to be done for Washington State accomplished.

He can't wait to see what the future holds, and looks forward to seeing what he can do for our State.

Wheeling for Governor as Paraplegic

"Keep Washington Wonderful"

Why am I Wheeling for Governor? Because I believe Times of Crisis Reveal Women's and Men's Hearts. Panic initiates Response. It's fundamental Darwinism! It's fundamental Christianity, It's fundamental Religion and Community! Stand and fight or Retreat and compromise. Live with honor and show your opponent some Quarter in mutual times of Crisis or Live for power and take advantage of your opponent purely because the opportunity is there to be had!

The colonies did not rebel Because the Time was ripe, the moment opportune! What Great things could possibly come from such virtues less tactics? We Stood up against an ever-increasing Tyrannical King and decided the time of being ruled by other's was an inequity we would no longer justify. We did not take on the issue of slavery out of convenience or because the political landscape was ripe. We took up the fight against slavery because the owning of slaves was tearing our country apart and we had to decide "Do we really Believe all men to be equal."

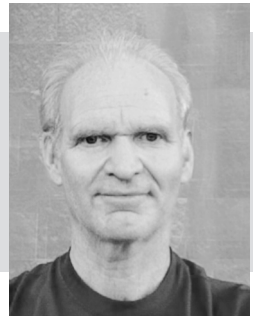

Maybe this is why War is always doomed to fail. When Struggling for survival against lions and tigers and Bears and maybe such monster's like Hitler and Stalin and Mao, attacking such monsters when they sleep or find themselves in an unforeseen snare is validated. But using such means whenever they present themselves against other human beings may in the end be the end of us all!

I believe Many have shown their true colors and are using this time of crisis as justifications to Grab power and justify authoritarianism and chip away at the foundations of our country. Not money, not slavery, not fear, not greed or power. That Every Citizen has the right To Freedom!

My life experience has been diverse and educational. I was raised in rural West Dakota and spent four years in the U.S. Navy. I worked as a wildlife biologist in Alaska for nearly a decade before moving to Seattle, where I worked as a teacher for sixteen years. I have also worked for the U.S. Postal Service and UPS. Today, I am a student of political science and philosophy, a writer and website designer.

Education

I obtained a BS in ecology from Western Washington University/Huxley in Bellingham.

Statement

We meet again. I ran for this office in 2016, introducing a word I coined. Do you remember that word?

I've learned a lot since then. In fact, I've been working on a series of books focusing on politix, as I call it. They include the first ever general political reference focusing on Washington State and its de facto capital, Seattle. *SeaWA Politix* and what may be the first truthful book about Bill Gates will be published before the general election. A third book, focusing on coronavirus conspiracy theories will probably be published by the time you read this. You can learn about my books @ www.kpowbooks.com.

I'm not afraid to tackle the toughest issues, from sex trafficking to telling Bill Gates to shut up and pay his fair share of taxes. As a former teacher with the corrupt Seattle School District, education reform has always been one of my top issues. As a former wildlife biologist in Alaska, I recognize environmental protection as the most important issue of all.

On the international scene, we need to put an end to our decades-old tirade against China. I view China as a friend. *Israel is the enemy*. In fact, my book *SeaWA Politix* is illustrated with photos taken with a Chinese Huawei smartphone, which boasts the best camera(s) of any smartphone.

Please ignore the *Seattle Times* and other sleazy media and their endorsements! If voters can't think for themselves, what hope is there?

In these trying times, it's more important than ever to believe in the power of one. As Edward Abbey said, a patriot must always be ready to protect his country from his government. In that spirit, my crusade won't end with this election campaign. Elected or not, I will continue to learn and fight the good fight.

Statement

Anton brings years of leadership experience in the private sector where he has spent his career solving problems. Anton understands the important issues facing Washingtonians, but are ignored by the out of touch political establishment. Anton is not a career politician, will not play politics and will not be bought. His businesslike approach offers real solutions to the soaring issues we face.

Anton's vision for Washington to be a state that is efficiently and effectively serving its people. He sees what is broken and will enact real solutions. He will respect the will of voters, cut taxes, reduce bureaucracy, and uphold the Constitution and Individual Rights. He will drain the Olympia swamp and end the drug fueled and government enabled homelessness by holding agencies accountable to their budgets and outcomes. He will end government interference in our lives, the extreme liberal agendas pushed on our children and attacks on personal freedom. He envisions a Washington that is friendly to businesses and individual liberty – a Washington where Constitutional rights are protected, businesses thrive, and individual success is not punished by uncontrolled taxation through the death tax, estate recovery tax and real estate taxes.

Under Anton's leadership, the state will reduce regulations, attract new businesses, allow existing businesses to thrive and reopen closed industries.

As a refugee from the Soviet Union, he has seen the damage caused by too much government, too much regulation, and the importance of a balance of powers in maintaining a free and prosperous life.

The Governor of Washington State should not be a career politician but instead a leader and executive manager who is working for the people. As a proud American citizen whose family escaped communism, Anton has realized the American Dream – a dream that is alive and is deserving of every hard-working Washingtonian.

Statement

Putting people over party. It's what I did as a City Councilmember in my hometown of Lake Forest Park. It's what I'll do if elected as your Governor.

As an anti-Trump Republican, I know Washingtonians appreciate a leader who tells it like it is. Many of my fellow Republicans get upset when I say Donald Trump is a phony and an assclown. As is Tim Eyman. Fair enough. Valuing individuals over party affiliation, I've supported sensible Democrats who've proven competency to govern. I proudly helped Bob Ferguson's campaign for County Council. He was a great Councilmember; he's a dreadful Attorney General. This year, I backed Senator Amy Klobuchar for President and endorse Hilary Franz' reelection for Lands Commissioner.

As for Jay Inslee? 32 years in office, now he wants 4 more. Has he earned it? Traveling the country last year, utilizing \$4 million dollars of taxpayer money for travel and State Patrol security detail. All for a miserably failed campaign in which he never had a chance.

I'm writing this in May, as a first time, soon-to-be dad late this summer, wondering about the world into which my daughter will be born. 2020 will be a depression year: GDP down 10%, DOW below 20,000, 40 million unemployed, and staggering deaths from coronavirus. But out of despair... we can find hope.

It's time to End 36 Years of One-Party Rule. I support two-year terms for the Governorship. If elected, I will step aside in 2022 so Washingtonians can elect a new Governor that November. I invite you right now to pause your reading, and visit ResetWA.org to learn my plans for advancing electoral reform, balancing our massive budget shortfall, and to fight COVID-19 to save lives and restore our economy. Statement

The State of Washington is incomparable. Her diversity, geography and economy would power a strong independent nation. The upcoming term demands one of the hardest working governors in history, to halt in-fighting and guide our state to a swift, safe recovery.

My grandparents immigrated to Washington in the early 20th century, starting a small dairy farm. They would be proud of their descendants - children and grandchildren who have become professionals in almost every imaginable industry, served their country, and of course continued to farm. I was raised on a hop farm along the Yakima River. I drove tractor, fed the pigs, lugged irrigation pipes and worked non-stop through summer harvests.

After attending the USC Film School, I was hired as the station manager for KUCB, a public TV and radio station in Alaska. I met a remarkable, strong woman in Dutch Harbor, and we returned to Washington to start a family. Our oldest son recently graduated from the University of Washington, where our youngest son is a freshman.

