From the Director

Dear Friends,

Wow. What a year it has been – and it’s only July. Over the past few months, it seems as though every aspect of our lives and communities has changed. From battling a global pandemic to confronting the realities of race in our country, all of us have navigated through – and continue to navigate – the change all around us.

While many of us share our thoughts on social media or talk through what we see as possible solutions to the problems before us with our friends and family, it is clear that the drive to use our voices and have those voices heard is stronger than ever.

So, if you have had an opinion on anything that has happened this year, VOTE.

Use the voice afforded to you by the simple act of voting. You don’t have to vote on every race on your ballot for it to count. You don’t have wait in line for hours and hours to fill in the ovals next to your choice. All you have to do is open your mailbox, vote on the things you care about most, and stick it in a drop box or back in the mail to us.

We are here to count your vote, no matter what your opinion may be.

Join me in casting a Primary ballot by Election Day, August 4th. Join your neighbors in making your voice heard.

Happy voting,

Julie Wise, Director

You will not be voting on every item in this voters’ pamphlet. Use your ballot to identify the races and measures to review.

Your ballot will arrive by July 20.

Voting tips

Filling out your ballot

You can use any color of pen to complete your ballot.

About the Washington Primary Election

In each race, you may vote for any one candidate listed.

The two candidates who receive the most votes in the primary will advance to the general election.

Each candidate for partisan office may state a political party that he or she prefers.

A candidate’s preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate.

Community Service

James volunteers in Union Gospel Mission "Search & Rescue" missions providing food, water, clothing & blankets to homeless, even in Seattle's "Jungle". He's met with Vine Maple Place and New Horizons Youth Homeless Shelter analyzing unmet needs. His focus on these organizations came from his own heart for service he's always had. As a child of a single mom, James experienced similar needs within his own family. His JWOW Fitness Corporation plan reveals "for-profit" revenue percentage channeled into "non-profit" ministry to eradicate homelessness, hunger and additional nationwide urgent unmet needs.

Statement

I'm James Mitchell, asking for your vote. We need to *fire* Kim Schrier! Why? She's done nothing for you in two years! Nothing for your healthcare. She's used her position promoting harm to women and even killing children: from lies about abortion to fighting to make dangerous vaccines *Mandatory*! She states when a baby qualifies as "life" is a woman's "personal, philosophical & religious decision". Kim disrespects our soldiers and leadership. She's not a team player! You need *Me* to fight for *You*! Kim's done nothing truly innovative for our farmers. You give a *third* of your life to your job, so you deserve better wages, affordable housing, innovative manufacturing for more jobs. You deserve healthcare as your "*right*": conventional or natural!

We need full education reform including effective homeschool support & opportunities! Children need to be taught successful life skills so they're better equipped! Then when they graduate they know how the world works! They know how healthcare works! Finances! Why? Because right now after graduation, they're thrown to wolves with a "good luck"!

We don't need two more years of *no action*! Where was Kim during shutdown? She wasn't at the Capitol Rally May 9th where I was fighting for you, for us, together! Fighting to re-open Washington: your jobs, your businesses, so you don't *lose* them! I'm a *Pro-Life* Democrat with old-school, traditional values for our working class and Party restoration.

I'm an entrepreneur who knows small business. I'm a Democrat/Republican hybrid which means I reach across the table: Both Parties working together to serve you! I'm asking you to hire *Me* to work for *You*. Your public servant! Why? Because there is *no* Higher Calling than service to others. I'm James Mitchell and I am... "Uniting Us All For A Better Life"!

Elected Experience

None, which makes me the perfect candidate. No bad habits, no party affiliations, no special interests - other than you.

Other Professional Experience

16 years working in various industrial sectors; Current Position: Environmental Compliance Director, Silver Bay Seafoods

Education

Bachelors Degree from Central Washington University in Geography; Masters Degree from New England College in Management

Community Service

6 years as a volunteer youth sports coach: 4 seasons with the Enumclaw Jr. Hornets; 1 season with Thunder Mountain Middle School's wrestling team; 1 season as the basketball coach for Enumclaw Special Olympics; and 1 season as the Athletic Director of the executive board for Enumclaw Jr. Hornets.

Statement

I'm not a democrat nor a republican; I'm not even a politician. I'm a simple minded, 3rd generation fisherman, middle-class working husband and father trying to provide for my family. I am running for this position because I am frustrated with how politicians have taken control of our government. A government that is supposed to be of the people and by the people has turned into quid pro quo and back room deals and ultimately, they don't get anything accomplished.

Many politicians make and break campaign promises. They say that they are representing you when in reality, they are representing their interests, the interests of their party, and their special interest groups. Who else has absolutely had it with Congress' bipartisan nonsense and constant bickering? I get more accomplished arguing with my teenage sons. I have seen very little from them lately that would indicate they have the best interests of you and me in mind. Lately, the entire congressional process has been a joke and politicians have turned it into a game. Shameful! As your representative you are my party, you are my special interest. My votes and priority will always be what is in the best interests of the people that I represent. To that, I give you my word.

Help me break the chain of this republican versus democrat mentality. Just because they represent the two major parties doesn't mean that either one of them deserves your vote just based solely on their party affiliation. I chose to run as an Independent; that way I owe no devotion to either party. My devotion is to you. Lets send Congress a clear message that We the People are fed up with their political nonsense by considering to cast your vote for me.

Thank you and God Bless.

Community Service

VFW and American Legion Post involvement.

Statement

I spent the early part of my career working on Capitol Hill learning about public policy and government leadership. It wasn't until a visit with a wounded soldier, at the height of the Iraq war, that I became inspired to enlist in the military to serve my country in uniform. As a Captain in the US Army and as a member of the elite Ranger Regiment, I underwent the most intense training our military has to offer and deployed on four combat tours. It was during this time that I learned that the best leaders are servants to those they are entrusted to lead. I decided to run for Congress because too many in D.C. have failed to be servants to the people. My military background combined with my experience working in the Private sector, managing healthcare facilities, and passion for servant leadership has prepared me to serve you in Congress.

I'm prepared to fight for Veterans, Small Business Owners, and workers. The people of the diverse 8th Congressional District deserve someone in Capitol Hill who will represent them. I plan to focus on creating middle class prosperity by limiting runaway spending and onerous regulations. I will fight to defeat the Socialist ideologies on the radical left while lowering the cost of healthcare and protecting coverage for pre-existing conditions. I will fight for our Constitutional rights that the founders knew would ensure equal opportunity for all, the environment, and the National defense while maintaining economic prosperity.

I love my Country and passionately believe that all should be able to achieve the American Dream. I ask for your support so we can realize that dream together.

Endorsers: Dave Reichert, Reagan Dunn, Slade Gorton, Rob McKenna, Jan Shabro, Clay Myers, Congressmen Dan Crenshaw, Mike Gallagher, Mike Waltz, and War Veterans Fund.

Statement

Two years ago, you sent me to Congress because you knew I would advocate for you the same way I stood up for children and families for over 20 years as a pediatrician. You trusted that I would work for affordable, universal healthcare, lower prescription drug prices, a cleaner environment, common sense gun safety, and a woman's right to make her own healthcare decisions. I have, and I will.

As the first pediatrician and the only female doctor in Congress, I have worked to protect children and shape national healthcare policy. Since the onset of the COVID-19 pandemic, I have advocated unambiguously for increased testing, protective equipment for our healthcare professionals and frontline workers, and support for families and small businesses.

As the daughter of a teacher and the product of public schools, I joined the Education & Labor Committee — because we need an economy that works for all Americans. I have worked to ensure that every child has access to excellent public education and advanced training so they are career-ready. This means career and technical education, university education, or apprenticeship. I strongly support our workers' right to collectively bargain.

I am the only member of Congress from the Pacific Northwest on the Agriculture Committee. I have worked across the aisle for our farming community by funding research, supporting trade, encouraging sustainable agriculture, advocating for sensible immigration reform, and getting the Yakima Basin Plan signed into law. I will continue my work to address climate change, safeguard our elections, and protect our threatened species and wild lands.

With over 35 town halls throughout this 7000 square mile district, meeting with you has helped me serve you.

It is a privilege to represent you as a member of Congress and I ask for the honor of your vote.

Statement

Hello, my name is Ryan and I believe we can nudge humanity towards a *cooler* future.

Since I started noticing politics in 1984 folks have *wanted* term limits. We *need* term limits in 21st century. Current 140 plus year strangle hold of narrative by Republicans and Democrats is old and no longer insuring domestic Tranquility. I think 12 years is a good start. No one shall be a U.S. Representative, Senator, Vice President, or President for longer than 12 years. If someone were *awesome*, they could have a 48-year career in federal office otherwise 12-year for most.

It is time to finish switching over to metric system. Letting go of past has always been an *opportunity* for *growth*. We are almost there. How about we finally make it official in 2021?

Leaving relic know as daylight saving time in 20th century would *promote* general Welfare of our Union. 2017 Nobel Prize for chemistry was given to 3 chemists that proved Homo sapiens have a natural internal rhythm. For over 25 years I have witnessed elevated stress levels in families for about a week after our twice-yearly jump, unnecessary stress and higher levels of stress has an influence on life expectancy. By abolishing Daylight Savings, we will eliminate unwanted stress that might nudge life expectancy up in future. Besides, research seems to lean about 70% to 30% that it saves little to no energy whatsoever.

I believe if we have a 90% voter turnout this year both major parties would be speechless, and our Union would be a little more perfect. That would be *sweet*.

Statement

Trump orchestrated the best economy since 1968. Then, communist China wrecked it. But, the sky is not falling. An *unencumbered* Trump will *accelerate* the full recovery of the economy.

Congress has to get out of his way.

The candidate you elect in 2020 will either make Trump's job *easier* or *complicated* the next two years.

A Trump Republican, I shall support all legislative actions that help Trump succeed, so *we all prosper*.

In Congress, I will join with the House Freedom Caucus, a band of MAGA (Make America Great Again) warriors.

Closing argument: Communist China is our biggest threat. Trump can also fix that problem much faster with a *Republican majority* in Congress. Personally, those damn commies can go to hell. I will *always* put America first.

My commitment includes: ranked choice voting; government and businesses serving the people (not the reverse); quality schools; fair free global trade; not ending analog tv prematurely; clean renewable energy sources; supporting our troops' economic and financial futures; not starting the wars in Iraq and Afghanistan or bank bailout; immigration law enforcement focused on abusive employers; progressive tax system for higher incomes; universal healthcare; ProLife (exceptions: rape, incest, significant health risk); UN-focused world unity; ending unconstitutionally illegal judiciary case "laws" and "orders"

Statement

I will be a voice for the people's voices.

Though we the people fight to be heard, we are often ignored, but we must fight on. I started running for Congress because the incumbents weren't listening to the people's voices. Once we start to fight for ourselves we must continue so we don't keep stopping and restarting.

Ranked choice voting is key to protecting our voices because it protects against election thieves splitting an opponent's votes. It means voters would rank the candidates in an election in order of their preferences. If one candidate has more than half the votes after each voter's first ranked choice is counted, then that candidate would be the winner. However, if no has a majority at that point, letting the person with the most votes but less than a majority steal the election is avoidable and, therefore, ridiculous. With ranked choice voting everyone's additional ranked choices is added to the count until someone has a majority. After all the ranks are added if no one has a majority only then will the nonmajority highest vote getter win.

Having ranked choice voting preserves the peoples' voices which is why we should have it. Not having ranked choice voting allows election thieves to steal peoples' voices which is why we don't have it everywhere.

Because of my dedication to helping solve America's problems, after running for the 8th District my first time in 2006 as a write-in, I have been a candidate on the ballot from 2008 to 2020. I am the only candidate to run in every 8th District race during this period which shows my dedication to serving America.

I ask for your vote as a voice supporting me, so I can vote in Congress as a voice supporting you.

Statement

I have worn both a military and police uniform for 34 years, and I have learned the value of safety and how easily it can be lost. Safety is what allows you to provide for your family.

