IMPORTANT INFORMATION FOR POOL PARTICIPANTS
WITH A FISCAL YEAR ENDING DECEMBER 2016

To: Accounting Managers

Below is information that may be useful when completing your investment footnote disclosures for 2016.
Please contact Manny Cristobal at 206-263-2742 or manny.cristobal@KingCounty.Gov if you have any questions.

Suggested GASB No. 40 Disclosure Statement

In accordance with State law, the district’s governing body has entered into a formal interlocal agreement with the
district’s ex officio treasurer, King County, to have all its funds not required for immediate expenditure to be
invested in the King County Investment Pool (Pool).

As of December 31, 2016, the district had the following investments:

<table>
<thead>
<tr>
<th>Investment Type</th>
<th>Fair Value (1)</th>
<th>Effective Duration (2)</th>
</tr>
</thead>
<tbody>
<tr>
<td>King County Investment Pool</td>
<td>$$$, $$$, $$$</td>
<td>1.10 years</td>
</tr>
</tbody>
</table>

Impaired Investments. As of December 31, 2016, all impaired commercial paper investments have completed
enforcement events. The King County impaired investment pool (Impaired Pool) held one commercial paper asset
where the Impaired Pool accepted an exchange offer and is receiving the cash flows from the investment’s
underlying securities. The Impaired Pool also held the residual investments in one commercial paper assets that were
part of completed enforcement events, where the Impaired Pool accepted the cash-out option. The District’s share of
the impaired investment pool principal is [Maximum Risk of Loss] and the district’s fair value of these investments
is [Maximum risk of Loss: less Unrealized Loss]. (3)

Interest Rate Risk. As of December 31, 2016, the Pool’s average duration was 1.10 years. As a means of limiting
its exposure to rising interest rates, securities purchased in the Pool must have a final maturity, or weighted average
life, no longer than five years. While the Pool’s market value is calculated on a monthly basis, unrealized gains and
losses are not distributed to participants. The Pool distributes earnings monthly using an amortized cost
methodology.

Credit Risk. As of December 31, 2016, the district’s investment in the Pool was not rated by a nationally
recognized statistical rating organization (NRSRO). In compliance with state statutes, Pool policies authorize
investments in U.S. Treasury securities, U.S. agency securities and mortgage-backed securities, corporate note (rated
at least “A”), municipal securities (rated at least “A” by two NRSROs), commercial paper (rated at least the
equivalent of “A-1” by two NRSROs), certificates of deposits issued by qualified public depositaries, repurchase
agreements, and the Local Government Investment Pool managed by the Washington State Treasurer’s office.

Where to obtain the information necessary to complete the template:
(1) A Pool participant can calculate the fair value of its investment in the Pool by taking the value from the
monthly Pool newsletter from the line titled “Net asset value at fair value price per share” for the pool and
multiplying this number times the amount of cash that the participant has in the Pool. For example, if a
participant had $1,000,000 in cash invested in the Pool, the fair value of its investment in the Pool at December
31, 2016 would be calculated by taking $1,000,000 times .9979, or $997,900.
(2) The effective duration of the Pool was 1.10 years as of December 31, 2016.

(3) Use King County supplied Excel file or GL Report for maximum risk of loss and the King County supplied excel file for unrealized loss amount, or the composite fair value ratio, 0.6209, on the impaired pool section in the December 2016 monthly newsletter.

**Note to Pool Participants:** While we believe that the template above meets the disclosure requirements of GASB Statement No. 40, each local government should consult with their own accounting advisors for guidance.