I have been in public service for eleven years, working closely with city, state and county agencies. I am best positioned to oversee the executive branch of our state, and will make the most efficient use of my time while never fundraising. In addition to working across the aisle, the Governor needs to thoroughly understand all state agencies, and earn the respect of employees and the public. I have demonstrated the ability to work with all levels of government, bringing together opposing ideas for stronger solutions.

This election must be about independence. Washington is independent. Republicans and Democrats are good people, though the current party leadership promotes divisiveness and distrust. I would be honored to be your Governor, and will promote respect for all Washingtonians.

Community Service

Statement

I'm running for Governor because my generation and those that follow will reap both the benefits and the long term *consequences* of the decisions made by our current administration. Washington has become increasingly tax-happy, yet many of the programs that tax dollars are being dumped into aren't reaping their intended benefits which needs to change. These programs have better solutions waiting to be applied that would allow the people of Washington to pay less taxes; yet still fund the things that are necessary, like quality roads. Washington as it stands is more divided than ever. Our state needs a leader who is invested into the prosperity of our state's future, someone who can unite both sides of the mountains, and is willing to govern *all* 39 counties. Homelessness is a major challenge being presented in King and surrounding counties. This is an issue that everyone's tax dollars have a stake in, though it could be 200 miles away, and still the problem has not been solved. Either our money is not going where the state says or our current leadership isn't able to find ways to better the homeless situation. Either way, homelessness needs to be addressed in all counties.

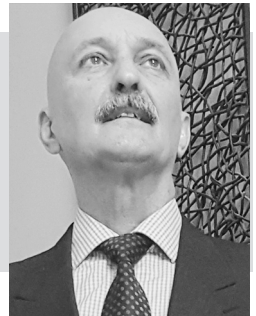

Even more cause for concern with our current leadership, I-976 which would have decreased vehicle tabs to \$30, was *voted* on and passed, then held up in court, not giving the people what they voted for. While similarly, I-1639 which inaccurately portrays all semi-automatic rifles as "assault rifles" is a direct hit to our second amendment rights. These alarming events shows us Washingtonians that our voice is dwindling. If you want a governor who you can trust, believe in, and know won't ignore your votes, remember me, Ian Gonzales, with your primary vote on August 4th.

Statement

Dr. D'Almeida has always been vocal about the inhuman treatment of homeless and lack of affordable housing. Veterans and foster parents need more psychological support. Housing the homeless and treating their medical issues is cheaper than leaving them on the streets. The money used to clean after the homeless, will be used to house them.

Students should not have to be punished with student loans when trying to become productive members of society. The Police; firefighter and schools, should have better and more up-to-date technology. All students and teachers should be provided with free bus and light rail pass for as long as they carry partial credits. Kindergarten to high schools need free nutritional lunches. Free day care for low income people.

I will introduce a bill to protect first responders and give them hazard's pay and another bill that will protect small business during a pandemic. Pandemics will be dealt with one city and one county at a time.

Those with substance abuse need medical and psychological support. A woman's body belongs to her, not the government. No Second Amendment violation. Our 70 million backup army does not kill innocent people, criminals use guns to kill innocent people! Property Taxes stays the same until the minimum wage goes up. Women and other minorities need more support. Our Immigration Laws are in shambles and must be Updated. LGBTQ, WOMXN and LatinX have rights too and need support. State Parks must be upgraded. No more for-profit jail or detention centers.

It is not what we have, but what we do to help others during a time of struggle that define us who we are. My goal is to serve "The People," not control them! Where we go from here is up to you.

Statement

The people of Washington are resilient and deserve leadership that reflects their character. Jay Inslee's proven experience in difficult times and his successful economic vision are exactly what Washington needs as we rebuild our economy and help families and businesses recover from the pandemic.

The measure of our leaders is how they respond to unexpected crises. When Washington became ground zero in the country for COVID-19, Governor Jay Inslee met this health and economic crisis head-on, with bold action based on science and guided by public health experts.

The Ellensburg Daily Record praised Governor Inslee, writing, "In the moment when he has been tested the hardest, Inslee has stepped up, making the tough calls and providing the leadership needed to get this state through the COVID-19 crisis." The Chair of the University of Washington's Department of Global Health praised Inslee's leadership for "having saved countless lives."

Under Inslee's leadership, Washington recovered from the last great recession to become the country's #1 rated economy, and our state is poised to rebound more quickly thanks to the Governor's progressive policies. Our state has the nation's best Paid Family and Medical Leave, we have expanded health care coverage to 800,000 Washingtonians and created a long-term care benefit for seniors that puts us in a better position to address public health dangers and immediate economic hardship.

Inslee's Career Connect program provides on-site training and apprenticeships for thousands of students who have plans other than four-year college and his investments in forward-thinking renewable energy industries have prepared us to endure and recover from the economic pain so many are now living through.

Governor Inslee's steady leadership and pioneering vision make him exactly the governor we need now to guide us to a better, stronger and more just future for Washington.

Statement

Are you better off today than you were four years ago?

Is it easier to find a job, keep your business open, walk safely in your community, educate your children and protect your family's health? Under this Governor unemployment has skyrocketed, homelessness, crime and drug abuse have exploded and public health bureaucrats spent time pushing for heroin injection sites instead of preparing for a pandemic. We need a Governor who will listen to everyone, not just the powerful and well connected. Olympia is working for political insiders who don't need the help while ignoring those devastated by a health crisis and economic collapse. Our state's only mental health hospital was so poorly mismanaged it was decertified by the federal government leaving the mentally ill to wander the streets.

As I've travelled to all 39 counties, the message is consistently clear: *we need a Governor to bring Washington together, not divide us into camps of "essential" versus "non-essential". I will lead Washington's economic recovery.* I have a lifelong record of community service here and around the world. I will not take a salary as Governor and will instead donate it to local nonprofits helping the mentally ill and homeless. I have a track record of bringing people together as a successful businessman and bipartisan leader who has cut taxes while protecting the most vulnerable. *I will veto any attempt at a state income tax.* I will never use my office to take away liberties our founders fought and died for and will uphold our U.S. and State Constitutions.

My wife Lindie and I are both the product of Washington public schools and believe in supporting education. Our five kids join us in serving the disadvantaged around the world.

Community Service

Statement
Unity, Prosperity, Honor these are the things I want to bring to Washington. They are the hallmarks of a stable, reliable government and a functioning society. These three things will bring Washington into a new golden age. With them, we can create “a city on the hill” to the rest of our nation!

Unity It’s a powerful hopeful word, especially because today we live divided. From our state to our families and communities. Red and Blue, a Donkey and an Elephant. We let these things define us and divide us. Why? is that the Washington we want? I don’t think so. Cooperation and unity between the major parties, Working together despite our differing opinions to build a better, unified Washington. That’s what Washington needs and what’s what I’ll bring.

Prosperity, how you go about bringing prosperity? I believe prosperity comes from three things the land, the People, and the Schools. The land is our natural resources, our farms, our forest, and our seas. The people are our culture, our businesses, and our dreams. Lastly, schools are how we teach our young people. To be independent, resourceful, insightful, courageous, and honorable. Instead of boring them to death, I want to create a love of learning and life long growth. Not just ensuring a better education but a better economy as companies flock to our superior workforce.