Safety includes: Securing our southern border to stop human trafficking, gangs, and drug cartels who have ruined so many lives. Standing for our Second Amendment right to keep and bear arms. Our Founders understood that a well-armed population would keep a tyrannical government in check, while providing protection for individuals and communities.

Energy independence. Under President Trump, the U.S. has become fully energy independent. No longer do we have to bow to countries who do not like us and would use that dependence as a weapon against us.

Fiscal and regulatory responsibility. The tax cuts enacted by President Trump need to be made permanent, and the federal government needs to make significant spending and regulatory cuts so that this country can live within its means. Returning manufacturing to the United States. COVID-19 has taught us that we have relied too heavily, and too long, on the "cheap" manufacturing done in China. This left us extremely vulnerable, and we cannot allow this to happen again.

Supporting and maintaining a strong military. The security of any nation is reliant on a strong military. We are blessed to have the best in the world in our armed forces, and we need to ensure that we have strong leaders in D.C. who will stand with, and for, them.

I believe President Trump has done an excellent job in moving this country in the right direction, and as your Representative I will work with him, and other members of Congress, to ensure that we *Keep the Republic Safe* in all ways. I humbly ask for your vote.

The great intellectual slayer of Socialism, Ludwig von Mises believed that if we didn't teach economic freedom and Capitalism to "the immense majority", then "there is no hope left for mankind". Yes! When will we end the economic ignorance that has citizens going along and even morally encouraging these counterproductive Coronavirus lockdowns that have allowed hordes of economically ignorant 'well-meaning scholars' like Dr. Anthony Fauci and numerous politicians to inadvertently destroy our freedom and economic prosperity? Mises' protégé, 1974 Nobel Laureate in Economics Friedrich Hayek explains:

"Most people are still unwilling to face the most alarming lesson of modern history: that the greatest crimes of our time have been committed by governments that had the enthusiastic support of millions of people who were guided by moral impulses. It is simply not true that Hitler or Mussolini, Lenin or Stalin, appealed only to the worst instincts of their people: they also appealed to some of the feelings which also dominate contemporary democracies."

"It is necessary to realize that the sources of many of the most harmful agents in this world are often not evil men but high-minded idealists, and that in particular the foundations of totalitarian barbarism have been laid by honourable and well-meaning scholars who never recognized the offspring they produced."

Our freedom to choose transforms billions of free people into a global super-computer where all companies are motivated to innovate and learn from each other thus inadvertently cooperate to discover the best information with which to serve customers and reorder all of mankind. Freedom and competition, not coercive competition-immune government monopoly by 'experts', is what made America the greatest country on earth. Mises and Hayek saved us from Communism, now we must save ourselves from Communism by showing how "Freedom is The Ultimate Algorithm"!

Statement

We've lost trust in our institutions of government. This pandemic revealed there's no hope for Congress to work together with its current makeup. Democrat and Republican careerists have led by making bad situations horrible. They led us to endless wars from a terrorist crisis. Led us through the 2008 crash by taking our financial security. Now they're leading us by stripping hope for our children to have better lives.

It's time for everyone to pick a side. The quicker we unite under one party, the quicker we can overcome the suffering and rebuild. I took a risk when I voted for Trump and I'm glad I did. I don't agree with him on everything, but I'll work with him. I've learned that when you're under fire, sometimes it's better to choose the unknown and work through it on the way.

I will always bring an open mind to the floor, followed by a passionate drive to rebuild. America is taking a sharp turn toward self-sufficiency in every aspect. The federal government needs to invest in ways that put America first. We need to invest in ourselves and it must be accompanied with greater choice.

I don't want campaign donations. It's not right to ask for your money before your vote. I'll be clear if I win: on the following day at 12:01 am, I will announce my intent to bring open congressional hearings across our institutions, and call on Congress to subpoena any government official, civilian and military, suspected of misleading the public on the war in Afghanistan, election investigations, and this pandemic. America deserves the truth. We need to know where we fell apart, so we can rebuild it stronger and set an example for our children and grandchildren. That's what making America great again truly means.

Statement

You Deserve Representation in Congress that listens to you!

You deserve to be heard and understood. The US House of is the closest representation to the people and the most accountable branch of government elected every 2 years. It's also the most powerful branch of government, with the power of the treasury and the power of oversight. Representatives must serve the voters!

I believe public service should be like "jury duty", regular people like you and I should go and serve for a while, then return home and live under the laws we helped pass. That's real accountability. Career politicians are the biggest problem in government today. This has been demonstrated in real time with the handling of the coronavirus lockdowns. The good intentions that started the process quickly devolved into political favoritism and opportunities to advance agendas. This should never happen in an emergency or any other time. The "suspension" of our civil rights is an outrage and no freedom loving American should ever stand for it. I will always fight to defend your God given, constitutionally protected rights. I will fight to keep you free to live your life as you see fit and to keep you free from unnecessary government interference in your home, place of worship, and schools.

I support President Trump and his America first policy. I support strong borders and stopping the illegal immigration, human trafficking, and drug related gang activity that porous borders create. A physical barrier is needed as soon as possible. I also would seek to drastically reduce the disastrous H1B guest worker visa program. American companies need to hire American workers first!

I am a pro-life, pro-Trump constitutional conservative and I am committed to serve you in the U.S. Congress with energy, integrity, and commitment.

Statement

Our district is a tremendously diverse and hard-working community, one that I have been proud to call home my entire life. I grew up in the city of SeaTac, and have lived in Kent, Tacoma, and now Bellevue where I live with my wife Sara, and our children Kendall and Jack. Kendall is a Sophomore at the UW and Jack is a Junior at Issaquah High School.

As our nation faces unprecedented challenges, I am focused on strengthening the middle class, ensuring equality of opportunity for all, and investing in our future. We must provide a progressive path forward where everyone can thrive. Working class families, like the union one I grew up in, do not have the same opportunities as previous generations. This must change. We must grow from the middle out, increase economic opportunities, protect unions, make higher education more affordable and accessible, and provide good paying jobs.

All people, no matter their background, should have access to quality, affordable healthcare. Our healthcare system needs to be restructured to create a path to universal access to healthcare through a plan like Medicare for All. As the Chairman of the House Armed Services Committee, I have also prioritized making sure that all of our service members and their families, no matter who they are, receive the support they need and have earned.

I work hard to make sure every person in our district has access to the best this country has to offer; not only because it's the right thing to do, but because this is also my home—it's personal to me.

It is a true privilege to serve our community and I would be honored to have your vote.

Statement

Our state is at a crossroads. Washington faces rampant homelessness fueled by mental illness and addiction, out-of-control spending, a lack of adequate funding for transportation, the human tragedy of the opioid crisis, and now COVID-19. Whoever you elect as governor faces an \$8 billion shortfall. This is not a time for on the job training.

I am the only candidate with executive private-sector and legislative experience. I have an in-depth knowledge of budgetary issues and the effects cuts have on education and the most vulnerable, especially veterans, seniors and the disabled. I want to put taxpayers first, restructure state spending, reduce regulations and the size of state government. We can avoid massive tax increases or cuts to critical services that affect those most in need and I am the candidate to do that.

You can check my voting record and see the bills I've sponsored that address the problems we face like homelessness, public safety, mental health, transportation and the environment. I fought against the kindergarten sex ed bill, opposed needless tax increases that just grow government, and voted against policies that hurt your family.

Four years ago, the incumbent repeatedly promised not to raise taxes, only to sign \$25 billion in new taxes this year. Now, his inconsistent response to COVID-19 has caused untold economic and social devastation to families and small businesses around the state. As your next governor, I will be fair and transparent.

We must bring our state together. An urban-centric approach to governing which ignores the needs of rural Washington and our diverse economy, like agriculture, is not good for the state as a whole. Check out my comprehensive plan, the Blueprint for Washington. It refocuses state government to put the people back in charge, not special interests.

Statement

t's about to get even more complicated.

The next governor is facing a multibillion-dollar budget shortfall, widespread unemployment, a virus that will be with us for a while, plus lingering resentment over the shutdown. The next governor of Washington is going to need a skill set that we have not seen in politicians before.

This is not the time for angry ideologues. This is not the time to hire someone who uses this office as a steppingstone for their next job. This is the time for good management, servant leadership, real diplomacy, and complete indifference to partisan political fights.

The next governor needs to minimize the pain, so you don't notice it, and be completely transparent about what your government is doing. *Your government should be invisible when you don't need it, and readily available when you do.*

When one of my businesses suffered an 80% drop in sales due to a search engine change, I had tough choices to make. The answer wasn't to simply cut expenses, raise prices, and complain about taxes. Creative and unusual ideas were what saved that company and made it #1 in its industry nationwide. The next governor needs to be this creative, must value freedom and personal responsibility, preserve liberty and real justice for everyone, and must be a true representative of the people; not a lifelong politician.

I am running for governor to be your servant; to be the manager you hire to work on its greatest financial challenge. I am running to introduce creativity, efficient design, transparency, and diplomacy to state government. As a business owner, my entire job is making sure our customers and employees are served well. With your vote, your next governor will have that same obsession for serving you.

Participating in fights to unify the working class — against racism and police violence, in defense of women's right to choose abortion, and defending immigrant workers.

Statement

Workers and farmers face the long-term economic, social, and moral crisis of capitalism. The response to the coronavirus only exposed and accelerated this crisis.

Safety, wages, and working conditions are under attack in rail and truck transportation, factories and packing plants, and retail. Workers need to fight for control over production to win safe working conditions, manufacture and distribution of quality goods, and protect the environment.

Our party promotes an action program to unite working people internationally and break down the barriers between those of us employed and unemployed. The working class needs to work. That's where we go through struggles that bolster our confidence and strengthen our trust in each other and our capacities to fight. The Yakima Valley fruit packers' fight for safe working conditions and better pay is an example for all working people. We urge your solidarity!

The Socialist Workers Party demands the federal government fund a massive public works program now to provide jobs at union wages for the millions tossed out of work. Workers can build needed hospitals, housing, schools and day care centers and replace crumbling infrastructure.

Farmers need solidarity from the working class and must be guaranteed the cost of production. Irrational breakdowns in the food market cause the destruction of milk, vegetables and livestock, as millions face hunger. The government must distribute this food to those who need it worldwide. The bosses divide working people by scapegoating immigrant workers. My campaign fights for amnesty for all undocumented workers in the US.

Workers need a party that speaks in our interests—a labor party. We need to take political power from the bosses' class and establish a government of workers and farmers! Statement

As Governor, my mission will be to fix Washington's broken system. I'll bring my battle-tested experience and proven results reforming government to serve you.

Imagine if Jay Inslee hadn't betrayed voters by breaking his campaign promises to veto taxes, raising them 30 times instead. Imagine if Inslee hadn't recklessly shut down thousands of small businesses, forcing a million people out of work, while letting mega-corporations remain open. Inslee's lockdown spared his allies but punished everyone else. Inslee's actions always benefit the special interests that bankroll him.

As Governor, I will serve *you*. I'll reduce taxes, prioritize spending, grow our economy, guard your individual liberty, and protect your constitutional rights. For 22 years, I've fought for you with initiatives that *cut taxes, strengthened our communities and made our streets safer*. I've saved the people of Washington \$43 Billion, while Inslee's 30 tax increases cost citizens \$50 Billion. While *you can rely on me* to cut taxes—because I've done it over and over—Inslee admitted he's exploiting the economic crisis he caused to raise your taxes – he wants carbon taxes, income taxes, and a creepy “Pay-Per-Mile-Tax.” I'll block all tax increases.

Inslee's reckless policies created the most homelessness and violent crime in our state's history. I'll use common-sense strategies to get the homeless off the streets.

Inslee got away with taking \$5 million from taxpayers for his campaign. His cronies in Seattle tried overturning your vote for \$30 Tabs, saying you were “confused.” Under Inslee, this broken system no longer serves the people. Washington has a Seattle Legislature, Seattle Supreme Court and a Seattle Governor. Enough! It's time at least one branch of government represents the rest of us.