Finally, *Honor*, Honor, is everything. It means leaders you can trust. Politicians, working towards what’s best for the people, never being bought, always leading from the front, and doing the hard jobs no one else will. A state where people are always worried about the integrity of their leaders can never move forward. Because if you can’t believe that the other side is saying. you can never understand each other.

Statement

I am choosing to run for Governor of the Great state of Washington because I believe it is time for change. I see money for the homeless, yet our homeless population does not diminish. I see money spent on the schools, yet the districts are wildly unequal. Poor districts do not have the computers and laptops that the wealthier districts have, even as technology becomes more vital to our children's education. I am very concerned that we are overtaxed and our money is being misspent .

Many want to spend effort and money to focus on all of the state's problems. I want to create new solutions for those problems. I want to live in a state where men and women who work their 8-hour day -40 hour work week have the health insurance they need. The middle class fuels the economy in our state and I want to protect that. Under my leadership you would see these changes in policy.

At the top of my list I want to create equality in education for every district. I will apply common sense to the validity and effectiveness of each program and determine if they produce adequate results relative to their cost. As Governor, I will prioritize a balanced budget. As one of the most overtaxed states I want to bring our state back into focus and lower our spending to a reasonable level with the ultimate goal of lowering state taxes for all.

For the sake of the future of you and your children *please vote*.

My previous 8 campaigns have never been to win but to tell voters Sound Transit should've never been allowed to spend billions adding Prop 1 extensions to Central Link. Now it's only a question of whether it's the Northgate operation in 2021 or East Link in 2023 that vindicate my concern

This year it's to debunk claim fossil emissions are an existential threat. That Al Gore's "Inconvenient truth" is in fact a monumental lie. Ice core temperatures from four prior interglacial periods were higher than current levels with 300 ppm CO2 far lower than current 410 ppm. That during those periods the CO2 level was the result of increased out gassing from ocean when temperatures were warming and increased dissolution when temperatures were cooling. Both warming and cooling were driven by the Sun.

It was the Sun that raised temperatures and CO2 levels after the last ice age, culminating in the Medieval Warming Period, Little Ice Age, and subsequent warming prior to significant fossil emissions. The increased fossil emissions have added to the Sun's impact on CO2 over the last 60 years raising level to the current 410 ppm.

However it's the Sun not higher CO2 levels from increasing fossil emissions that can significantly increase global temperatures. The ~5 gigaton carbon (GtC) annual fossil emissions currently increase CO2 by ~2ppm. If emissions averaged 10 GtC over the next 50 years the additional 500 GtC would add 200 ppm raising the current level from 410 to 610 ppm, or from 0.041 to 0.061%, still a tiny fraction of the 96.5% CO2 that warms Venus.

My campaign and stjopeastlinknow blog are to expose the futility of adding trillions more in an attempt to limit global warming by reducing that increase.

Statement

My young children's years of pointed questions about people living alongside our roads, clearly needing help, caused me to doubt and question our current politicians. Even to kids, it was obvious that something was wrong. I had worked in a UN refugee camp where people had lost everything, fleeing violence; yet, it was more hygienic and humane than my hometown. Unable to find plausible explanations and wanting better for Washington, I had to speak out.

Tone deaf measures coming out of Olympia are one-sided and unbalanced. Current politicians throw money at problems first, asking questions later--this must stop. They've been in power so long they've forgotten to listen to neighbors or manage their spending. We cannot tax our way back to health from our current crisis. I'll provide the critical check and balance we've lost, being a leader who seeks compassionate solutions while protecting taxpayers.

I will bring the fresh perspective direly needed in Olympia. We need a Lt. Governor fighting for families and businesses, not more of the same government approach. Let's get this right for our children's tomorrow, as well as their today.

Statement

Washington State Senators and other Legislators will be treated fairly by me as Lt. Governor. Everyone wins.

When ideas are shared and economic activity grows, then the public can prosper and have faith in the future. Quality government requires that respectful battles must take place.

In 1982, As Secretary General, I led a mock United Nations gathering of students representing over 185 Countries. We passed legislation that had not been accomplished for over ten years by other students. Part of success is respecting all kinds of people with different values and religious beliefs and getting them to agree on a common course.

The Lt. Governor is the Leader of the Senate and must convey a sense of harmony and calm to the members. Relaxed and happy people are civil to each other and work together on fixing serious problems like the coronavirus. I have Legal and formal education to do the job. I will stand behind legislation that protects children, improves education, improves environmental protection and makes good common sense. As a child, I went to the very accepting and loving First Christian Church near the Fair in Puyallup.

Statement

As the son of a carpenter and school lunch lady, I learned the importance of hard work, education, and opportunity for all. These values have guided my public service and advocacy for working people and the vulnerable. I'll build on my record of proven leadership and break barriers as Washington's first openly gay statewide executive.

The Lieutenant Governor's most important job is serving as Senate President. As the only candidate who has served in the Senate, I'm uniquely positioned to get results. I've used my position as Majority Floor Leader to establish the most generous paid family leave program in the country, close big business tax loopholes, expand voting rights, protect reproductive healthcare, build light rail, and pass critical COVID-relief.

While Congress is mired in gridlock and special interest money, here in Washington we've taken bold action, often with bipartisan support. As Lieutenant Governor, I'll keep fighting for inclusive economic recovery, universal healthcare, and quality education accessible to all.

Endorsements: Lieutenant Governor Cyrus Habib; Washington State Labor Council; Washington Conservation Voters; Alliance for Gun Responsibility; UFCW 21 (nurses and grocery workers); over 50 Senate and House colleagues; multiple Democratic organizations; hundreds of city, county, tribal and community leaders statewide.

Statement

The main duty of the Lieutenant Governor is to preside over the State Senate.

Since I am not a member of either the Republican or Democratic Parties, I am uniquely qualified to be the most practical and impartial 'referee' facilitating discussion in the State Senate. The best solutions are created through explanations from multiple perspectives. I will give voice to all sides of the issues.

As someone who hasn't received donations from big money special interests, I am likewise best suited to carry out the duties of Rules Committee Chair. Only a 'gatekeeper' that isn't beholden to those special interests can ensure the voice of the people is heard in the Senate.

While serving as our Lieutenant Governor, I will make sure legislation is openly debated and that bills are fair, clean, and on topic. I will seek ways to make the legislative process more accessible to the citizens. If you feel your elected representative is not listening, you can contact me directly. I am the Lieutenant Governor we all need, and I am asking for your support and your vote. Together, we can break partisan gridlock and keep the Senate on track serving the people of Washington.

Statement

Our state government has piled on draconian restrictions, many of us were completely broken, businesses in shambles, life dreams and hard work crushed, incredible unemployment, families ravaged by state government. Do you want more of the same?

Imagine a state where crime and homelessness are dealt with, where 10th through 12th grade students transition to living wage jobs. Imagine transportation under control with a plan we can afford that solves mobility problems around our state, low taxes, fear of a state income tax is a bad memory of the past failed policies.

Now imagine a Lt. Governor that will stand up for you regardless if you are Republican, Democrat, or Independent. Imagine what it would be like to have control and a direct connection to voice your opinions. Imagine what it would be like to work toward the common goal of getting our states economy up and running so you and your family can prosper.

Imagine a time when your vote counts now more than ever. I believe I am the best candidate and with your vote I promise to serve diligently on your behalf. I humbly ask for your vote for Lieutenant Governor - thank you, Bill Penor

Statement

As we navigate the unprecedented challenges that lie ahead, it's critical we have state leaders with the experience, competence and civility to guide our government on the path to a more prosperous future for all.

As a lifelong Washingtonian and Democrat, I've served at every level of government and been committed to promoting values of a more fair and just economic system, a strong public education system, and a commitment to our environment to ensure generations to come will be able to enjoy the peerless natural beauty of our state. I will continue to champion these causes while fulfilling the other duties constitutionally assigned as Lieutenant Governor.

With your continued trust, this office can ensure we don't roll back the progress we have worked so hard for in Washington State. We have an opportunity to build a state that is better than it was before and not sacrifice our most vulnerable in the name of progress.

I'm honored by the numerous former and current elected state and community leaders, environmentalists, labor and business leaders, and so many other of our neighbors that have chosen to support our campaign and our vision for a better future. I ask for your support.

Statement

Many recognize the flaws in our elections, and we know these flaws create imperfections in government. We should never feel limited to choosing the lesser of two evils when voting in our diverse state -- and compromise, empathy, and respect should be encouraged in government. If you agree, even partially, please visit edminger.com.

As a candidate I refuse to purchase advertising. Beyond that, I offer new, strategic, nonpartisan ideas.

First, reduce the expectation of two-party victories by allowing 3-5 people to compete for your vote. Implement *approval voting* to end fears of wasting a vote on your true preferences. Second, special interests and donors purchase preferential access to leaders, and they're understandably concerned about losing access. Don't fight them. *Prohibit candidates from running paid advertising*, and the necessity for donations will fall tremendously.

I have a handful of other ideas around one goal; *making our representative government more representative*. That's it... I don't blame people, parties, or special interests. The flaws in our elections have created imperfections in our government. When we improve elections, officials will be free to become their best selves. ---Your visit to edminger.com is a critical step towards addressing our shared beliefs.

Statement

If you elect me Secretary of State, I pledge to kick corporations out of the vote counting system, reclaim public ownership of elections, and restore the secret ballot. I will use this campaign, and the position of Secretary of State, to champion economic recovery for small businesses, workers, the unemployed and the marginalized.

Private companies currently control your vote counting software. Clear Ballot, Dominion (formerly Diebold), ES&S, and Hart Intercivic, are the four companies in Washington with certified software to count your vote. Your mail ballot is counted by proprietary, trade-secret, software. To fix this, I will implement the use of publicly owned open source software if elected.

For too long, the Secretary of State has been functioning as a marketing and sales position for big corporations. My goal is to focus this position on the economic needs of those who work essential jobs, run small businesses, and do the work vital to our families, our neighbors, and our communities.

Government is for the people and by the people. It is not for the corporations and by the corporations. It is time that those running our government understood this and acted in the best interests of the public.

Statement

As Secretary of State, my most critical responsibility is to inspire public confidence in Washington's elections. We achieve that when access and security are balanced. That's why we created a secure statewide voter registration system to implement accessible same-day voter registration; established the first Elections Security Operations Center to respond to foreign interference and cybersecurity threats; and coordinated the efforts to develop robust state and county continuity of operations plans to respond in a pandemic.

Because Washington is a nationally recognized leader, we have been able to help other states innovate and secure their elections by expanding mail-in voting options during the coronavirus pandemic. I am proud to be the only candidate with elections experience – in fact, I've run over 120 elections in Washington.

This has helped earn the endorsements of all three former Secretaries of State and over 50 Democratic, Republican, and independent County Auditors and Elections Directors. They understand the complexities of this job and share my passion for accessible and secure elections, streamlined business services, open public records, and preserving state history.

I ask for your vote to continue this important work and maintain the nonpartisan integrity and citizen-oriented philosophies of this office.

Statement

Voting rights and election security are under attack across the country. In a time of persistent voter suppression and election interference, we need a Secretary of State who will boldly defend every vote and every voter.

I'm running for Secretary of State because I have 30 years of experience as a senior defense intelligence and national security analyst defending our country from attacks. I believe that this office needs a new type of leader to protect our election systems and voter information against current and emerging threats.

Currently, our national and state election officials are putting party before our democracy. Our state's top election official has not denounced threats to defund the US Postal Service or condemned dangerous attacks on voting by mail. These threats to election security must not go unchallenged. In contrast, as a legislator I've supported every effort to expand voting rights and have passed bipartisan laws to protect elections and election workers for all of us.

The needs of this office have changed. It's time for a new era in Washington state elections. I am prepared to face these challenges and lead through the uncertain times ahead. I'd be honored to earn your vote.

Statement

It is an honor to serve you as State Treasurer. I'm proud of the achievements my office has made with the help of an excellent Treasury team.

I've been a strong advocate for an adequately funded Rainy Day Fund and will continue to steadfastly protect pension reserves and work to eliminate the unfunded pension liability. I will continue to advise the legislature on reducing the amount of state debt that is too high. I'm proud of the state debt refinancing that saved the state over \$450 million in interest and achieved a triple-A bond rating for the first time in state history. We will continue to expand the programs that help local governments with their financing & investment opportunities and continue to grow the financial literacy program.

Managing public funds should not be subject to partisan politics. That is why I'm proud and honored to have the endorsement of past State Treasurers Mike Murphy and Dan Grimm, both Democrats. Bipartisan support is also evident in the over 50 current and past County Treasurers and County Officials that have endorsed my re-election.

I humbly request your vote to continue the work safeguarding public funds and increasing the transparency of state finances.

Community Service

As Washington Equal Justice Coalition Chair, Mike advocated for homeowners unlawfully foreclosed upon, veterans denied benefits, and predatory lending victims. Federal Way Chamber of Commerce. St. Theresa's Church parishioner.

Statement

Mike will be an independent treasurer who has *never accepted corporate campaign donations*. He will stop the longtime practice by treasurers of investing in the same corporations that fund their campaigns. Mike shares our Washington values; the incumbent treasurer supports Donald Trump for President.

A financial transparency champion, Mike led efforts to make the legislature's records open for public view. He passed laws to expose "dark money" in politics. He wrote the Corporate Crime Act that increases financial penalties by 100 times. The Treasurer's Office thanked Mike for working to pass laws that improved treasury investments.

Mike will put working families' and retirees' needs first. He will fight to return a billion dollars of Washingtonians' unclaimed money stuck in the treasury back into your hands. Mike opposes a personal income tax and successfully supported laws reducing property taxes.

The son of educators, Mike will keep a watchful eye on your \$100 billion pension investments. He won't miss required Investment Board meetings. The incumbent treasurer personally attended just 3 of these 18 critical pension meetings since the fall of 2017. Endorsed by: Washington Education Association, State Nurses Association, State Labor Council, Washington Conservation Voters, Senator Patty Murray and leaders throughout Washington.