Statement

Our economy and society has forever changed. For better or worse, it is likely there will be no going back.

We owe a debt to our essential workers, who put their lives at risk every day, to provide them with childcare and tuition-free college or trade school. Our farmworkers deserve strong workplace protections. Our health care professionals deserve a reporting infrastructure that takes their demands and whistleblower complaints seriously.

Healthcare, including mental healthcare, should be covered for all Washington citizens. We need to shore up our domestic violence and child abuse prevention and reporting infrastructure. We need to incentivize K-12 online learning infrastructure and opportunities.

We need to support Native American communities and preserve our ecological inheritance. We need to preserve the Salish Sea and work towards the ultimate removal of the Snake River Dams, while supporting and compensating farmers and other stakeholders.

Finally, Amazon's practices have been anti-competitive and predatory. We need to transform Amazon into a public utility owned by the people.

Greetings fellow voters of our beginning Space Age. How do you want to lead your precious lives in this age of advancing, technological miracles? I, Goodspaceguy, want to help raise our living standard. Believing a higher living standard is possible, I studied business and economics and have taken science as a lifelong hobby.

Viruses will always attack you. Your immune system defends you. As governor, I will not shut down your businesses or forbid you to go to work. Shut downs lower the living standard. If we listen, economics can tell us how to raise the living standard. Scientific technology can also help raise our living standard. How can research, such as stem cell research, improve our bodies? How many robots would you want to supervise to make your work easier? Let's make it easy for people to get into the workforce so that more people can help with the raising of the living standard and the paying of their bills.

On our Spaceship Earth, I've lived primarily in Washington State, Minnesota, Maryland, Missouri, Germany, and Sweden. I've concluded that we should look upon our world as a natural and beautiful spaceship.

From economics I've learnt that we should move away from the big government, command economy of force that is a heavy burden on taxpayers. We should move toward the voluntary, competitive, free market economy which uses profit to create jobs that are in balance with what consumers want. You consumers rule.

Because many people have the same birth name as me, I could not find myself on the internet. I went to court to alter my name, and now you can find me. Please use my findable name "Goodspaceguy."

Separately, please refer to our world as "Spaceship Earth." This concept might improve your descendants' future.

I am running as a spokesperson for the anti-apartheid / reparations-now movement. My issues and solutions:

1) Raise awareness that Washington State is Native American land, and should be returned. Colonialism is no longer acceptable. 2) The current Governor's biggest mistake is turning Seattle's SVI building over to proven historical Negro vampire criminals. This is unconstitutional, and will be opposed in the courts and on the street.

3) Reparations must be paid to "Africatown" to repair / correct the cultural and economic damage done to the refugees from European colonial settler terrorism / slavery. 4) End the ethnic cleansing / "gentrification" of blacks out of Seattle's historic central area and Tacoma's historic hilltop (aka Africatown).

5) Remove the names / images of the "North-American Hitlers", Washington / Jefferson, those mass murderers of Native American "Indians" and "owners" of hundreds of "slaves". 6) Stop schools from teaching any children that Washington and Jefferson ("Indian" killers / slavers) were champions of "freedom, justice, equality and democracy" when they were in fact brutal "terrorists".

7) End homelessness by providing land, materials / expertise for homeless to build their own mortgage-free housing. (have you ever seen a homeless bird?) 8) Limit "police" to 5-year terms—in which they must complete teacher's certificate qualifications and then teach for 5 years before returning to law enforcement—to prevent PTSD and stop criminals hiding behind government issued badges / guns.

9) Our state must form its own bank to finance ending homelessness through sweat equity. 10) Since race is arbitrarily based on "skin color", redefine "race" based on hair color, which is much easier to change—especially for "white minded" integrated Negroes like Court Justice "Uncle" Clarence Thomas.

Today you will choose a leader that will inherit a pandemic. I still believe the most important words of the United States Constitution is "We The People". We cannot ignore that our country is now in a state of a catastrophic crisis on all levels of government. Getting things done is what I offer Washingtonians. Healing and regaining the trust of the people is my first order of business when I take office. Understanding cultural differences and working with many elected leaders around the world has prepared me to work with people of all ethic background. It is time to break with practice tribalism and really care and deliver the needs to the people of Washington State. I want Eastern Washington to know I care and know the important roll you play to this Washington. This election is about you and the needs for your families future. We have one of the most regressive tax structures in the country. Working people are hurting and this must stop. At this moment and time. We all must care. I have always went to battle without an elective seat for social and economic justice. I will lead this state with a open but progressive mind. Our state has and always will be a state of innovators and people who know how to fight for the right things to be done. It is our time now to embrace a new future. We will prevail. Stay safe.

Statement
By trade and training, Dr. Raul Garcia is a healer. An emergency room physician who has spent his career on the frontlines healing and protecting people during life’s most vulnerable moments.
Raul escaped Cuba at the age of eleven. He became a protector of his family and those he loved, and also of the American dream and the values it represents. In Cuba, he witnessed firsthand the devastating and demoralizing effects of socialism. From those early experiences, Dr. Garcia began a life of service. Through a career in medicine, leadership on national boards and professional associations, and success as an entrepreneur, Raul is the ideal person to lead Washington past Covid-19 and back to health and prosperity.
Dr. Garcia envisions a Washington bound by shared interests, not divided by political ideology. He offers his candidacy as an alternative to the career politicians that care more about serving themselves than the people.
A staunch opponent of any increase in state tax, he believes in limited, efficient and accountable government. His leadership will focus on economic prosperity and the health of our citizens.
Dr. Garcia will assure that never again will tens of millions of tax dollars be wasted on fraudulent claims while health care workers do not have protective equipment and our nursing homes are closing due to lack of state support.
A collaborative unifier, he will listen to and fight for the small business owner, the farmer, the teacher, and for every Washingtonian striving to achieve the American dream. As an immigrant, Dr. Garcia values freedom and opportunity for all, and above all. In this unprecedented time, Dr. Raul Garcia offers different leadership focused on making Washington state the most triumphant, thriving, and prosperous state of our union.

Statement

Over the past 35 years, Washington State has had an elected Democrat as Governor. With decades of empty promises and slow progress, look where it has led us to. As the next Governor of Washington State, I, Tylor Grow, will eliminate the partisan gridlock that keeps our beautiful state from reaching its true potential by streamlining the way Washington State handles tax revenue.

I will reform our methods of collecting tax revenue regarding infrastructure to greatly benefit all of Washington's residents - not just the select few in the state's urban centers. I will reform how we allocate funds for Washington State's public schools in order to help solve our students.

I will reform our state's health care system by providing a public option for our state's residents. No one should have to worry about the cost of health care. I will stop penalizing tax-funded organizations and programs for not using enough provided tax funds. This leads to wasteful spending which should be discouraged.

I will reform how we handle our homeless population. I will invest in building large dormitories in which resources for wellbeing, rehabilitation, and career-building cases will be available. This will keep people off the streets and add to our booming workforce.

As a gay person of Mexican descent, I know what it's like to be discriminated against. I want to help everyone in Washington State no matter: race, gender, sexual orientation, income, and/or ability.

Vote Tylor Grow for Governor of Washington State!

Statement

No new taxes. Third party audits on all taxes to find waste or misuse. Better health care for all. Equality of opportunity for all. Term limits. All these policies I am in favor of, but they are just talking points. I am twenty-six years old but even I know corruption runs the government. We expect politicians to lie and cheat. We also expect them to make millions of dollars through corrupt means while in office, and we just accept it. That is why I am running for office without accepting donations to my campaign and refusing any partnerships or sponsors. I am doing this so you know that I'm here to serve you, not to gain money or power.

Holding government accountable is something no one in politics will do and I am sick of it. Together with the people we will implement new bills to punish corruption and enact Title 18 Section 241 and 242 of the United States Code to remove the rot in government. Epstein didn't kill himself. *Bringing back trust in the government is my goal, and instilling fear of the people into the government is my purpose. Freedom is not free. Born and raised in Eastern Washington, I've lived and worked throughout the state, and this has given me the opportunity to talk with people in all walks of life, and to consider the variety of issues facing them. I believe that without a little more opportunity for the next generation, we cannot have a healthy civilization.

If corporations move to other countries, they should follow the same rules and labour practices as in the USA. Stop shipping logs, jobs, and clean air over seas. Turn off reactor at Hanford; stop making the mess. Nationwide public internet access for everyone and net neutrality. Ban the use of certain weed killers on federally funded sites. Overturn Citizen's United.

Picture a state and a nation where your children can afford to live. A land without discrimination, and where the working person receives their just reward. A place where worker's rights are protected; where innovative, effective leadership inspires; and where elected officials are chosen by the people, not by their financial contributors. Rather than propose campaign reform, I'm going to implement it. I am not an attorney, and I am not a politician. Therefore, there will be no question about who I am working for. I will lead Washington into the 21st century.

As the first Senator not financed by PAC money, and hailing from one of the best states in the Union, I will stir the very dregdes of the old guard in Washington D.C., and at the same time provide inspiration to anyone else who truly cares about the future of our great Nation. Statement

Many activists and a state-sponsored working group are working on healthcare reform, here in Washington, our home. Coming to The People's desk for signature first, as Washington State Governor, I would most likely sign that reform, given my sense of it, as the next step for healthcare as an unalienable right.

We need our Robust Economy, rural and urban, to pay for our programs. Before, it was only good, fair reduced taxes for The Great Majority, followed by education, our state's Paramount Duty, as mandated by our Washington State Constitution and Target Zero transportation deaths and transportation major injuries before this decade's end. Our pandemical tsunami has changed the lay of the land.

Now We all require that rural and urban Robust Economy and good, fair revenue, yes Fair Taxes, family wage jobs, thriving independent, employee-owned businesses et cetera.

In my mind, it really is Full Mobilization, All Hands, Non-Profits, Profits and Government needed, urged, coached and inspired. As Governor, Washington our home, I will establish a Kitchen Cabinet concept in Office of the Governor to educate and move our People, our economy our society, Onward. We already have top quality, volunteers waiting in the wings.

This is our home. We want, We deserve more. Putting People First, Keeping People First. It short, I want the good, better and best angels of our nature, fully mobilized, not the ugly, worst and flawed earth angels of our nature. My apology for long-winded polemic, but you did press the on button and it worked.

The only limits to our realizations of tomorrows will be our doubts of todays. Let us move forward with strong and active faith. Adapted from FDR's last undelivered Warm Springs address. For more info, access <https://www.facebook.com/gene.hart.568/> (360) 473-9064, geneh@silverlink.net

Dylan loves skiing, videography, traveling, and exploring what Washington State, and the greater Pacific Northwest has to offer. He currently attends Northwest Nazarene University, and studies Secondary Education, with an Emphasis in History, and a minor in Special Education. When elected, Dylan is in favor of encouraging increases for Teacher Salaries, increase funding for State Parks and conservation, Debt Relief program for students of Washington, promoting more representation of young people in politics, and being a voice for Washington State, as much the East as the West.

Dylan’s weakness is also what makes him shine as a candidate. While Dylan is young, and may be lacking some of the elected experience his opponents may have, he brings as fresh, new outlook and perspective for Washington State, that is both beneficial and crucial for the next stage in our States history. As a college student, he is not looking to make a career in politics, but in fact getting in, and getting what needs to be done for Washington State accomplished.

He can’t wait to see what the future holds, and looks forward to seeing what he can do for our State.

Wheeling for Governor as Paraplegic

"Keep Washington Wonderful"

Why am I Wheeling for Governor? Because I believe Times of Crisis Reveal Women's and Men's Hearts. Panic initiates Response. It's fundamental Darwinism! It's fundamental Christianity, It's fundamental Religion and Community! Stand and fight or Retreat and compromise. Live with honor and show your opponent some Quarter in mutual times of Crisis or Live for power and take advantage of your opponent purely because the opportunity is there to be had!