Education

Community Service

Statement

We deserve a leader with both management *and* technical expertise who can lead the agency to modernize the audit process. We deserve a leader who does not have deep political ties preventing him from maintaining independence and objectivity. We deserve a leader who understands and will implement industry best practices. Most importantly, we deserve a leader who knows how an auditor should lead before, during, and after a crisis. *I am that leader.*

In fast moving situations, leaders must understand their capabilities and be decisive. They must also have the professional knowledge and experience to justify their decisions. An early window appeared during the pandemic where quick and decisive leadership may have helped to identify some of the weak spots in government. For example, an audit of the state's unemployment office may have identified deficiencies in preventing the estimated *hundreds of millions* in fraud. This was a missed opportunity to provide accountability. As a CPA and a proven leader who has routinely made these types of decisions, I have the experience to be the effective leader we need.

Washingtonians no longer need to choose between leadership and expertise. I will bring both to this office.

Statement

The State Auditor's Office deserves someone who will finally unlock its full potential to serve Washington. This position has a vital role in oversight of your public dollars, but it also has the power to perform auditing that can change the way government agencies spend that money more efficiently.

I am the candidate in this race that has the most hands on experience with government auditing and government process at the investigative level. I also have perspective on all types of Washington governments instead of those just within our major cities.

We need an auditor that combines all of this experience with a desire to bring lean business practices to the office and to make recommendations in Washington agencies that will create jobs and opportunities across all of our state. Wherever my department can find opportunities for us to spend money on products and materials made by Washington businesses, we will recommend these opportunities be prioritized by our state government.

This November, remember that your auditor should be less about their party and more about their boss: You.

Statement

I have had the honor of serving as the elected Washington State Auditor for the past four years. I am proud of being the first woman to hold this position. Prior to State Auditor, I served as Pierce County Executive and Pierce County Auditor. I have a proven and tested public record of leadership.

As State Auditor, it is a privilege to lead over 400 employees working across the state to provide fiscal and accountability audits of all local and state governments. We have increased the number of cybersecurity and performance audits, while conducting numerous investigations including uncovering the largest fraud on record.

My vision to "increase trust in government" means greater transparency and accountability of public money. To accomplish this goal, I have created a user-friendly, interactive website that gives you important information about each government that serves you. Having an independent, objective review of public dollars is the hallmark of my work at the State Auditor's Office.

Statement

I'm running to be your Attorney General because as a lifelong Washingtonian and father of four little kids, I believe that they deserve a better, safer Washington. Everyone agrees that the homeless situation in our cities has spiraled out of control, and no one is doing anything about it. This is unacceptable! For 8 years, homelessness, drug abuse, and crime have been on the rise. As Attorney General, I will make this a priority! I am dedicated to making sure law enforcement and first responders have the tools, training, and resources they need to do their job well.

As an owner of a 3rd generation manufacturing company, I understand the struggles that Washington businesses face every day, and I will fight to make Washington a more business friendly state. I'm proudly endorsed by a former Washington Attorney General, State Senators, State Legislators, County Sheriffs, First Responders, radio talk show hosts, business owners, community leaders, and many more elected officials from all over the state!

Thanks for your vote — it's time to roll up our sleeves, get to work, and take back our streets and parks!

Community Service

Board member and Chair, Regional Transit Committee, Seattle Chamber of Commerce; Vice-Chair, Crosscut Public Media; Issaquah Youth Soccer Coach; Eagle Scout; led Scout climbing adventures; Washington Conservation Voters Board; Teaching volunteer, Tanzania.

Statement

As the son of a World War II refugee, Mike understands what tough times are like. People are hurting. True leadership is rare. Decisions impacting our lives and livelihoods are guided by partisanship and not the rule of law. It's time we changed that.

As your Attorney General, Mike Vaska will protect the Evergreen State, not advance a partisan agenda. He's the only candidate with decades of legal experience, which he'll use to improve public safety, protect consumers, and be an independent check on state power.

State government must take an all-hands approach to rebuilding our economy by supporting small businesses, farmers, and all workers. Mike will convene a "Create Jobs Now" task force to streamline permitting and reduce regulatory burdens. Mike will demand results to end our state's homelessness and public safety crisis, bringing people together to find real solutions – not relying on the past's failed policies.

Mike has earned bipartisan support from statewide leaders we trust like Governor Dan Evans, Attorney General Rob McKenna, former Congressmen Dave Reichert and Sid Morrison, and local leaders like Spokane County Commissioner Mary Kuney, Snohomish Council Chair Nate Nehring, and Vancouver business leader Ann Donnelly. Please join them with your vote.

I have over 20 years of law enforcement experience with the Seattle Police Department and the Wisconsin Department of Revenue as a patrol officer, detective, and supervisor. I have supervised the work of SPD's Domestic Violence & Elder Crimes Unit and the Audit, Policy & Research Section. I have a combined seven years experience conducting internal investigations for SPD and Seattle Public Schools.

Education

Community Service

Operated a solo law practice serving primarily reduced-rate and pro bono clients. Served as volunteer president and treasurer of my neighborhood's homeowner's association.

Statement

Olympia has become unresponsive to the people of our state: Tax increases during times of budget surplus, legislative votes in the dead of night, title-only and "ghost" bills. I want to represent the forgotten people of our state.

As attorney general I will focus on public safety, government accountability, and safeguarding all of our civil rights. During my law enforcement career I gained experience impartially enforcing the law at the street-level, researching and setting criminal justice policy, and supervising in a large government organization.

Personal and governmental accountability are passions of mine. Equal protection under the law means just that; the rules must be applied to everyone, equally. While conducting internal investigations in law enforcement and education settings I strove to ensure that all were treated fairly but were also accountable for their actions.

I recognize the role of government is to protect the rights of all individuals, that government derives its power from the consent of the governed, and that the government does not grant your inalienable rights. As attorney general I will represent you, the people of Washington and I will not compromise when it comes to protecting your civil rights.

Elected Experience

Eight years as Attorney General. An independent leader, Bob manages Washington's largest law office.

Other Professional Experience

Bob began his legal career in Spokane. He served as a law clerk for two federal judges appointed by presidents of both parties. He worked as an attorney advocating for taxpayers and businesses at Preston, Gates & Ellis.

Education

Law Degree, New York University; B.A., University of Washington

Community Service

Bob and his family are active in St. Catherine's Church. He served in the Jesuit Volunteer Corps managing an emergency services office assisting vulnerable clients. Central Area Motivation Program volunteer. Advocated for Yaqui Indians as a law student.

Statement

A fourth-generation Washingtonian, husband and father, Bob Ferguson takes on powerful interests, protects taxpayers, and prosecutes violent crime.

Bob brings more consumer protection cases to court than all previous Attorneys General – and hasn't lost. Bob beat Comcast in trial. Now they're paying millions for ripping off Washingtonians. He's protecting consumers from price gouging by pharmaceutical companies and prosecuting corporations that defraud taxpayers. He made corporations that acted illegally pay more than \$500 million to taxpayers, including \$170 million in direct checks to Washingtonians.

Bob's helping end the backlog of untested rape kits. He's prosecuting child sex predators. He successfully fought for tougher penalties for human traffickers and repeat DUI offenders. He partners with AARP to combat cybercrime. Bob is from a family of veterans. He fought housing discrimination against disabled veterans and provides servicemembers free legal advocacy.