The colonies did not rebel Because the Time was ripe, the moment opportune! What Great things could possibly come from such virtues less tactics? We Stood up against an ever-increasing Tyrannical King and decided the time of being ruled by other's was an inequity we would no longer justify. We did not take on the issue of slavery out of convenience or because the political landscape was ripe. We took up the fight against slavery because the owning of slaves was tearing our country apart and we had to decide "Do we really Believe all men to be equal."

Maybe this is why War is always doomed to fail. When Struggling for survival against lions and tigers and Bears and maybe such monster's like Hitler and Stalin and Mao, attacking such monsters when they sleep or find themselves in an unforeseen snare is validated. But using such means whenever they present themselves against other human beings may in the end be the end of us all!

I believe Many have shown their true colors and are using this time of crisis as justifications to Grab power and justify authoritarianism and chip away at the foundations of our country. Not money, not slavery, not fear, not greed or power. That Every Citizen has the right To Freedom!

We meet again. I ran for this office in 2016, introducing a word I coined. Do you remember that word?

I've learned a lot since then. In fact, I've been working on a series of books focusing on politix, as I call it. They include the first ever general political reference focusing on Washington State and its de facto capital, Seattle. *SeaWA Politix* and what may be the first truthful book about Bill Gates will be published before the general election. A third book, focusing on coronavirus conspiracy theories will probably be published by the time you read this. You can learn about my books @ www.kpowbooks.com.

I'm not afraid to tackle the toughest issues, from sex trafficking to telling Bill Gates to shut up and pay his fair share of taxes. As a former teacher with the corrupt Seattle School District, education reform has always been one of my top issues. As a former wildlife biologist in Alaska, I recognize environmental protection as the most important issue of all.

On the international scene, we need to put an end to our decades-old tirade against China. I view China as a friend. *Israel is the enemy*. In fact, my book *SeaWA Politix* is illustrated with photos taken with a Chinese Huawei smartphone, which boasts the best camera(s) of any smartphone.

Please ignore the *Seattle Times* and other sleazy media and their endorsements! If voters can't think for themselves, what hope is there?

In these trying times, it's more important than ever to believe in the power of one. As Edward Abbey said, a patriot must always be ready to protect his country from his government. In that spirit, my crusade won't end with this election campaign. Elected or not, I will continue to learn and fight the good fight.

Statement

Anton brings years of leadership experience in the private sector where he has spent his career solving problems. Anton understands the important issues facing Washingtonians, but are ignored by the out of touch political establishment. Anton is not a career politician, will not play politics and will not be bought. His businesslike approach offers real solutions to the soaring issues we face.

Anton's vision for Washington to be a state that is efficiently and effectively serving its people. He sees what is broken and will enact real solutions. He will respect the will of voters, cut taxes, reduce bureaucracy, and uphold the Constitution and Individual Rights. He will drain the Olympia swamp and end the drug fueled and government enabled homelessness by holding agencies accountable to their budgets and outcomes. He will end government interference in our lives, the extreme liberal agendas pushed on our children and attacks on personal freedom. He envisions a Washington that is friendly to businesses and individual liberty – a Washington where Constitutional rights are protected, businesses thrive, and individual success is not punished by uncontrolled taxation through the death tax, estate recovery tax and real estate taxes.

Under Anton's leadership, the state will reduce regulations, attract new businesses, allow existing businesses to thrive and reopen closed industries.

As a refugee from the Soviet Union, he has seen the damage caused by too much government, too much regulation, and the importance of a balance of powers in maintaining a free and prosperous life.

The Governor of Washington State should not be a career politician but instead a leader and executive manager who is working for the people. As a proud American citizen whose family escaped communism, Anton has realized the American Dream – a dream that is alive and is deserving of every hard-working Washingtonian.

Statement

Putting people over party. It's what I did as a City Councilmember in my hometown of Lake Forest Park. It's what I'll do if elected as your Governor.

As an anti-Trump Republican, I know Washingtonians appreciate a leader who tells it like it is. Many of my fellow Republicans get upset when I say Donald Trump is a phony and an assclown. As is Tim Eyman. Fair enough.

Valuing individuals over party affiliation, I've supported sensible Democrats who've proven competency to govern. I proudly helped Bob Ferguson's campaign for County Council. He was a great Councilmember; he's a dreadful Attorney General. This year, I backed Senator Amy Klobuchar for President and endorse Hilary Franz' reelection for Lands Commissioner.

As for Jay Inslee? 32 years in office, now he wants 4 more. Has he earned it? Traveling the country last year, utilizing \$4 million dollars of taxpayer money for travel and State Patrol security detail. All for a miserably failed campaign in which he never had a chance.

I'm writing this in May, as a first time, soon-to-be dad late this summer, wondering about the world into which my daughter will be born. 2020 will be a depression year: GDP down 10%, DOW below 20,000, 40 million unemployed, and staggering deaths from coronavirus. But out of despair... we can find hope.

It's time to End 36 Years of One-Party Rule. I support two-year terms for the Governorship. If elected, I will step aside in 2022 so Washingtonians can elect a new Governor that November. I invite you right now to pause your reading, and visit ResetWA.org to learn my plans for advancing electoral reform, balancing our massive budget shortfall, and to fight COVID-19 to save lives and restore our economy. Statement

The State of Washington is incomparable. Her diversity, geography and economy would power a strong independent nation. The upcoming term demands one of the hardest working governors in history, to halt in-fighting and guide our state to a swift, safe recovery.

My grandparents immigrated to Washington in the early 20th century, starting a small dairy farm. They would be proud of their descendants - children and grandchildren who have become professionals in almost every imaginable industry, served their country, and of course continued to farm. I was raised on a hop farm along the Yakima River. I drove tractor, fed the pigs, lugged irrigation pipes and worked non-stop through summer harvests.

After attending the USC Film School, I was hired as the station manager for KUCB, a public TV and radio station in Alaska. I met a remarkable, strong woman in Dutch Harbor, and we returned to Washington to start a family. Our oldest son recently graduated from the University of Washington, where our youngest son is a freshman.

I have been in public service for eleven years, working closely with city, state and county agencies. I am best positioned to oversee the executive branch of our state, and will make the most efficient use of my time while never fundraising. In addition to working across the aisle, the Governor needs to thoroughly understand all state agencies, and earn the respect of employees and the public. I have demonstrated the ability to work with all levels of government, bringing together opposing ideas for stronger solutions.

This election must be about independence. Washington is independent. Republicans and Democrats are good people, though the current party leadership promotes divisiveness and distrust. I would be honored to be your Governor, and will promote respect for all Washingtonians.

**Elected Experience**

Ian Gonzales brings a clean slate to politics. He is someone who has no affiliation with interest groups, lobbyists, or large corporations. This means Ian has no other motive than to do what is best for Washington.

Other Professional Experience

Ian started his business in 2018. The company Yesu Creations, although a for-profit company, has donated to local organizations helping veterans returning home with PTSD.

Education

Attendee of Washington State University since age 15. Majoring in biology and minoring in business administration, he's finished his junior year, completing his business minor.

Community Service

Spent nearly 10 hours a week serving at church and the community.

Statement

I'm running for Governor because my generation and those that follow will reap both the benefits and the long term *consequences* of the decisions made by our current administration. Washington has become increasingly tax-happy, yet many of the programs that tax dollars are being dumped into aren't reaping their intended benefits which needs to change. These programs have better solutions waiting to be applied that would allow the people of Washington to pay less taxes; yet still fund the things that are necessary, like quality roads. Washington as it stands is more divided than ever. Our state needs a leader who is invested into the prosperity of our state's future, someone who can unite both sides of the mountains, and is willing to govern *all* 39 counties. Homelessness is a major challenge being presented in King and surrounding counties. This is an issue that everyone's tax dollars have a stake in, though it could be 200 miles away, and still the problem has not been solved. Either our money is not going where the state says or our current leadership isn't able to find ways to better the homeless situation. Either way, homelessness needs to be addressed in all counties.

Even more cause for concern with our current leadership, I-976 which would have decreased vehicle tabs to \$30, was *voted* on and passed, then held up in court, not giving the people what they voted for. While similarly, I-1639 which inaccurately portrays all semi-automatic rifles as "assault rifles" is a direct hit to our second amendment rights. These alarming events shows us Washingtonians that our voice is dwindling. If you want a governor who you can trust, believe in, and know won't ignore your votes, remember me, Ian Gonzales, with your primary vote on August 4th.

**Elected Experience**

Not a Professional Politician; President of Local 1121, since 2014

Other Professional Experience

Helped build the Washington D.C. Metro 1976-82. Promoted to supervisor. Own business 1986-96. TSA 2010-19.

Education

PhD of Industrial and Organization Psychology 9/2007. Dissertation "The Effects of Cultural Diversity in the Workplace," published with the library of congress and cited 5 times.

Community Service

Volunteered over 1000 hours a year since 2013 to represent TSA officers. Reported officers' welfare to the media 12/2018 shutdown. Helped officers get over 2,500 gifts cards from passengers, other unions and residents during the shutdown. Cook for homeless on occasion.

Statement

Dr. D'Almeida has always been vocal about the inhuman treatment of homeless and lack of affordable housing. Veterans and foster parents need more psychological support. Housing the homeless and treating their medical issues is cheaper than leaving them on the streets. The money used to clean after the homeless, will be used to house them.

Students should not have to be punished with student loans when trying to become productive members of society. The Police; firefighter and schools, should have better and more up-to-date technology. All students and teachers should be provided with free bus and light rail pass for as long as they carry partial credits. Kindergarten to high schools need free nutritional lunches. Free day care for low income people.

I will introduce a bill to protect first responders and give them hazard's pay and another bill that will protect small business during a pandemic. Pandemics will be dealt with one city and one county at a time.

Those with substance abuse need medical and psychological support. A woman's body belongs to her, not the government. No Second Amendment violation. Our 70 million backup army does not kill innocent people, criminals use guns to kill innocent people! Property Taxes stays the same until the minimum wage goes up. Women and other minorities need more support. Our Immigration Laws are in shambles and must be Updated. LGBTQ, WOMXN and LatinX have rights too and need support. State Parks must be upgraded. No more for-profit jail or detention centers.

It is not what we have, but what we do to help others during a time of struggle that define us who we are. My goal is to serve "The People," not control them! Where we go from here is up to you.

Statement

The people of Washington are resilient and deserve leadership that reflects their character. Jay Inslee's proven experience in difficult times and his successful economic vision are exactly what Washington needs as we rebuild our economy and help families and businesses recover from the pandemic.

The measure of our leaders is how they respond to unexpected crises. When Washington became ground zero in the country for COVID-19, Governor Jay Inslee met this health and economic crisis head-on, with bold action based on science and guided by public health experts.

The Ellensburg Daily Record praised Governor Inslee, writing, "In the moment when he has been tested the hardest, Inslee has stepped up, making the tough calls and providing the leadership needed to get this state through the COVID-19 crisis." The Chair of the University of Washington's Department of Global Health praised Inslee's leadership for "having saved countless lives."

Under Inslee's leadership, Washington recovered from the last great recession to become the country's #1 rated economy, and our state is poised to rebound more quickly thanks to the Governor's progressive policies. Our state has the nation's best Paid Family and Medical Leave, we have expanded health care coverage to 800,000 Washingtonians and created a long-term care benefit for seniors that puts us in a better position to address public health dangers and immediate economic hardship.

Inslee's Career Connect program provides on-site training and apprenticeships for thousands of students who have plans other than four-year college and his investments in forward-thinking renewable energy industries have prepared us to endure and recover from the economic pain so many are now living through.

Governor Inslee's steady leadership and pioneering vision make him exactly the governor we need now to guide us to a better, stronger and more just future for Washington.