Bob created an Environmental Protection Division to protect clean air and water. He stopped hazardous waste dumping in Puget Sound and protected Washington's coast from offshore oil drilling. Bob is independent. He vigorously enforces campaign transparency laws against both parties. Son of a public school teacher and Boeing employee, Bob works for you – he refuses campaign contributions from large corporations.

Education

JD, Northeastern University; BA, Smith College.

Community Service

Former board member of Conservation Northwest and Washington Environmental Council.

Statement

Hilary Franz is proud to serve as Commissioner of Public Lands. She is relentless in creating bold, transformational change. As the leader of Washington's wildfire fighting force, Hilary pushed for new strategies to reach fires quickly and keep them small. She then secured record-setting funding for our wildland firefighters.

Hilary is a defender of our public lands. When the federal government tried to open our waters to offshore drilling, Hilary refused to allow drilling equipment to cross our coastline. In the face of climate change, Hilary is prioritizing wind and solar power and making investments to save our forests.

Hilary leads by bridging divides and bringing people together. She's earned high marks from leaders across the state, including from conservative leaders in rural Washington, who've praised her willingness to solve local issues, increase funding for schools, invest in rural economic development, and tackle our forest health crisis.

Hilary's Washington roots run deep, from her grandparents' cattle ranch in Pierce County to raising her three boys on a farm on Bainbridge Island. Endorsed by the Washington State Labor Council, National Women's Political Caucus, Washington Conservation Voters, Sierra Club, Washington Education Association, and Democratic and Republican leaders across Washington.

Statement

These days, partisan politicians have become overbearing and lost the original purpose of this country's core mission statement: To promote the liberty, freedom, and the ability to pursue happiness for the American public.

I, Kelsey Reyes, will ensure partisan politics has no place in our public lands and that we will continue to push for environmentally-backed reform that isn't based on personal feelings or corporate desires but rather objectively with science. It is time to remind our citizens that they hold the power in our nation. Elected officials should be honored to represent you and work for you, but understand that they do not rule over you nor should they act without taking accountability for their actions.

As such, as your Public Land Commissioner, I will place the needs of the environment and the people, above the needs of the State, political parties, corporations, and lobbyists. This nation is founded by the people, and its land is owned by "we the people." The condition and health of how we leave the lands for the next generation is my upmost important role when I am elected as your next Public Lands Commissioner.

Statement

Our public lands have been ravaged by natural disasters including tree infestations and forest fires. They've also been damaged by a political disaster: state managers that have focused on serving special interest groups instead of providing for taxpayers, school districts, and outdoor recreational enthusiasts.

No more policy-by-press-conference, or angling for higher political office. It's time for new leadership. Sue is running to bring that new leadership to DNR, the agency responsible for managing our state's 3 million acres of trust land.

Informed by a lifetime of managing natural resources, Sue will work to ensure that Washington's working forests continue to provide a steady, reliable stream of income for our public schools. We'll do this by adopting proven forest management techniques that reduce disease and excess fuel loads in our forests, which accelerate devastating forest fires. Sue will use her experience as a UW and NOAA fisheries and habitat biologist to strike the right balance between protecting wildlife and protecting Washington's forest economy.

Raised in rural Washington, Sue has a distinguished career in natural resource management, including service as a regulatory liaison for a major hydropower construction project. She has raised two adult children and survived breast cancer.

Statement

My deepest concern is the selling of our state to the highest bidder. Amazon and Weyerhaeuser will not buy me and I will not give up on the people of Washington. If we heal our politics, we can heal the PNW. We have to look deeper into the relationship our policies have on land use and the laws of nature in order to heal the land, sea, and animals.

The land cannot speak for itself, the animals are being ignored, and many people of our state are forgotten. I would like to give all a voice, even if they are not Democrats. Our indigenous brothers and sisters have been mistreated since European explorers first set foot on this land. I intend on giving them their autonomy back and helping them to restore the land, water, and wildlife of this state.

Part of healing the land is healing our economy. Restoration ecology and permaculture are vital to the survival of the PNW. I believe in the GND and that organic hemp farming is a way to create living wage jobs for our people and end our addiction to petroleum and clear cutting.

Community Service

Statement

I'm Ron Higgins, the conservative candidate for Washington State Superintendent of Public Instruction. I'm a teacher, an engineer, and a retired Marine. I'm pro-life, pro-family, pro-Second Amendment, pro-property rights, and pro-free enterprise.

Having taught in Washington state schools for 10 years, I know our schools are failing our children. I've met high school students who didn't know how to add fractions or what the words "pledge" and "allegiance" mean, seen leftist propaganda in our schools (e.g., favorable portrayal of Communist mass-murderer Che Guevara), and dealt with bureaucrats who didn't want me to hand students copies of the US Constitution.

Our schools should be teaching the communication, computation, and civics skills children need to become productive citizens. As Superintendent, I will emphasize instruction in basic academic subjects, healthy lifestyles, and respect for the United States, our Constitution, and our God-given civil and religious liberty. I strongly support parental rights to homeschool. I vigorously oppose "comprehensive sex education" and any curriculum that promotes or glamorizes unhealthy behavior or the sexualization of children. We need common sense, not common core; education, not indoctrination. Vote Ron Higgins to put the public back in charge of public education.

Statement

Our schools are facing a defining moment. Teachers aren't happy, families are stressed, students are struggling, and the opportunity gap is widening. The delivery of public education has changed dramatically, and we've been forced to adapt. Now is our chance to reimagine a better education system because *the status quo is no longer an option*.

To improve our school system, we need to: use technology to *innovate classrooms* and unlock possibilities for more *personalized learning*; provide school schedules that fit the needs of *working families* and teachers; and teach students key *life skills* like managing finances, living independently, and resolving conflicts.

With kids of my own in public schools, I support parental choice and local control. Meanwhile, nearly half of Washington's students are failing to meet state standards in core subjects. I am endorsed by parents, teachers, and school board members across Washington because *I respect community input*.

I am running for Superintendent because I believe *our kids deserve better* and can achieve more. If elected, we will update our school system to meet the needs of families, teachers, and the future economy.

Statement

This election is important to the future of our Republic. The purpose of public instruction is to help children and young adults to become enlightened citizens. Given the disordered state we're living in, it seems obvious that educational policy must be to blame. Our mistake is surrendering our sovereignty of thought to Eastern and European elitist academics who are so out of touch these days that day laborers have more common sense. How else to explain the failure of trillions of dollars a year, decade after decade, on "education" that we spend leaving us in this mess? Sometimes I think it would be better to just start all over from 550 BC with a Pythagorean Academy, since it's been all downhill in the common sense department since then. It's so bad that now the experts routinely fail us, whether they be scientists, educators, lawyers, doctors, journalists, and politicians. Where will our children be in 2030 and 2045? If they are to be happy and free, they must learn to love mathematics, physics, language and history. Every human being is born with the divine spark of intelligence. My job will be to provide constructive guidance to our teachers.

Statement

As a parent and teacher, I understand how crucial it is that every child has an experienced teacher and a safe school environment. But I also think it was wrong for Olympia bureaucrats to shut down every school in our state regardless of the circumstances in each local school district.