Statement
Are you better off today than you were four years ago?
Is it easier to find a job, keep your business open, walk safely in your community, educate your children and protect your family's health? Under this Governor unemployment has skyrocketed, homelessness, crime and drug abuse have exploded and public health bureaucrats spent time pushing for heroin injection sites instead of preparing for a pandemic. We need a Governor who will listen to everyone, not just the powerful and well connected. Olympia is working for political insiders who don't need the help while ignoring those devastated by a health crisis and economic collapse. Our state's only mental health hospital was so poorly mismanaged it was decertified by the federal government leaving the mentally ill to wander the streets.
As I've travelled to all 39 counties, the message is consistently clear: *we need a Governor to bring Washington together, not divide us into camps of "essential" versus "non-essential". I will lead Washington's economic recovery.* I have a lifelong record of community service here and around the world. I will not take a salary as Governor and will instead donate it to local nonprofits helping the mentally ill and homeless. I have a track record of bringing people together as a successful businessman and bipartisan leader who has cut taxes while protecting the most vulnerable. *I will veto any attempt at a state income tax.* I will never use my office to take away liberties our founders fought and died for and will uphold our U.S. and State Constitutions.
My wife Lindie and I are both the product of Washington public schools and believe in supporting education. Our five kids join us in serving the disadvantaged around the world.

Community Service

I have been a leader for my local church youth group for the last six years, and I work for a nonprofit In addition to minor things like beach clean-ups.

Statement

Unity, Prosperity, Honor these are the things I want to bring to Washington. They are the hallmarks of a stable, reliable government and a functioning society. These three things will bring Washington into a new golden age. With them, we can create “a city on the hill” to the rest of our nation!

Unity It's a powerful hopeful word, especially because today we live divided. From our state to our families and communities. Red and Blue, a Donkey and an Elephant. We let these things define us and divide us. Why? is that the Washington we want? I don't think so. Cooperation and unity between the major parties, Working together despite our differing opinions to build a better, unified Washington. That's what Washington needs and what's what I'll bring.

Prosperity, how you go about bringing prosperity? I believe prosperity comes from three things the land, the People, and the Schools. The land is our natural resources, our farms, our forest, and our seas. The people are our culture, our businesses, and our dreams. Lastly, schools are how we teach our young people. To be independent, resourceful, insightful, courageous, and honorable. Instead of boring them to death, I want to create a love of learning and life long growth. Not just ensuring a better education but a better economy as companies flock to our superior workforce.

Finally, *Honor*, Honor, is everything. It means leaders you can trust. Politicians, working towards what's best for the people, never being bought, always leading from the front, and doing the hard jobs no one else will. A state where people are always worried about the integrity of their leaders can never move forward. Because if you can't believe that the other side is saying. you can never understand each other.

Statement

I am choosing to run for Governor of the Great state of Washington because I believe it is time for change. I see money for the homeless, yet our homeless population does not diminish. I see money spent on the schools, yet the districts are wildly unequal. Poor districts do not have the computers and laptops that the wealthier districts have, even as technology becomes more vital to our children's education. I am very concerned that we are overtaxed and our money is being misspent .

Many want to spend effort and money to focus on all of the state's problems. I want to create new solutions for those problems. I want to live in a state where men and women who work their 8-hour day -40 hour work week have the health insurance they need. The middle class fuels the economy in our state and I want to protect that. Under my leadership you would see these changes in policy.

At the top of my list I want to create equality in education for every district. I will apply common sense to the validity and effectiveness of each program and determine if they produce adequate results relative to their cost. As Governor, I will prioritize a balanced budget. As one of the most overtaxed states I want to bring our state back into focus and lower our spending to a reasonable level with the ultimate goal of lowering state taxes for all.

For the sake of the future of you and your children *please vote*.

My previous 8 campaigns have never been to win but to tell voters Sound Transit should've never been allowed to spend billions adding Prop 1 extensions to Central Link. Now it's only a question of whether it's the Northgate operation in 2021 or East Link in 2023 that vindicate my concern

This year it's to debunk claim fossil emissions are an existential threat. That Al Gore's "Inconvenient truth" is in fact a monumental lie. Ice core temperatures from four prior interglacial periods were higher than current levels with 300 ppm CO2 far lower than current 410 ppm. That during those periods the CO2 level was the result of increased out gassing from ocean when temperatures were warming and increased dissolution when temperatures were cooling. Both warming and cooling were driven by the Sun.

It was the Sun that raised temperatures and CO2 levels after the last ice age, culminating in the Medieval Warming Period, Little Ice Age, and subsequent warming prior to significant fossil emissions. The increased fossil emissions have added to the Sun's impact on CO2 over the last 60 years raising level to the current 410 ppm.

However it's the Sun not higher CO2 levels from increasing fossil emissions that can significantly increase global temperatures. The ~5 gigaton carbon (GtC) annual fossil emissions currently increase CO2 by ~2ppm. If emissions averaged 10 GtC over the next 50 years the additional 500 GtC would add 200 ppm raising the current level from 410 to 610 ppm, or from 0.041 to 0.061%, still a tiny fraction of the 96.5% CO2 that warms Venus.

My campaign and stjopeastlinknow blog are to expose the futility of adding trillions more in an attempt to limit global warming by reducing that increase.

I wholeheartedly vow to fight for you and to be everyone's representative. I will focus on issues that matter to each of us. Let's improve our *quality of life*. Let's focus on *reducing* state taxes and *increasing* household incomes. Let's focus on clean but also *affordable* energy.

Let's focus on fixing our *homelessness* issues and reforming our *family court system*. Let's focus on upholding our *"Bill of Rights."* There is nothing *"common sense"* about giving up our rights. Let's focus on election integrity reform and replacing fake representatives. These are just a few examples.

Unfortunately our state government as well as the state parties have been heavily *infiltrated* by fake representatives. There are also too many manipulated candidates. Statement

My young children's years of pointed questions about people living alongside our roads, clearly needing help, caused me to doubt and question our current politicians. Even to kids, it was obvious that something was wrong. I had worked in a UN refugee camp where people had lost everything, fleeing violence; yet, it was more hygienic and humane than my hometown. Unable to find plausible explanations and wanting better for Washington, I had to speak out.

Tone deaf measures coming out of Olympia are one-sided and unbalanced. Current politicians throw money at problems first, asking questions later--this must stop. They've been in power so long they've forgotten to listen to neighbors or manage their spending. We cannot tax our way back to health from our current crisis. I'll provide the critical check and balance we've lost, being a leader who seeks compassionate solutions while protecting taxpayers.

I will bring the fresh perspective direly needed in Olympia. We need a Lt. Governor fighting for families and businesses, not more of the same government approach. Let's get this right for our children's tomorrow, as well as their today.

We passed legislation that had not been accomplished for over ten years by other students. Part of success is respecting all kinds of people with different values and religious beliefs and getting them to agree on a common course.

The Lt. Governor is the Leader of the Senate and must convey a sense of harmony and calm to the members. Relaxed and happy people are civil to each other and work together on fixing serious problems like the coronavirus. I have Legal and formal education to do the job. The main duty of the Lieutenant Governor is to preside over the State Senate.

Since I am not a member of either the Republican or Democratic Parties, I am uniquely qualified to be the most practical and impartial 'referee' facilitating discussion in the State Senate. The best solutions are created through explanations from multiple perspectives. I will give voice to all sides of the issues.

As someone who hasn't received donations from big money special interests, I am likewise best suited to carry out the duties of Rules Committee Chair. Only a 'gatekeeper' that isn't beholden to those special interests can ensure the voice of the people is heard in the Senate.

While serving as our Lieutenant Governor, I will make sure legislation is openly debated and that bills are fair, clean, and on topic. I will seek ways to make the legislative process more accessible to the citizens. If you feel your elected representative is not listening, you can contact me directly. I am the Lieutenant Governor we all need, and I am asking for your support and your vote. Together, we can break partisan gridlock and keep the Senate on track serving the people of Washington.

Statement

Our state government has piled on draconian restrictions, many of us were completely broken, businesses in shambles, life dreams and hard work crushed, incredible unemployment, families ravaged by state government. Do you want more of the same?

Imagine a state where crime and homelessness are dealt with, where 10th through 12th grade students transition to living wage jobs. Imagine transportation under control with a plan we can afford that solves mobility problems around our state, low taxes, fear of a state income tax is a bad memory of the past failed policies.

Now imagine a Lt. Governor that will stand up for you regardless if you are Republican, Democrat, or Independent. Imagine what it would be like to have control and a direct connection to voice your opinions. Imagine what it would be like to work toward the common goal of getting our states economy up and running so you and your family can prosper.

Imagine a time when your vote counts now more than ever. I believe I am the best candidate and with your vote I promise to serve diligently on your behalf. I humbly ask for your vote for Lieutenant Governor - thank you, Bill Penor

Statement

As your most experienced candidate for Lieutenant Governor, I bring 45 years of award winning achievement to this position (Joint Base Lewis McChord Civilian Hall of Fame recipient, National Wrestling Hall of Fame inductee, Washington State House of Representatives Veterans Legislator of the Year, Town of Steilacoom Citizen of the year and many more). My decisions are based on common sense conservatism, science based environmental stewardship, and the belief in local control of decisions and resources is usually best. People create jobs, not big government. I support the voter approved \$30 vehicle tab fee initiative. I am actively supporting the repeal of Engrossed Substitute Senate Bill 5395, the K-12 Sex Education Law which was recently enacted by our state legislature. I oppose any proposed version of a state income tax. I am an active proponent of our bill of rights, especially our 1st and 2nd amendments. We need to continue to defend our property rights, a basic human right which makes our capitalist system work. I am a defender of Life, I am Pro Life. Property taxes are already too high. Statement

As we navigate the unprecedented challenges that lie ahead, it's critical we have state leaders with the experience, competence and civility to guide our government on the path to a more prosperous future for all.

As a lifelong Washingtonian and Democrat, I've served at every level of government and been committed to promoting values of a more fair and just economic system, a strong public education system, and a commitment to our environment to ensure generations to come will be able to enjoy the peerless natural beauty of our state. I will continue to champion these causes while fulfilling the other duties constitutionally assigned as Lieutenant Governor.

With your continued trust, this office can ensure we don't roll back the progress we have worked so hard for in Washington State. We have an opportunity to build a state that is better than it was before and not sacrifice our most vulnerable in the name of progress.

I'm honored by the numerous former and current elected state and community leaders, environmentalists, labor and business leaders, and so many other of our neighbors that have chosen to support our campaign and our vision for a better future. I ask for your support.

Statement

This election is about you, your safety, and your opportunity to succeed. It is about what kind of future we want our kids and grandkids to have. It is about restoring trust, correcting wrongs, and doing things in a new, innovative, and collaborative way. It includes a future that provides for safer, cleaner and more vibrant communities, an accountable and fiscally responsible government that is looking out for you. A future where every child gets his or her best opportunity to succeed is by having multiple educational pathways to choose from, including college, online learning, CTE, VOC Tech, Charter schools, the Trades, and Apprenticeships. A future where it is easier to start a business, buy a home, and commute to your job—a future where elected officials model integrity, defend your God-given rights, and value all equally.

I have 35 years of leadership experience that spans Healthcare, Housing, Media, and Ministry and decades of community service. That balanced with having grown up with a ranching and farming heritage, the values learned as an Eagle Scout, and a heart of collaboration. I will use the Legislative and Executive tools of the office to fight for a better future for all.

Statement

Many recognize the flaws in our elections, and we know these flaws create imperfections in government. We should never feel limited to choosing the lesser of two evils when voting in our diverse state -- and compromise, empathy, and respect should be encouraged in government. If you agree, even partially, please visit edminger.com.

As a candidate I refuse to purchase advertising. Beyond that, I offer new, strategic, nonpartisan ideas.

First, reduce the expectation of two-party victories by allowing 3-5 people to compete for your vote. Implement *approval voting* to end fears of wasting a vote on your true preferences. Second, special interests and donors purchase preferential access to leaders, and they're understandably concerned about losing access. Don't fight them. *Prohibit candidates from running paid advertising*, and the necessity for donations will fall tremendously.