It makes no sense to shutdown schools for months at a time when there is not even a single case of any child in any school anywhere in our state transmitting the corona virus to any adult. The closure decision should have been left to local school boards – as it has always been in the past.

The scientific research has been clear: thanks to their remarkable immune systems, children were never a risk to adults! Yet our schools were closed for months simply because hapless bureaucrats in Olympia believed inaccurate studies claiming millions of people were going to die unless all of our schools were closed. In fact, through May, about 600 fewer people died in Washington this year than last year!

I am running for Superintendent to restore common sense to Olympia and local control to our public schools. Please visit our website for more information!

Statement

Why pick Wick for Superintendent?

We can all agree: Education is a core value so important that it's written into our state's constitution. With the exception of the quarantine, educating our students today looks much like it did when Washington's constitution was ratified in 1889. The same can't be said for today's world, changes come faster with each new day. I believe that we can do a better job preparing our students to meet tomorrow's opportunities.

Decisions I made as school board director always contained the answer to the question: "How does this benefit our students?" I will do the same as your state superintendent. I will ensure we focus our attention on that most important educational relationship: the one between the teacher and the student. I know how school districts operate and will ensure that they effectively and efficiently deliver a quality education to our students. As an adjunct instructor, I have had real world experience teaching students online from around the world.

My vision is to eliminate "good schools" from real estate ads because every school in Washington will be a wonderful place to learn. Please join me as we shape the future of education in Washington state.

Statement

I am running for Commissioner to protect my family and yours from government and insurance corruption. For decades Washington families have been affected by rising rates, increasing deductibles and lack of choice with insurance.

Under my leadership, we will increase choices for health insurance plans including health sharing memberships and reduce costs. For the diverse needs Washingtonians we need diverse solutions. I support allowing insurance to be purchased across state and national lines, creating a la carte options, catastrophic coverages, removing taxes on insurance and healthcare and putting patients in control.

I will abolish mandatory credit checks on insurance, make it easier for new cost saving plans to be sold in WA and bring back legal defense insurance. I oppose career politicians and support term limits. Politicians get paid too much and have better benefits than average citizens. I call for a reduction in salary for State Executives while also abolishing the taxpayer funded health insurance and pensions they receive. Statement

Mike Kreidler is a strong and independent voice who continues to stand up to powerful industry interests as an advocate for insurance consumers. In his first five terms as Insurance Commissioner, Mike Kreidler saved consumers in our state over \$300 million in auto and homeowners' insurance by cutting excessive premium rates.

His consumer protection staff has helped thousands of Washingtonians with insurance problems, recovering over \$200 million in wrongfully delayed or denied claims. The people of Washington deserve quality health insurance. Mike Kreidler has worked tirelessly to make sure insurance companies can no longer deny coverage. He convinced the Legislature to pass law protecting consumers from receiving surprise medical bills from emergency services.

He will continue working with community, business, and legislative leaders to further improve access to affordable health care and reduce the number of uninsured in our state, especially during their time of greatest need. Mike Kreidler is a proven leader who has served the people of Washington with dedication, fairness and hard work.

Statement

I'm a longtime labor organizer and social justice activist. As a lifelong 11th District resident, I understand what's important and work hard every day to serve working families. I've spent my career fighting for family wage jobs, and passed many significant pieces of legislation - even with a divided legislature. I stand on my principles and get the job done. I reflect our community's strong work ethic and am honored to bring our values of social and economic justice to Olympia.

I believe in fiscal prudence (which includes transparency and accountability) and generating new revenue without raising regressive taxes. Creating a publicly owned state bank does all those. It would create tens of thousands of jobs, save us money, increase our capacity to finance infrastructure, help support needed programs (especially through the COVID-19 crisis), and keep our tax dollars working for Washingtonians, rather than creating profits for Wall Street. Now more than ever, there is a critical need for innovative fiscal solutions and I'm proud to be leading this effort in Olympia.

Together, we'll continue to build on our legislative work and create hope for future generations.

Thank you for your continued confidence in me to represent you in Olympia.

Community Service

I currently volunteer with a local food bank delivering meals to elderly shut-ins. I am a mentor to leading youth education and activism non-profits. I have served as a board member for several social and activism organizations.

Statement

The role of government is first and foremost to protect its citizens rights; life, liberty and property. I have been concerned with the slow creep of bureaucracy and abuses of power infringing on our civil rights. Limiting how we educate our children, preventing many from starting a business, and hindering economic opportunity is unacceptable.

As a student of Austrian economics, all decisions have consequences. Unfortunately, our representatives have made clear they only look at "intentions" with short term perks. I will be a reasoned voice and an advocate for long-term success for you, your family, and our state.

Statement

Seattle's influence over Olympia has caused unequal and unjust taxes on our families and small businesses—this has to stop. In spite of a revenue surplus, our current leadership adopted over \$25 Billion in new taxes in the last budget. Now major budget shortfalls are projected. I'm running because I fear their next step will be an income tax.

I have the small business experience to help get the economy rolling again. My other priorities include combating our homeless crisis, creating affordable housing solutions, ensuring we have equitable education funding options, and holding Sound Transit accountable to our taxpayers.

Still trying to reverse "Roe v. Wade," this era's "Dred Scott" (would make adoption easier for moms giving up newborns). As someone who needs to attract Democrats as well as Independents and Republicans, I've championed Social Security, populism, and have developed an offshoot of the environmentally-conscience 1980's Citizen Party. Since 2004, running the Commoner Local Affairs Committee, whose motto is "Vote for who you want, not who you're suppose to."

Statement

If anything has shown the Radical Democrats' hand, it was their lowering the penalty of intentionally transmitting a communicable disease from felony to misdemeanor (the appointed position 2 incumbent agreed). Their penchant for not balancing off privileges that they give away worldwide, thereby riding roughshod over citizens' rights, will lead to, in Oct., 2020, standard driver's licenses being inadmissible for airplane travel, etc.

I'll need the support of classical Democrats, too, for victory. Know that I'm for Teddy Roosevelt-style environmentalism and trust-busting, social conservatism and Bill of Rights. Unlike some politicians, I actually try to accomplish said goals.

As your State Representative I will continue my work on ensuring access to quality health care for all Washingtonians. The COVID-19 pandemic has demonstrated the need for health care for all and highlighted problems in our current healthcare system. As we face the realities of the economic down-turn I will focus on seeking systemic changes that will decrease disparities in health care rather than increase them. We all need to work together to bring our state back stronger than ever. I ask for your vote so that I may continue to work towards these goals.

Community Service

Chair, House Democratic Campaign Committee, 2015-present; board member, Futurewise, 2016-2019

Statement

COVID-19 has reinforced that we are safer and healthier when we listen to scientists and take early action. We must apply those lessons in the fight against climate change. We've passed new laws on climate change but have much more to do to protect current and future generations.

I will keep fighting for solutions to climate change, for clean air and clean water, to ensure the state helps rebuild the West Seattle Bridge, for the needs of working families and essential workers, and for sustainable revenue and budgets that support healthy, equitable, and safe communities. I ask for your vote.