I have a handful of other ideas around one goal; *making our representative government more representative*. That's it... I don't blame people, parties, or special interests. The flaws in our elections have created imperfections in our government. When we improve elections, officials will be free to become their best selves. ---Your visit to edminger.com is a critical step towards addressing our shared beliefs.

Statement

If you elect me Secretary of State, I pledge to kick corporations out of the vote counting system, reclaim public ownership of elections, and restore the secret ballot. I will use this campaign, and the position of Secretary of State, to champion economic recovery for small businesses, workers, the unemployed and the marginalized.

Private companies currently control your vote counting software. Clear Ballot, Dominion (formerly Diebold), ES&S, and Hart Intercivic, are the four companies in Washington with certified software to count your vote. Your mail ballot is counted by proprietary, trade-secret, software. To fix this, I will implement the use of publicly owned open source software if elected.

For too long, the Secretary of State has been functioning as a marketing and sales position for big corporations. My goal is to focus this position on the economic needs of those who work essential jobs, run small businesses, and do the work vital to our families, our neighbors, and our communities.

Government is for the people and by the people. It is not for the corporations and by the corporations. It is time that those running our government understood this and acted in the best interests of the public.

Statement

As Secretary of State, my most critical responsibility is to inspire public confidence in Washington's elections. We achieve that when access and security are balanced. That's why we created a secure statewide voter registration system to implement accessible same-day voter registration; established the first Elections Security Operations Center to respond to foreign interference and cybersecurity threats; and coordinated the efforts to develop robust state and county continuity of operations plans to respond in a pandemic.

Because Washington is a nationally recognized leader, we have been able to help other states innovate and secure their elections by expanding mail-in voting options during the coronavirus pandemic. I am proud to be the only candidate with elections experience – in fact, I've run over 120 elections in Washington.

This has helped earn the endorsements of all three former Secretaries of State and over 50 Democratic, Republican, and independent County Auditors and Elections Directors. They understand the complexities of this job and share my passion for accessible and secure elections, streamlined business services, open public records, and preserving state history.

I ask for your vote to continue this important work and maintain the nonpartisan integrity and citizen-oriented philosophies of this office.

Statement

Voting rights and election security are under attack across the country. In a time of persistent voter suppression and election interference, we need a Secretary of State who will boldly defend every vote and every voter.

I'm running for Secretary of State because I have 30 years of experience as a senior defense intelligence and national security analyst defending our country from attacks. I believe that this office needs a new type of leader to protect our election systems and voter information against current and emerging threats.

Currently, our national and state election officials are putting party before our democracy. Our state's top election official has not denounced threats to defund the US Postal Service or condemned dangerous attacks on voting by mail. These threats to election security must not go unchallenged. In contrast, as a legislator I've supported every effort to expand voting rights and have passed bipartisan laws to protect elections and election workers for all of us.

The needs of this office have changed. It's time for a new era in Washington state elections. I am prepared to face these challenges and lead through the uncertain times ahead. I'd be honored to earn your vote.

Statement

It is an honor to serve you as State Treasurer. I'm proud of the achievements my office has made with the help of an excellent Treasury team.

I've been a strong advocate for an adequately funded Rainy Day Fund and will continue to steadfastly protect pension reserves and work to eliminate the unfunded pension liability. I will continue to advise the legislature on reducing the amount of state debt that is too high. I'm proud of the state debt refinancing that saved the state over \$450 million in interest and achieved a triple-A bond rating for the first time in state history. We will continue to expand the programs that help local governments with their financing & investment opportunities and continue to grow the financial literacy program.

Managing public funds should not be subject to partisan politics. That is why I'm proud and honored to have the endorsement of past State Treasurers Mike Murphy and Dan Grimm, both Democrats. Bipartisan support is also evident in the over 50 current and past County Treasurers and County Officials that have endorsed my re-election.

I humbly request your vote to continue the work safeguarding public funds and increasing the transparency of state finances.

Elected Experience

Washington State Representative; House Capital Budget Committee Member.

Other Professional Experience

Mike's broad experience is needed to lead us through today's complicated legal financial challenges. An economic crimes prosecutor (Assistant Attorney General), Mike managed a State unit of financial examiners, auditors, and fiscal analysts that returned over \$30 million to taxpayers from financial fraud and government waste.

Education

Bachelor's degree (Business Administration, economics minor); Master of Rural Development (Fulbright Scholar, economic development); Law Degree, Gonzaga.

Community Service

As Washington Equal Justice Coalition Chair, Mike advocated for homeowners unlawfully foreclosed upon, veterans denied benefits, and predatory lending victims. Federal Way Chamber of Commerce. St. Theresa's Church parishioner.

Statement

Mike will be an independent treasurer who has *never accepted corporate campaign donations*. He will stop the longtime practice by treasurers of investing in the same corporations that fund their campaigns. Mike shares our Washington values; the incumbent treasurer supports Donald Trump for President.

A financial transparency champion, Mike led efforts to make the legislature's records open for public view. He passed laws to expose "dark money" in politics. He wrote the Corporate Crime Act that increases financial penalties by 100 times. The Treasurer's Office thanked Mike for working to pass laws that improved treasury investments.

Mike will put working families' and retirees' needs first. He will fight to return a billion dollars of Washingtonians' unclaimed money stuck in the treasury back into your hands. Mike opposes a personal income tax and successfully supported laws reducing property taxes.

The son of educators, Mike will keep a watchful eye on your \$100 billion pension investments. He won't miss required Investment Board meetings. The incumbent treasurer personally attended just 3 of these 18 critical pension meetings since the fall of 2017. Endorsed by: Washington Education Association, State Nurses Association, State Labor Council, Washington Conservation Voters, Senator Patty Murray and leaders throughout Washington.

I am the *only candidate* who holds a CPA license, the highest standard of competence in the audit industry. To obtain a CPA license, one must possess a specialized education, have relevant experience, and have passed both ethical and technical examinations. I also have over a decade of auditing and accounting experience, including leading and managing teams for two of the largest and most well-respected audit firms globally — Deloitte and PricewaterhouseCoopers.

Education

Community Service

Volunteer Income Tax Assistant, Junior Achievement

Statement

We deserve a leader with both management *and* technical expertise who can lead the agency to modernize the audit process. We deserve a leader who does not have deep political ties preventing him from maintaining independence and objectivity. We deserve a leader who understands and will implement industry best practices. Most importantly, we deserve a leader who knows how an auditor should lead before, during, and after a crisis. *I am that leader.*

In fast moving situations, leaders must understand their capabilities and be decisive. They must also have the professional knowledge and experience to justify their decisions. An early window appeared during the pandemic where quick and decisive leadership may have helped to identify some of the weak spots in government. For example, an audit of the state's unemployment office may have identified deficiencies in preventing the estimated *hundreds of millions* in fraud. This was a missed opportunity to provide accountability. As a CPA and a proven leader who has routinely made these types of decisions, I have the experience to be the effective leader we need.

Washingtonians no longer need to choose between leadership and expertise. I will bring both to this office.

Community Service

I operate an animal rescue called Secondhand Hearts on our farm and also rescue horses from kill pens across Washington.

Statement

The State Auditor's Office deserves someone who will finally unlock its full potential to serve Washington. This position has a vital role in oversight of your public dollars, but it also has the power to perform auditing that can change the way government agencies spend that money more efficiently.

I am the candidate in this race that has the most hands on experience with government auditing and government process at the investigative level. I also have perspective on all types of Washington governments instead of those just within our major cities.

We need an auditor that combines all of this experience with a desire to bring lean business practices to the office and to make recommendations in Washington agencies that will create jobs and opportunities across all of our state. Wherever my department can find opportunities for us to spend money on products and materials made by Washington businesses, we will recommend these opportunities be prioritized by our state government.

This November, remember that your auditor should be less about their party and more about their boss: You.

Statement

I have had the honor of serving as the elected Washington State Auditor for the past four years. I am proud of being the first woman to hold this position. Prior to State Auditor, I served as Pierce County Executive and Pierce County Auditor. I have a proven and tested public record of leadership.

As State Auditor, it is a privilege to lead over 400 employees working across the state to provide fiscal and accountability audits of all local and state governments. We have increased the number of cybersecurity and performance audits, while conducting numerous investigations including uncovering the largest fraud on record.

My vision to "increase trust in government" means greater transparency and accountability of public money. To accomplish this goal, I have created a user-friendly, interactive website that gives you important information about each government that serves you. Having an independent, objective review of public dollars is the hallmark of my work at the State Auditor's Office.

I have been endorsed by many people and organizations, which are listed at my website: www.patmccarthyauditor.com. I am seeking re-election to this important job and ask for your support.

Statement

I'm running to be your Attorney General because as a lifelong Washingtonian and father of four little kids, I believe that they deserve a better, safer Washington. Everyone agrees that the homeless situation in our cities has spiraled out of control, and no one is doing anything about it. This is unacceptable! For 8 years, homelessness, drug abuse, and crime have been on the rise. As Attorney General, I will make this a priority! I am dedicated to making sure law enforcement and first responders have the tools, training, and resources they need to do their job well.

Statement

As the son of a World War II refugee, Mike understands what tough times are like. People are hurting. True leadership is rare. Decisions impacting our lives and livelihoods are guided by partisanship and not the rule of law. It's time we changed that.

As your Attorney General, Mike Vaska will protect the Evergreen State, not advance a partisan agenda. He's the only candidate with decades of legal experience, which he'll use to improve public safety, protect consumers, and be an independent check on state power.

State government must take an all-hands approach to rebuilding our economy by supporting small businesses, farmers, and all workers. Mike will convene a "Create Jobs Now" task force to streamline permitting and reduce regulatory burdens. Mike will demand results to end our state's homelessness and public safety crisis, bringing people together to find real solutions – not relying on the past's failed policies.

Mike has earned bipartisan support from statewide leaders we trust like Governor Dan Evans, Attorney General Rob McKenna, former Congressmen Dave Reichert and Sid Morrison, and local leaders like Spokane County Commissioner Mary Kuney, Snohomish Council Chair Nate Nehring, and Vancouver business leader Ann Donnelly. Statement

Olympia has become unresponsive to the people of our state: Tax increases during times of budget surplus, legislative votes in the dead of night, title-only and "ghost" bills. I want to represent the forgotten people of our state.

As attorney general I will focus on public safety, government accountability, and safeguarding all of our civil rights. During my law enforcement career I gained experience impartially enforcing the law at the street-level, researching and setting criminal justice policy, and supervising in a large government organization.

Personal and governmental accountability are passions of mine. Equal protection under the law means just that; the rules must be applied to everyone, equally. While conducting internal investigations in law enforcement and education settings I strove to ensure that all were treated fairly but were also accountable for their actions.

I recognize the role of government is to protect the rights of all individuals, that government derives its power from the consent of the governed, and that the government does not grant your inalienable rights. As attorney general I will represent you, the people of Washington and I will not compromise when it comes to protecting your civil rights.

Statement

In the beginning God created the heavens and the earth. If elected, I will direct an independent, state funded study of the effects of 5G cell-phone towers upon living things. My research indicates that this radiation is killing trees, birds, honey bees, human life.

I will deconstruct 4 Hydro-electric dams in the Columbia River. This will allow salmon to return to their natural habitat eliminating the need for unhealthy salmon farms and saving the state hundreds of millions of dollars per year.

I will stand with Washington farmers against the radical policies of the EPA. I will allow livestock grazing on state land. I will allow sportfishing year-round. I will stop chemtrails in Washington state. I am against Bio-mass use for electricity. I am against the use of wind power. I am against coal trains. I am against massive solar power energy farms. I am against the Bill and Melinda Gates Foundation, eugenics, Satan, New World Order. I will end clear-cutting of timber, and allow only selective timber cultivation. I am against off-shore oil drilling. I believe public lands should remain public and should not be sold. I am against the "Green New Deal".

Education

JD, Northeastern University; BA, Smith College.

Community Service

Former board member of Conservation Northwest and Washington Environmental Council.

Statement

Hilary Franz is proud to serve as Commissioner of Public Lands. She is relentless in creating bold, transformational change. As the leader of Washington's wildfire fighting force, Hilary pushed for new strategies to reach fires quickly and keep them small. She then secured record-setting funding for our wildland firefighters.

Hilary is a defender of our public lands. When the federal government tried to open our waters to offshore drilling, Hilary refused to allow drilling equipment to cross our coastline. In the face of climate change, Hilary is prioritizing wind and solar power and making investments to save our forests.

Hilary leads by bridging divides and bringing people together. She's earned high marks from leaders across the state, including from conservative leaders in rural Washington, who've praised her willingness to solve local issues, increase funding for schools, invest in rural economic development, and tackle our forest health crisis.

Hilary's Washington roots run deep, from her grandparents' cattle ranch in Pierce County to raising her three boys on a farm on Bainbridge Island. Endorsed by the Washington State Labor Council, National Women's Political Caucus, Washington Conservation Voters, Sierra Club, Washington Education Association, and Democratic and Republican leaders across Washington.

Statement

These days, partisan politicians have become overbearing and lost the original purpose of this country's core mission statement: To promote the liberty, freedom, and the ability to pursue happiness for the American public.

I, Kelsey Reyes, will ensure partisan politics has no place in our public lands and that we will continue to push for environmentally-backed reform that isn't based on personal feelings or corporate desires but rather objectively with science. It is time to remind our citizens that they hold the power in our nation. Elected officials should be honored to represent you and work for you, but understand that they do not rule over you nor should they act without taking accountability for their actions.

As such, as your Public Land Commissioner, I will place the needs of the environment and the people, above the needs of the State, political parties, corporations, and lobbyists. This nation is founded by the people, and its land is owned by "we the people." The condition and health of how we leave the lands for the next generation is my upmost important role when I am elected as your next Public Lands Commissioner.

Statement

Our public lands have been ravaged by natural disasters including tree infestations and forest fires. They’ve also been damaged by a political disaster: state managers that have focused on serving special interest groups instead of providing for taxpayers, school districts, and outdoor recreational enthusiasts.

No more policy-by-press-conference, or angling for higher political office. It’s time for new leadership. Sue is running to bring that new leadership to DNR, the agency responsible for managing our state’s 3 million acres of trust land.

Informed by a lifetime of managing natural resources, Sue will work to ensure that Washington’s working forests continue to provide a steady, reliable stream of income for our public schools. We’ll do this by adopting proven forest management techniques that reduce disease and excess fuel loads in our forests, which accelerate devastating forest fires. Sue will use her experience as a UW and NOAA fisheries and habitat biologist to strike the right balance between protecting wildlife and protecting Washington’s forest economy.

Raised in rural Washington, Sue has a distinguished career in natural resource management, including service as a regulatory liaison for a major hydropower construction project. She has raised two adult children and survived breast cancer.

Statement

My deepest concern is the selling of our state to the highest bidder. Amazon and Weyerhaeuser will not buy me and I will not give up on the people of Washington. If we heal our politics, we can heal the PNW. We have to look deeper into the relationship our policies have on land use and the laws of nature in order to heal the land, sea, and animals.

The land cannot speak for itself, the animals are being ignored, and many people of our state are forgotten. I would like to give all a voice, even if they are not Democrats. Our indigenous brothers and sisters have been mistreated since European explorers first set foot on this land. I intend on giving them their autonomy back and helping them to restore the land, water, and wildlife of this state.

Part of healing the land is healing our economy. Restoration ecology and permaculture are vital to the survival of the PNW. I believe in the GND and that organic hemp farming is a way to create living wage jobs for our people and end our addiction to petroleum and clear cutting.

Community Service

Union Gospel Mission; Boy Scout Leader; Red Cross blood platelet donor; youth soccer referee; school bus driver.

Statement

I'm Ron Higgins, the conservative candidate for Washington State Superintendent of Public Instruction. I'm a teacher, an engineer, and a retired Marine. I'm pro-life, pro-family, pro-Second Amendment, pro-property rights, and pro-free enterprise.

Having taught in Washington state schools for 10 years, I know our schools are failing our children. I've met high school students who didn't know how to add fractions or what the words "pledge" and "allegiance" mean, seen leftist propaganda in our schools (e.g., favorable portrayal of Communist mass-murderer Che Guevara), and dealt with bureaucrats who didn't want me to hand students copies of the US Constitution.

Our schools should be teaching the communication, computation, and civics skills children need to become productive citizens. As Superintendent, I will emphasize instruction in basic academic subjects, healthy lifestyles, and respect for the United States, our Constitution, and our God-given civil and religious liberty. I strongly support parental rights to homeschool. I vigorously oppose "comprehensive sex education" and any curriculum that promotes or glamorizes unhealthy behavior or the sexualization of children. We need common sense, not common core; education, not indoctrination. Vote Ron Higgins to put the public back in charge of public education.

Statement

Our schools are facing a defining moment. Teachers aren't happy, families are stressed, students are struggling, and the opportunity gap is widening. The delivery of public education has changed dramatically, and we've been forced to adapt. Now is our chance to reimagine a better education system because *the status quo is no longer an option*.

To improve our school system, we need to: use technology to *innovate classrooms* and unlock possibilities for more *personalized learning*; provide school schedules that fit the needs of *working families* and teachers; and teach students key *life skills* like managing finances, living independently, and resolving conflicts.

With kids of my own in public schools, I support parental choice and local control. Meanwhile, nearly half of Washington's students are failing to meet state standards in core subjects. I am endorsed by parents, teachers, and school board members across Washington because *I respect community input*.

I am running for Superintendent because I believe *our kids deserve better* and can achieve more. If elected, we will update our school system to meet the needs of families, teachers, and the future economy.

Statement

This election is important to the future of our Republic. The purpose of public instruction is to help children and young adults to become enlightened citizens. Given the disordered state we're living in, it seems obvious that educational policy must be to blame. Our mistake is surrendering our sovereignty of thought to Eastern and European elitist academics who are so out of touch these days that day laborers have more common sense. How else to explain the failure of trillions of dollars a year, decade after decade, on "education" that we spend leaving us in this mess? Sometimes I think it would be better to just start all over from 550 BC with a Pythagorean Academy, since it's been all downhill in the common sense department since then. It's so bad that now the experts routinely fail us, whether they be scientists, educators, lawyers, doctors, journalists, and politicians. Where will our children be in 2030 and 2045? If they are to be happy and free, they must learn to love mathematics, physics, language and history. Every human being is born with the divine spark of intelligence. My job will be to provide constructive guidance to our teachers.

Statement

As a parent and teacher, I understand how crucial it is that every child has an experienced teacher and a safe school environment. But I also think it was wrong for Olympia bureaucrats to shut down every school in our state regardless of the circumstances in each local school district.

It makes no sense to shutdown schools for months at a time when there is not even a single case of any child in any school anywhere in our state transmitting the corona virus to any adult. The closure decision should have been left to local school boards – as it has always been in the past.

The scientific research has been clear: thanks to their remarkable immune systems, children were never a risk to adults! Yet our schools were closed for months simply because hapless bureaucrats in Olympia believed inaccurate studies claiming millions of people were going to die unless all of our schools were closed. In fact, through May, about 600 fewer people died in Washington this year than last year!

I am running for Superintendent to restore common sense to Olympia and local control to our public schools. Please visit our website for more information!

Statement

Why pick Wick for Superintendent?

We can all agree: Education is a core value so important that it's written into our state's constitution. With the exception of the quarantine, educating our students today looks much like it did when Washington's constitution was ratified in 1889. The same can't be said for today's world, changes come faster with each new day. I believe that we can do a better job preparing our students to meet tomorrow's opportunities.

Decisions I made as school board director always contained the answer to the question: "How does this benefit our students?" I will do the same as your state superintendent. I will ensure we focus our attention on that most important educational relationship: the one between the teacher and the student. I know how school districts operate and will ensure that they effectively and efficiently deliver a quality education to our students. As an adjunct instructor, I have had real world experience teaching students online from around the world.

My vision is to eliminate "good schools" from real estate ads because every school in Washington will be a wonderful place to learn. Please join me as we shape the future of education in Washington state.

Statement

Thank you Washington voters, I am grateful to serve as your State Superintendent. We have achieved so much together: Record graduation rates with more rigorous course taking; Dual language learning is expanding; Supports for students with disabilities are growing rapidly; College courses are increasing in our high schools, saving families tens of millions of dollars in tuition; Civics is a graduation requirement again; Career and technical education is now a graduation pathway option; School construction is at an all-time high, creating thousands of jobs; Teachers are finally earning competitive market salaries; and healthcare has been expanded to thousands of additional school employees.

We have major work ahead of us: 1) Emerge from COVID-19 better connected; 2) Enhance mental health and other student supports; 3) Improve kindergarten readiness; 4) Build more career and technical education programs; and 5) We must ensure that rural communities have equitable access to educational resources.

It will take experienced leadership to maintain our investments and further improve student achievement. I am the first Superintendent in more than 30 years to have kids in public school during my service. I am endorsed by Washington's Teachers! I would be honored to earn your vote.

Statement

I am running for Commissioner to protect my family and yours from government and insurance corruption. For decades Washington families have been affected by rising rates, increasing deductibles and lack of choice with insurance.

Under my leadership, we will increase choices for health insurance plans including health sharing memberships and reduce costs. For the diverse needs Washingtonians we need diverse solutions. I support allowing insurance to be purchased across state and national lines, creating a la carte options, catastrophic coverages, removing taxes on insurance and healthcare and putting patients in control.

I will abolish mandatory credit checks on insurance, make it easier for new cost saving plans to be sold in WA and bring back legal defense insurance. I oppose career politicians and support term limits. Politicians get paid too much and have better benefits than average citizens. I call for a reduction in salary for State Executives while also abolishing the taxpayer funded health insurance and pensions they receive. Statement

As a citizen, father, and small business owner, I know the Coronavirus pandemic has impacted all families in our District and beyond. I am running for State Representative to focus on rebuilding our economy; elevating the outcomes in our schools and living our lives again with the confidence that our future health and safety is secure.

Now is the time for new voices to be heard in Olympia to amplify common sense, shared values, and practical solutions for the benefit of us all. I ask for your vote so that together we can lead Washington to a better way forward.

Elected Experience

Current State Representative, Vice Chair of the Capital Budget and Human Services & Early Learning Committees; House K-12 Education Committee; Former Issaquah School Board Director previously serving as Board President.

Other Professional Experience

Former lead engineer and project manager for Boeing. Former consultant managing large scale software development programs for businesses.

Education

Bachelor of Science in mathematics with an emphasis in computer science from Northern Arizona University.

Community Service

Board member with The Garage Teen Center and Influence the Choice Drug Prevention Alliance for Youth. Active volunteer with Kiwanis, and Issaquah Chamber of Commerce. Former loaned executive to the United Way of King County.

Statement

Our communities have been impacted by Coronavirus and are reeling from the economic fallout. Now is not the time for partisan, divisive politics. My priorities include getting businesses back up and running, investing in public health infrastructure, providing public schools the tools necessary to succeed, and making sure our state budget matches our values. As we face challenges ahead, I'll continue advocating for quality, affordable child care, and work to ensure unsheltered youth have a safe place to call home.

Statement

I'm a longtime labor organizer and social justice activist. As a lifelong 11th District resident, I understand what's important and work hard every day to serve working families. I've spent my career fighting for family wage jobs, and passed many significant pieces of legislation - even with a divided legislature. I stand on my principles and get the job done. I reflect our community's strong work ethic and am honored to bring our values of social and economic justice to Olympia.

I believe in fiscal prudence (which includes transparency and accountability) and generating new revenue without raising regressive taxes. Creating a publicly owned state bank does all those. It would create tens of thousands of jobs, save us money, increase our capacity to finance infrastructure, help support needed programs (especially through the COVID-19 crisis), and keep our tax dollars working for Washingtonians, rather than creating profits for Wall Street. Now more than ever, there is a critical need for innovative fiscal solutions and I'm proud to be leading this effort in Olympia.