Statement

My campaign is about Bold Structural Change, not just incremental reforms. The public health and economic crises stemming from the pandemic, coupled with the climate change crisis, suggest major changes in state policy. I support a single-payer health care system, to decouple health care from employment and provide universal health care coverage. The state also desperately needs a new source of progressive revenue, as it has the most regressive tax system in the country. And it is imperative for the state to aggressively address the existential threat of climate change. My candidacy is dedicated to addressing these major challenges.

Every day, they share this power with others by directing resources, influencing critical policy changes, and supporting peer advocacy for intersectionally marginalized Washingtonians.

Statement

The people of the 43rd deserve a representative who understands their needs and fights for the well-being of all its residents. As an abolitionist and harm reductionist, Sherai has witnessed first-hand the failures of our institutions, especially for low-income communities. They work continuously to influence those institutions while using direct advocacy and mutual aid to reduce the immediate harm to people.

Statement

I'm running to give voters an alternative. I support lower taxes, transparency in government, public safety, rights of the vulnerable, parental rights, and First Amendment freedoms.

Many voters, like me, have been ignored by our state representatives. We feel unheard as politicians pass tax increases, but not effective homelessness plans. We're dismayed by harmful bills passed by the single-party-dominated legislature, including this year's radical sexuality education bill opposed by thousands of Washington residents. If elected, I will protect your right to be heard and will protect the rights of the most vulnerable, especially our children.

Proposition No. 1
Levy of General Tax \$3,750,000 for Maintenance and Operations

The Board of Commissioners of South King Fire & Rescue adopted Resolution No. 573 concerning a proposition to finance maintenance and operation expenses. This proposition, if approved, will authorize the District to levy, without regard to the limitations of chapter 84.52 RCW, a property tax upon all taxable property within the district of:

Collection Year	Approximate Levy	
	Rate/\$1,000 Assessed Value	Levy Amount
2021	\$0.19	\$3,750,000
2022	\$0.18	\$3,750,000
2023	\$0.17	\$3,750,000
2024	\$0.16	\$3,750,000

to be used for maintenance and operations and increase the current level of fire services and emergency medical services. Should this proposition be approved?

Statement in favor

South King Fire & Rescue (SKFR) needs your support to replace the expiring Maintenance and Operations (M&O) Levy. The M&O Levy is a funding measure previously supported by voters in 2012 and 2016 to maintain essential fire district services. During this time, SKFR has maintained helpful, professional service with rapid growth in population, development, and call volumes that now exceed 20,000 emergency responses each year.

Replacement of Expiring Levy. Using the 2017 M&O levy rate of .19 cents per \$1,000 of assessed valuation provides the personnel and equipment needed for this M&O levy period. The homeowner of a \$400,000 home will pay just over \$6 dollars a month (\$1.60 more than currently paying).

Support Fire. This levy funds a variety of necessary expenditures that maintain staffing and replace outdated equipment, ensuring quality fire, life safety, and emergency responses. Without this critical funding SKFR would be forced to reduce resources that support the community and postpone equipment replacements.

Vote Yes! The essential nature of SKFR's work is more visible in this infectious disease environment, where firefighter/EMTs perform skillfully on the front lines. They serve us well. We must continue to support SKFR to maintain a strong and healthy community.

Explanatory statement

South King Fire and Rescue, serving the citizens of Greater Federal Way and Des Moines, is placing an excess levy proposition on the August 4th, 2020 ballot.

This proposition will authorize the fire district to collect \$3.75 million annually, at an approximate rate of \$0.19 per \$1,000 of assessed valuation for the first year, for a four-year period covering 2021 through 2024. The proposition is a replacement to the expiring levy, and is presented to allow voters the opportunity to maintain current fire department services and personnel. This is known as a Maintenance & Operations Levy (M&O levy).

Voters approved in 2012, and again in 2016, an M&O levy. The fire district depends on the M&O levy to augment regular property tax revenues. Restoring the 2017 levy rate of .19 per \$1,000 of assessed valuation will allow the fire district to collect an additional \$1 million per year for 4 years. These funds will be used to reinstate the fire district's capital improvement plan for the timely replacement of aging equipment.

The District's Board of Commissioners has determined that this proposition is necessary to maintain an effective level of service and to reinstate the capital improvement plan which has been frozen since the last recession. Rejection of this proposition would lead to reductions in service levels, the layoff of fire department personnel including firefighters, potential elimination of special services to the community, delays in the replacement of emergency equipment, and similar cutbacks.

King County Elections – Securing Our Elections So Every Vote Counts

At King County Elections, our top priority is ensuring that our elections are secure, accessible, and accurate. We know that secure elections are essential to maintain public trust, protect our democracy, and enable our voters to cast a private, confidential choice with their vote.

Physical Security

The King County Elections Headquarters was designed and renovated specifically for processing vote-by-mail ballots and keeping those ballots secure. Director Julie Wise was the first election administrator in the country to request an audit of physical security by the Department of Homeland Security in 2016.

What we're doing:

- Our facility is monitored by over 50 security cameras
- Six live webcams through which the public can watch us at work during the ballot processing period
- Staff and observers must badge into and out of the ballot processing area
- Ballot storage and tabulation areas require both a badge and biometric access

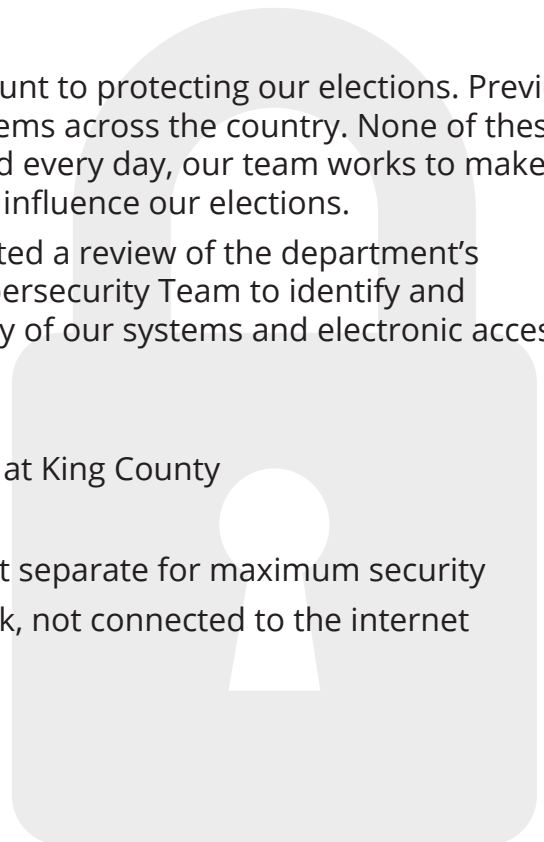

Cybersecurity

In our rapidly changing world, cybersecurity is paramount to protecting our elections. Previous years have seen attempts to tamper with election systems across the country. None of these attempts have been successful here in King County and every day, our team works to make the walls higher and barriers stronger for those looking to influence our elections.

Following the 2016 election, Director Julie Wise requested a review of the department's cybersecurity from the Washington State Auditor's Cybersecurity Team to identify and implement practices and procedures to bolster security of our systems and electronic access points.

What we're doing:

- Employ cybersecurity staff based in Elections and at King County
- All staff receive annual cybersecurity training
- Voter registration and tabulation systems are kept separate for maximum security
- Tabulation system is on an entirely closed network, not connected to the internet