Together, we'll continue to build on our legislative work and create hope for future generations.

Thank you for your continued confidence in me to represent you in Olympia.

Community Service

I currently volunteer with a local food bank delivering meals to elderly shut-ins. I am a mentor to leading youth education and activism non-profits. I have served as a board member for several social and activism organizations.

Statement

The role of government is first and foremost to protect its citizens rights; life, liberty and property. I have been concerned with the slow creep of bureaucracy and abuses of power infringing on our civil rights. Limiting how we educate our children, preventing many from starting a business, and hindering economic opportunity is unacceptable.

As a student of Austrian economics, all decisions have consequences. Unfortunately, our representatives have made clear they only look at "intentions" with short term perks. I will be a reasoned voice and an advocate for long-term success for you, your family, and our state.

Statement

Representation matters and our district is ready for change. I'm running to be a champion for our diverse communities. Income inequality in our district has increased over the past decades and is at risk of worsening without economic policies that are immediate, innovative and inclusive.

I'm the product of a union family, an attorney and renter, and the only candidate endorsed by a local Democratic organization. Our district needs someone that shares our values, and will champion our issues: income inequality, preventing gun violence, equitable access to education and criminal justice reform. Community Service
Walsh demonstrates his love for the community through years of volunteer service and serves on the Federal Way Human Services Commission.

Statement
Seattle’s influence over Olympia has caused unequal and unjust taxes on our families and small businesses—this has to stop. In spite of a revenue surplus, our current leadership adopted over \$25 Billion in new taxes in the last budget. Now major budget shortfalls are projected. I’m running because I fear their next step will be an income tax.

I have the small business experience to help get the economy rolling again. My other priorities include combating our homeless crisis, creating affordable housing solutions, ensuring we have equitable education funding options, and holding Sound Transit accountable to our taxpayers.

Still trying to reverse "Roe v. Wade," this era's "Dred Scott" (would make adoption easier for moms giving up newborns). As someone who needs to attract Democrats as well as Independents and Republicans, I've championed Social Security, populism, and have developed an offshoot of the environmentally-conscience 1980's Citizen Party. Since 2004, running the Commoner Local Affairs Committee, whose motto is "Vote for who you want, not who you're suppose to."

Statement

If anything has shown the Radical Democrats' hand, it was their lowering the penalty of intentionally transmitting a communicable disease from felony to misdemeanor (the appointed position 2 incumbent agreed). Their penchant for not balancing off privileges that they give away worldwide, thereby riding roughshod over citizens' rights, will lead to, in Oct., 2020, standard driver's licenses being inadmissible for airplane travel, etc.

I'll need the support of classical Democrats, too, for victory. Know that I'm for Teddy Roosevelt-style environmentalism and trust-busting, social conservatism and Bill of Rights. Unlike some politicians, I actually try to accomplish said goals.

Statement

I am honored to serve the diverse 37th District communities where I learned that our ability to thrive as individuals depends on our collective commitment to the common good. Today, this lesson is being tested in a way not tested in recent memory. The COVID-19 crisis underscores what is essential: our health, our schools, and our ability to respond to emergencies, maintain our basic services, and provide a safety net. I believe in public service, so I work hard to support our first responders, nurses, teachers, and other essential workers. I ask for the continued privilege to represent you.

Statement

My campaign is about Bold Structural Change, not just incremental reforms. The public health and economic crises stemming from the pandemic, coupled with the climate change crisis, suggest major changes in state policy. I support a single-payer health care system, to decouple health care from employment and provide universal health care coverage. The state also desperately needs a new source of progressive revenue, as it has the most regressive tax system in the country. And it is imperative for the state to aggressively address the existential threat of climate change. My candidacy is dedicated to addressing these major challenges.

Statement

Despite forewarnings from fiscal conservatives across our state, imploring our current Legislators to put our historic budget surplus into the rainy day fund, they not only spent that money, they also increased taxes to levels that were predicted to be unsustainable.

It is long overdue to pluck from the private sector smart, current, and conservative business pros to salvage what is left from this beyond challenging era in which we now find ourselves. Prudent management of our tax dollars will be crucial to solving our traffic congestion issues, lack of affordable housing and other problems plaguing our state.

Through partnering and running businesses for 35 years, I faced severe multi million dollar budget contractions to survive for another day. I also led 3 successful taxpayer revolts against local bond measures that stopped 100's of millions of dollars of irresponsible public sector spending.

Using that acumen, I promise not to tell you what I think you want to hear. Instead I will deal with the cold hard truth of what must be done to salvage our state's economy and the way of life we all hold so dear.

Proposition No. 1
Levy of General Tax for Maintenance and Operations

The Board of Mountain View Fire and Rescue adopted Resolution No. 20-535 concerning a proposition to adequately finance maintenance and operation costs. This proposition provides for the support of fire protection and emergency medical services, facilities, maintenance, staffing and operations by authorizing the District to levy the following excess taxes:

Collection Year	Approximate Levy Rate/\$1,000 Assessed Value	Levy Amount
2021	\$0.30	\$965,000
2022	\$0.30	\$965,000
2023	\$0.30	\$965,000
2024	\$0.30	\$965,000

Should this proposition be approved?
Yes
No

The complete text of this measure is available at the Elections Office or online at kingcounty.gov/elections.

Statement in favor

As residents of the Mountain View Fire and Rescue we are fortunate to have highly skilled, well-trained emergency personnel and fire fighters. The Fire District is asking for a Maintenance and Operations Levy to update protective gear and apparatus.

Our fire stations are a community investment and some stations require major repairs and maintenance to extend their usable lives. A fire engine and a water tender need to be replaced before they become unreliable. Other critical equipment updates needed are defibrillators and self-contained breathing apparatus. The pandemic has shown how important personal protective equipment is. These items are essential to saving lives, but are too expensive to fund through the regular fire levy, which pays for daily operations.

The proposed M&O Levy would cost the average homeowner around \$10 per month. It would expire in four years, but the investments will last 15-30 years.

Our Fire District has a long history of only asking us for help when it is needed. In fact, this is only the second time they've requested additional revenue in 66 years. They are there 24/7 to help us. We need to do our part. Please vote yes.

Submitted by: Linda Sue Cowan, Jim Rottle, cowanls@comcast.net

Explanatory statement

If approved by the voters, Mountain View Fire & Rescue will be authorized to collect a Maintenance and Operations levy in the sum of \$965,000 per year for a temporary four-year period. The District estimates that the associated tax levy rate each year will be approximately \$0.30 per \$1,000 of assessed property valuation. This excess levy will be in addition to the District's regular tax levy.

Call volumes increased almost six percent last year. The District is limited to a one percent revenue increase by state law, and it's not keeping up with the demand for service. More calls mean added wear and tear on emergency equipment. Certain emergency apparatus needs to be replaced before becoming unreliable. Some fire stations also require major repairs and maintenance to extend their usable lives.

These capital items are too expensive to fund through the District's daily operating levy without cutting emergency service levels. This M&O levy will allow the District to pay cash for these purchases thereby avoiding interest charges. The District also anticipates a portion of the M&O levy will help cover unanticipated costs associated with COVID-19, such as personal protective gear for firefighters and medical equipment.

The M&O levy would cost the owner of a \$384,000 home (an average for the area) approximately \$9.60 a month. The levy would expire in four years, while the capital items will last for 15-30 years. More information on the M&O levy can be found on the Fire District's website at www.mvfire.org.

Proposition No. 1
Levy of General Tax \$3,750,000 for Maintenance and Operations

The Board of Commissioners of South King Fire & Rescue adopted Resolution No. 573 concerning a proposition to finance maintenance and operation expenses. This proposition, if approved, will authorize the District to levy, without regard to the limitations of chapter 84.52 RCW, a property tax upon all taxable property within the district of:

Collection Year	Approximate Levy	
	Rate/\$1,000 Assessed Value	Levy Amount
2021	\$0.19	\$3,750,000
2022	\$0.18	\$3,750,000
2023	\$0.17	\$3,750,000
2024	\$0.16	\$3,750,000

to be used for maintenance and operations and increase the current level of fire services and emergency medical services. Should this proposition be approved?

Yes
No

Statement in favor

South King Fire & Rescue (SKFR) needs your support to replace the expiring Maintenance and Operations (M&O) Levy. The M&O Levy is a funding measure previously supported by voters in 2012 and 2016 to maintain essential fire district services. During this time, SKFR has maintained helpful, professional service with rapid growth in population, development, and call volumes that now exceed 20,000 emergency responses each year.

Replacement of Expiring Levy. Using the 2017 M&O levy rate of .19 cents per \$1,000 of assessed valuation provides the personnel and equipment needed for this M&O levy period. The homeowner of a \$400,000 home will pay just over \$6 dollars a month (\$1.60 more than currently paying).

Support Fire. This levy funds a variety of necessary expenditures that maintain staffing and replace outdated equipment, ensuring quality fire, life safety, and emergency responses. Without this critical funding SKFR would be forced to reduce resources that support the community and postpone equipment replacements.

Vote Yes! The essential nature of SKFR's work is more visible in this infectious disease environment, where firefighter/EMTs perform skillfully on the front lines. They serve us well. We must continue to support SKFR to maintain a strong and healthy community.

Explanatory statement

South King Fire and Rescue, serving the citizens of Greater Federal Way and Des Moines, is placing an excess levy proposition on the August 4th, 2020 ballot.

This proposition will authorize the fire district to collect \$3.75 million annually, at an approximate rate of \$0.19 per \$1,000 of assessed valuation for the first year, for a four-year period covering 2021 through 2024. The proposition is a replacement to the expiring levy, and is presented to allow voters the opportunity to maintain current fire department services and personnel. This is known as a Maintenance & Operations Levy (M&O levy).

Voters approved in 2012, and again in 2016, an M&O levy. The fire district depends on the M&O levy to augment regular property tax revenues. Restoring the 2017 levy rate of .19 per \$1,000 of assessed valuation will allow the fire district to collect an additional \$1 million per year for 4 years. These funds will be used to reinstate the fire district's capital improvement plan for the timely replacement of aging equipment.

The District's Board of Commissioners has determined that this proposition is necessary to maintain an effective level of service and to reinstate the capital improvement plan which has been frozen since the last recession. Rejection of this proposition would lead to reductions in service levels, the layoff of fire department personnel including firefighters, potential elimination of special services to the community, delays in the replacement of emergency equipment, and similar cutbacks.

King County Elections – Securing Our Elections So Every Vote Counts

At King County Elections, our top priority is ensuring that our elections are secure, accessible, and accurate. We know that secure elections are essential to maintain public trust, protect our democracy, and enable our voters to cast a private, confidential choice with their vote.

Physical Security

The King County Elections Headquarters was designed and renovated specifically for processing vote-by-mail ballots and keeping those ballots secure. Director Julie Wise was the first election administrator in the country to request an audit of physical security by the Department of Homeland Security in 2016.

What we're doing:

- Our facility is monitored by over 50 security cameras
- Six live webcams through which the public can watch us at work during the ballot processing period
- Staff and observers must badge into and out of the ballot processing area
- Ballot storage and tabulation areas require both a badge and biometric access

Cybersecurity

In our rapidly changing world, cybersecurity is paramount to protecting our elections. Previous years have seen attempts to tamper with election systems across the country. None of these attempts have been successful here in King County and every day, our team works to make the walls higher and barriers stronger for those looking to influence our elections.

Following the 2016 election, Director Julie Wise requested a review of the department's cybersecurity from the Washington State Auditor's Cybersecurity Team to identify and implement practices and procedures to bolster security of our systems and electronic access points.

What we're doing:

- Employ cybersecurity staff based in Elections and at King County
- All staff receive annual cybersecurity training
- Voter registration and tabulation systems are kept separate for maximum security
- Tabulation system is on an entirely closed network, not connected to the internet
